

UN Diplomats Seek Settlement for Formosa

UNITED NATIONS, N.Y. (AP) — UN diplomats sought yesterday to work out a formula for easing tension over the Formosa crisis.

They conferred in an atmosphere of discouragement stemming mostly from inability to gain substantial concession from either the United States or Communist China.

India was among the nations probing Western and Communist positions in an effort to

House Chairman Makes Apology To Lawrence

PITTSBURGH (AP)—The chairman of the House special subcommittee which has been investigating television license grants yesterday telegraphed an apology to Mayor David L. Lawrence for a staff member's error in presenting information in the Channel 4, Pittsburgh, investigation.

In the telegram, Rep. Oren Harris (D.-Ark.) said he wished to "acknowledge and regret the error made by Mr. Oliver Eastland, staff member." Receipt of the telegram was announced here by Mayor Lawrence's office.

Harris' message was in reply to a telegram Thursday in which Lawrence, the Democratic nominee for governor of Pennsylvania, protested "against the committee procedures which caused newspapers throughout Pennsylvania and the nation to say that my name was 'linked' with irregularities in the awarding of Channel 4."

find some way to break the present deadlock. V. K. Krishna Menon, India's defense minister, has publicly offered his country's good offices to aid in easing tensions.

Secretary of State Dulles saw British Foreign Secretary Selwyn Lloyd and French Foreign Minister Maurice Couve de Murville separately during the day.

It was assumed that Lloyd filled in Dulles on his talks with Menon, and also on conversation held earlier with Soviet Foreign Minister Andrei Gromyko.

Gromyko was reported under pressure from Britain, Canada and Norway to try to persuade the Chinese Communists to agree to a cease-fire. But there was no indication he had consented.

The United States is insisting on a cease-fire in the Formosa Strait before participating in any talks about the status of the offshore islands of Quemoy and Mat-

Whereabouts Of Satellite Not Known

CAPE CANAVERAL, Fla. (AP) —The director of Project Vanguard said "we just don't know" what happened to the weather-probing satellite that was blasted high in space yesterday.

However, Dr. John P. Hagan admitted chances were slim that the United States had a fifth satellite in orbit.

"We don't like to be in this position," he said. "But the best presumption we can make at this time is to assume that the chances are greater that the Vanguard is not in orbit."

The 72-foot Navy rocket, plagued by five failures in six attempts up to now, blazed aloft at 10:38 a.m. EST.

It carried in its nose a 21½-pound satellite equipped to study weather patterns and cloud cover on earth.

Five hours after the spectacular launching, Hagan told a news conference that strong signals from the missile were received at several tracking stations at first but later the satellite transmitter reported only sporadically.

Electric Strike Looms

PHILADELPHIA (AP)—The International Union of Electrical Workers convention yesterday approved a change in its constitution that could circumvent opposition to a proposed strike against the General Electric Co.

Pro-Chamoun Fight Rages in Lebanon

BEIRUT, Lebanon (AP) — Street fighting spilled more blood in this troubled capital yesterday and armed supporters of former President Camille Chamoun marched through the streets demanding a new government.

The 4-month battle between the government and the

opposition thus turned full circle as militant Phalangists insisted that Premier Rashid Karami resign.

Until Chamoun finished out his term on Tuesday, the Phalangists had been standing firm against rebel demands that the pro-Western Chamoun get out.

Karami, who was the rebel leader in Tripoli, where the revolt broke out May 10, appealed to his comrades to lay down their arms.

But armed men—some witnesses said they were former rebels from the Moslem Basta quarter of the city—tried to disrupt traffic in a residential quarter of the city, apparently with robbery in mind.

Security forces fought an hour battle with them and when it was over two civilians were dead. It was the first bloodshed since Karami took office Wednesday night.

The appointment of Karami, which still must be confirmed by Parliament next Tuesday, was a clear victory for the rebels.

Camille Chamoun

Red Has Vodka, Demands Food

MOSCOW (AP) — A Soviet geologist registered a complaint of the spirit Friday in a letter to the newspaper Komsomol Pravda. He wrote that there is plenty of vodka in the remote Siberian area where he works but no wholesome food.

I. Cheban said residents of the area get a big laugh from the current campaign against drunkenness.

"How can it be otherwise if you see vodka everywhere at all times of the day and night but you can't find good food like oranges, lemons and green vegetables?" Cheban asked.

Thor, Jupiter Choice

Postponed by McElroy

WASHINGTON (AP) — Secretary of Defense Neal H. McElroy said yesterday he will decide in November whether to continue production of the Army Jupiter missile or the Air Force's Thor.

Quemoy Block Cracked By Nationalist Landing

TAIPEI, Formosa (AP) — The Nationalists cracked the Communist blockade of Quemoy yesterday with another supply landing operation under a hail of Red gunfire.

The Nationalist Defense Ministry claimed the landing was completely successful, and all ships withdrew unharmed.

The convoy of big LSTs (Landing Ships, Tank) steamed to a point about four miles off Liaolo Beach. Then the supplies for the Quemoy defenders were moved in the rest of the way with small amphibious, tracked vehicles that are known as Alligators.

Discharged from the LSTs, the Alligators plowed through rising breakers with two or three tons of cargo each. Communist shells splattered the beach area, throwing up geysers of sand, mud and water.

Reporters at the scene said there was at least one near miss but no direct hits during the risky operation.

Associated Press correspondent Forrest Edwards watched the unloading from a bunker and reported Communist MIGs wheeled across the sky but did not attack.

Red batteries on the nearby mainland hurled 3,722 rounds at the landing beach and other Quemoy targets on Friday, according to Nationalist count.

This compared with an average of about 10,000 rounds a day since the bombardment of the offshore island group started 35 days ago.

U.S. Supplies to Go For Quemoy Relief

WASHINGTON (AP)—The State Department announced yesterday a \$180,000 program for shipping civilian relief supplies to Quemoy and other Nationalist offshore islands threatened by Red China in the Formosa Strait.

No Americans will be involved in the actual on-the-scene delivery of the relief supplies.

Sen. Wayne Morse (Dem.-Ore.) said, meanwhile, President Eisenhower and Secretary of State Dulles should be impeached if they continue their present course with regard to Quemoy.

Hurricane Nearing S. Carolina; Typhoon 'Ida' Rages in Japan

By THE ASSOCIATED PRESS

Devastation raged in two parts of the world as Typhoon Ida, in Japan, and Hurricane Helene, on the U.S. Atlantic seaboard, spread havoc and death.

CHARLESTON, S.C. — Deadly hurricane Helene, packing 125-mile-an-hour winds, plowed toward the South Carolina coast last night as hundreds of residents in low-lying areas fled inland.

"This is a very dangerous hurricane," the weather bureau said in a 7 p.m. (EST) advisory, "and all islands, beaches and

waterfront areas should be evacuated to prevent loss of life as many escape routes will be covered by water . . ."

The bureau said "winds will become destructive by 10 p.m. (EST) last night reaching hurricane force near midnight."

As the bureau issued this emergency warning, the season's eighth hurricane was centered 120 miles southeast of this old port city. Helene was whirling forward at 12 miles per hour toward the northwest direction she had followed practically all day.

The emergency warning was directed to the entire coastline from Savannah, Ga., northward to Cape Fear, near North Carolina's southeastern tip.

TOKYO — Typhoon Ida killed 85 persons, injured 183 and left 91,000 families homeless on a devastating sweep through the Tokyo area early today.

The full extent of disaster in early morning darkness was still not known at daybreak.

Winds of 80 m.p.h. hit an hour after Friday midnight amid continuing downpours.

National police headquarters at 4 a.m. reported that besides 85 dead and 183 injured, 9 were missing and 401,000 homes were flooded to some extent.

There were no reports of American casualties.

Other reports to police said 21 vessels were lost and 11 damaged.

Coup Succeeds in Burma; Army Head Takes Over

RANGOON, Burma (AP) — The army seized power last night in Burma. Gen. Ne Win, commander-in-chief of the armed forces, was asked to head a new government and he agreed.

The bloodless coup apparently was designed to prevent Burma's shaky government from drifting into Communist hands.

Premier U Nu announced Ne Win had accepted an invitation to head a government and had agreed to hold general elections before next April 30.

U Nu appealed to the people to give their support to the general.

In a letter to the general, U Nu said he would advise President U Win Maung to summon Parliament to meet Oct. 28, at which time U Nu would resign and Ne Win would be named premier.

In his reply, Ne Win pledged to follow a neutralist policy in foreign affairs.

Ne Win, 48, is strongly anti-Communist. He has been quoted as saying "we must fight the Reds tooth and nail."

He visited the United States last year for medical treatment and while in Washington conferred with American military and defense officials.

As chief of the armed forces, he has headed an army of 60,000 to 80,000 men.
