

Dulles to Speak On Formosa Aid

UNITED NATIONS, N.Y. (AP)—Secretary of State Dulles will tell the United Nations today the United States is opposed to UN consideration of the Formosa crisis as long as there is any chance of reaching agreement with Communist China in the Warsaw talks.

Executives Return To College Life

For two months each summer, men in "grey flannel suits" leave their business offices to return to school.

Top executives of companies throughout the nation receive a broad education concerning key managerial problems in the University's classrooms. The program is sponsored by the College of Business Administration.

Two sessions, each four-weeks long, were held this summer starting June 15 and July 20. This was the third summer for the program.

Selected by their companies for the special program, the executives lived and studied together in the Beta Theta Pi fraternity house. Forty-four men were enrolled.

According to Dr. Earl P. Strong, professor of management and director of the program, the Executive Management Program focuses on two basic interrelated areas of management problems: determination of company policy and implementation of policy decisions through internal management.

"The program is designed to provide an integrated study of essential areas of management rather than a series of specialized courses," Dr. Strong explained. "The small group conferences which characterize the program facilitate this approach."

Classes are held every morning, Mondays through Saturdays.

Communists Shell Nationalist Positions

TAIPEI, Formosa (AP)—The Chinese Communists opened up on Quemoy with heavy artillery and deep-penetration shells yesterday in what appeared to be a new attempt to smash Nationalist gun positions.

Previous heavy shellings were aimed at blasting supply vessels coming ashore at Quemoy or at Nationalist troops.

By Nationalist count, the Reds dropped in 8,333 shells on the Nationalist offshore islands up to 6 p.m. The last 52-minute bombardment of more than 1,200 shells was aimed at Quemoy. Other targets were Little Quemoy and the Tan islets.

The Nationalist military information service said that Tuesday's heavy bombardment of Quemoy killed 11 civilians and wounded 22 others, 9 seriously.

The bombardment did not halt the Nationalists' trickle of supplies to Quemoy. Two LSTs

this late yesterday as the UN's powerful Steering Committee postponed for 24 hours debate on whether it should recommend Assembly consideration of admission of Communist China.

The committee approved a big list of issues, including Algeria, Cyprus, disarmament and control of outer space.

Dulles will deliver the general policy address of the United States to the 81-nation Assembly Thursday morning. Soviet Foreign Minister Andrei Gromyko will speak in the afternoon.

Informed sources said Dulles will touch on five key subjects—the Far East crisis, the situation in the Middle East, peaceful use of outer space, Hungary, and the question of indirect aggression.

The informants gave these added details as to what Dulles has in mind regarding Formosa:

The United States regards the situation arising from the bombardment of the Chinese Nationalist-controlled offshore islands as most serious. But it won't bring the situation into the U.N. unless the U.S.-Red China diplomatic talks in Warsaw show there is no intention of the Peiping regime to work out a cease-fire.

If the case is presented to the U.N., the United States will agree to permitting a representative of the Chinese Communists to state his country's position.

The question has been raised as to whether the Chinese Nationalists will agree to any cease-fire. The United States will consult with the Nationalists, and feels they will be reasonable. The first consideration is to halt the shooting.

McDonald Defended by Steelworkers

ATLANTIC CITY, N.J. (AP)—Delegates to the United Steelworkers convention yesterday shouted down a move to limit the appointive powers of their president, David J. McDonald.

The action of the 3500 delegates was in effect the second vote of confidence given the 55-year-old labor leader since the union's ninth constitutional convention opened on Monday.

An opposition faction had proposed that the 800 international union representatives—business agents and organizers—be elected by the rank and file instead of appointed by the president.

But after a three-hour discussion, which included an hour's debate between McDonald and the leader of the opposition faction, the delegates representing 1,200,000 union members overwhelmingly voted to continue present procedure.

There were about 15 negative votes.

The opposition faction is known as the Dues Protest Committee, a group headed by Donald C. Rarick, McKeesport, Pa., steelworker and delegate to the convention. It was set up two years ago after a union convention boosted monthly dues from \$3 to \$5 and raised McDonald's salary from \$40,000 to \$50,000.

Capitol Denies Adams' Quitting

NEWPORT, R.I. (AP)—The White House denied anew yesterday that Sherman Adams has resigned, and press secretary James C. Hagerty said he knows of no plans for the top presidential aide either to quit or be fired.

These new denials came amid a growing Adams-must-go clamor from many Republicans along with published reports that a resignation is imminent.

The New York Times reported a decision on Adams' status was imminent.

Adams has been under fire for accepting costly favors from Boston industrialist Bernard Goldfine. He has denied doing any improper favors for Goldfine in return, but a number of GOP candidates say they fear their chances in the November election will be hurt if he stays in the White House.

Teamster Reformers Move to Block Hoffa

WASHINGTON (AP) — Monitors of the scandal-scarred Teamsters Union asked the U.S. District Court yesterday to enforce their orders for a union housecleaning.

They also moved to block the plans of James R. Hoffa, union president, to hold a convention next February, get the present slate of officers re-elected and push the monitors out of the picture.

In a petition filed with Federal Judge F. Dickinson Letts, it was contended reforms inside the Teamsters Union haven't progressed nearly far enough to dispense with the monitors. They were appointed by Judge Letts six months ago to ride herd on Hoffa's administration.

The petition was signed by the two-man majority of the monitoring board, Martin F. O'Donoghue and Godfrey Schmidt. The third member, Teamsters lawyer L. N. D. Wells, filed a dissent.

Wells said that while full compliance with more than 20 reform measures proposed by the monitors has not been obtained, the union's officers have demonstrated their good faith.

"Improvement in the affairs of the Teamsters must in the end arise from the will and action of the teamster membership, not from the actions of courts or congressional committees," Wells added.

Judge Letts is expected to hold an early hearing on the petition and decide to what extent he will back up his monitoring team.

The majority said Letts should decide when it is proper for the Teamsters to hold a special convention, and it asked for power to pass on the credentials of all delegates.

O'Donoghue and Schmidt asked yesterday for subpoena powers so they can get hold of Teamster's records needed for their monitoring work.

Pension Safeguard Proposed by Scott

LEWISTOWN, Pa. (AP) — Rep. Hugh Scott, Republican candidate for U.S. Senator, yesterday proposed a five-point program to safeguard the administration of union welfare and pension funds.

The plan features specific criminal penalties for embezzlement and kickbacks by persons who manage these funds.

Typhoon 'Helen' Buffeting Tokyo

TOKYO (AP) — Typhoon Helen began buffeting Tokyo after day-break today. Air and rail traffic was stopped and schools here and at Yokohama were closed for the day.

Winds were expected to reach 85 m.p.h. by noon along the eastern seaboard.

The Construction Ministry and national police rushed workers to the banks of major rivers to fend against any levee breaks and overflow from torrential rains.

Students Must Report Changes of Address

Students who have changed their local address since registering have been requested to report this change immediately to the Office of the Recorder, Room 4 Willard.

Students who did not list any address or did not list a telephone number may add this information to their record.
