

United States Calls For Cease-Fire in Formosa

UNITED NATIONS, N.Y. (AP)—The United States called yesterday for a prompt cease-fire in the Formosa Strait. But the Soviet Union declared only a complete U.S. military withdrawal from the entire area, including Formosa itself, can bring peace to the Far East.

Senate Rackets Committee Ends Probe of Union

WASHINGTON (AP)—The Senate Rackets committee ended a 7-week probe of Teamsters Union scandals yesterday with demands for corrective legislation at all levels of government.

The final day of this phase of the investigation brought these developments:

•The committee produced evidence of alleged collusion between James R. Hoffa, Teamsters president, and Chicago insurance men Allen Dorfman and Dr. Leo Pearlman which was said to have cost union welfare funds more than \$500 thousand.

•Counsel for the committee said he has evidence that Hoffa once threatened to have a lawyer for a rival union bumped off. Hoffa denied it 14 times in subsequent questioning.

•Hoffa announced he was going to try to get Godfrey P. Schmidt, a New York lawyer, thrown off the union's court-appointed monitoring board.

Since 1940, newspapers have maintained a constant level of popularity. News paper circulation has virtually paralleled the growth of households in the United States.

Pilots Claim Red MIGS Shot Down

TAIPEI, Formosa (AP)—Chinese Nationalist jet pilots claimed they shot down five Communist MIG's and sank three Red torpedo boats in the Quemoy area yesterday.

They claimed also the possible destruction of a sixth MIG and damage to a fourth boat. Nationalist air force headquarters reported all its Sabrejets returned to base safely. U.S. headquarters said no American pilots were involved in the action.

But the American command on Formosa has indicated U.S. jet fighters will go into action to aid the Nationalists if Communist planes attack Nationalist cargo planes making supply drops on the offshore islands. The Reds thus far have refrained from such attacks.

The Communists charged that 16 Nationalist planes flew over Fukien province on the mainland yesterday and that one was shot down and another hit. Peiping radio made no mention of any losses to its planes or torpedo boats.

The 81-nation General Assembly by Secretary of State Dulles and Soviet Foreign Minister Andrei Gromyko on the opening day of general debate.

Dulles expressed hope a cease-fire would emerge from the talks in Warsaw between U.S. and Communist Chinese diplomats. He said if the talks fail, the United States reserves the right to toss the issue into the United Nations.

Gromyko made no mention of the Warsaw talks in his 10-thousand word speech, nor did he propose any action in the United Nations to resolve the Far East crisis.

He said the United States was guilty of "modern international piracy," and compared present U.S. actions with those of Adolf Hitler prior to World War II.

"Everybody who has the interests of peace at heart cannot fail to condemn the U.S. policy of threats and provocations with regard to China, a policy of war," Gromyko said.

He demanded also admission of Communist China to the UN, and blamed U.S. opposition for keeping Peiping out.

Dulles charged that Communist China was attempting to seize Quemoy and Matsu by naked force.

U.S., Red Ambassadors Silent on Formosa Talks

WARSAW, Poland (AP)—The United States and Communist China talked terms for a cease-fire in the Formosa Strait for two hours yesterday but demands and counterdemands were kept rigidly secret.

Ford-UAW Contract Settled; Possible Strike Deadline Seen

DETROIT (AP)—The United Auto Workers, with a Ford contract settled, adopted a tougher attitude yesterday in bargaining with General Motors and Chrysler Corp.

It warned GM that the "time has come for them to quit playing games," and told Chrysler that machinery for a strike might be set in motion if real progress is not made soon.

The UAW summoned its executive board for a meeting today to approve the Ford contract and review Chrysler and General Motors negotiations. The board could be asked for strike authorization at that time.

GM and Chrysler resumed talks with Walter Reuther's UAW, but declined to comment on whether

the Ford-UAW pact worked out Wednesday had given either side a bargaining advantage.

At Solidarity House, home of the UAW, there was no such reluctance. Every union official from President Reuther down, felt the gains made in the Ford contract would be a springboard for further gains from the other two.

The UAW made it plain it would not accept mere carbon copies of the Ford agreement.

Douglas Fraser, of the UAW Chrysler negotiating team, told newsmen that actual progress has been made on only a couple of minor issues in the nearly six months of contract talks with Chrysler. He said strike authorization against Chrysler might be sought if no major progress is made soon.

Troops to Leave Cyprus

LONDON (AP)—Britain announced yesterday it will soon withdraw from Cyprus an infantry brigade stationed there to meet possible emergencies in the Mideast.
