

Formosan Solution Seen If Russia Ends Support

NEW YORK (AP) — Secretary of State Dulles said last night Russia could, if it wanted to, make possible a peaceful solution of the Formosa crisis.

Dulles said Red China, aided and abetted by Soviet supplies of arms and moral support, is "threatening war against us in the Formosa area."

Communist Fire Batters Quemoy After Brief Lull

QUEMOY (AP) — Communist mainland batteries broke a brief lull yesterday to hammer the Quemoy with some of the heaviest barrages of the offshore island war.

Twenty-four Communist MIGs were reported in the area of Quemoy—six miles off Red China—after the first heavy shelling in the afternoon.

Newsman spotted four jet trails twisting through the sky 45,000 feet above the 3-mile strait separating Communist Amoy and Nationalist Little Quemoy during the height of a second intense barrage of both islands at twilight.

But no air battles or confirmed plane sightings were reported by Nationalist officials here or in Taipei by late yesterday.

Hundreds of explosions on Little Quemoy were clearly visible from the rooftops of Quemoy City, on the larger island, during the murderous evening barrage.

Eisenhower to Begin Campaign Speeches

WASHINGTON (AP)—The White House announced yesterday that President Eisenhower will make two political campaign speeches in California next month and one in Chicago.

Press secretary James C. Hagerty said Eisenhower will speak in Los Angeles on Oct. 20, in San Francisco the following day, and in Chicago on Oct. 22.

Integration--

(Continued from page one) voicing administration opposition to the private school plan wherever it might be planned.

The Little Rock board did not advocate leasing the schools but rather anticipating such a plan, asked if it would be in contempt of court. The National Association for the Advancement of Colored People also asked for clarification.

Arkansas Gov. Orval E. Faubus closed the four schools after the U.S. Supreme Court ruled that integration at Little Rock's Central High must continue immediately.

The governor has called for a referendum tomorrow on whether Little Rock residents want the four schools segregated.

Red China, U.S. Extend Negotiations

WARSAW, Poland (AP) — The United States and Communist China decided yesterday to continue diplomatic negotiations aimed at easing Far East tension, despite gloomy reports of deadlock.

Diplomats expressed doubt that either power had shifted position enough to make a quick agreement possible but they said neither Washington nor Peiping wanted to take responsibility before world opinion for calling the talks quits.

U.S. Ambassador Jacob Beam and Red China's Wang Pingnan met for an hour and 45 minutes in a Polish palace, their fourth session of the current series.

They arrived looking grim and silent, and there was no noticeable difference when they left. They meet again next Tuesday.

The role of Moscow was also subject of intense speculation here.

General feeling in the Warsaw diplomatic corps—Communist and non-Communist—was that the Chinese were playing the role of a great power and not asking the Kremlin's permission before making a move.

They felt, instead, that Moscow was backing up Peiping when it had to.

U.S. to Issue Securities

WASHINGTON (AP)—The government announced yesterday it must raise about 3½ billion dollars in new cash next week through sales of short term securities because of a decline in the government bond market.

The secretary pledged no "indecision or weakness in the face of this challenge."

He said the United States will make no retreat in the face of "force or the threat of force." But, he added, "our position is otherwise flexible."

"We would find acceptable any arrangement which, on the one hand did not involve surrender to force or the threat of force, and, on the other hand, eliminated from the situation features that could reasonably be regarded as provocative or which were, to use President Eisenhower's words, a 'thorn in the side of peace,'" Dulles said.

Dulles spoke out in a speech prepared for the Far East-American Council of Commerce and Industry.

On other matters Dulles said: "Trade with South and East Asia, now totaling nearly five billion dollars, is growing steadily and will continue to increase."

"The United States will continue its total ban on trade with Red China. It seems clear that even if trade were today permitted between Communist China and the United States it would be of insignificant proportions," he said.

"If the Chinese Communist regime were brought into the United Nations," Dulles said, "they would have shot their way in."

Bomarc Test Run Succeeds

CAPE CANAVERAL, Fla. (AP)—The Air Force said yesterday its Bomarc air defense missile intercepted and "killed" another supersonic missile in a highly successful test.

A North American X10 research vehicle was roaring toward the Florida coast at a speed of about 1000 m.p.h. when it figuratively was blasted from the sky by the deadly Bomarc.

Later, however, the X10 crashed and burned when it ran off the cape landing strip after the test. The 66-foot-long X10 was used as a test vehicle in the now-defunct Navaho intercontinental guided missile program.
