

Allies Consider MidEast Removal

UNITED NATIONS, N.Y. (AP) — Secretary General Dag Hammarskjold told the UN yesterday he had conditional promises of an early withdrawal of U.S. and British troops from Lebanon and Jordan.

Norfolk Urges State to Open City Schools

NORFOLK, Va. (AP)—The Norfolk City Council yesterday unanimously adopted a resolution declaring a state of emergency and calling for state operation of Norfolk's six integration-closed schools.

Mayor W. Fred Duckworth made it clear to spokesmen for a group urging reopening of the schools that he thinks the situation is now out of the city's hands.

In reply to the Rev. Edgar A. Potts, president of the Norfolk Ministers Assn., Duckworth said that if the ministers wanted to do something about it, he would suggest that they talk "to the 15 families of the 17 Negro students assigned to white schools and try to get them to withdraw. Then we could open these schools tomorrow morning."

Lawrence Absents Campaign Trail

PITTSBURGH (AP) — Mayor David L. Lawrence, Democratic candidate for governor, is withdrawing temporarily from his campaign speaking schedule and is returning to Pittsburgh Tuesday to help seek a settlement in the dispute between Pittsburgh hotels and their union employes.

The secretary general said Lebanon and the United States hope to see the complete withdrawal of U.S. forces by the end of October, provided the security situation in Lebanon continues to improve.

He added that Britain and Jordan will announce Wednesday a decision to begin withdrawal in October, and that it will be completed as quickly as the situation in the area permits.

Jordan charged that President Nasser's United Arab Republic is still acting in a hostile manner toward King Hussein's regime.

In the Assembly, Abdel Mo'om Rifai, Jordan's minister of national guidance, accused President Nasser of continuing to block lines of communication to Jordan through both Egypt and Syria.

Rifai said official U.A.R. radio stations continue to incite Jordanians against King Hussein, and that Cairo newspapers have not changed their anti-Hussein line. He declared infiltration of men and arms into Jordan is continuing.

Chrysler Discussion Near Settlement

DETROIT (AP) — United Auto Workers President Walter Reuther yesterday arrived at what he called "a meeting of the minds" with Chrysler Corp. in an all-night bargaining session. But later Chrysler officials said they felt he was overly optimistic.

Both sides said they were in basic agreement on most economic matters.

The economic package for Chrysler's 70,000 UAW members reportedly followed lines of the Ford agreement.

Little Rock Schools Stay Unopened

Uncompromising stands of state and federal authorities on school integration combined yesterday to keep Little Rock, Ark., high schools locked against both white and Negro students.

"We are far from finished," said Dr. T. J. Paney, president of the Little Rock Private School Corporation. "We can't quit."

A referendum Saturday showed 72 per cent of the voters in favor of continued school segregation.

Gov. Orval Faubus who closed the schools Sept. 12 pending a vote on integration, said a way would be found to operate the schools.

"We think the action of the federal movement is illegal but if the injunctive action is made permanent, it will make our efforts more difficult but not at all impossible," Faubus said.

"As long as the people stand firm, a way will be found to preserve our traditions and educate our children."

He gave no indication of his plans.

U.S. Sends Supplies To Blocked Quemoy

TAIPEI, Formosa (AP)—The United States is sending huge new landing ships and C119 Flying Boxcars for a big Chinese Nationalist supply push to break the Red blockade of Quemoy.

The U.S. hope is that with the aid of the flying Boxcars and LSDs the Nationalists can start pushing through the

350-ton daily minimum of supplies the Quemoy garrisons need to maintain a strong defense.

In the present supply runs, the Nationalists are delivering only about a half of what the offshore islands need.

Another problem facing the Nationalists is the change of weather. With the advent of colder weather the seas are becoming rough—to rough at times for small supply vessels.

The Nationalists long have feared that the Red artillery blockade could starve out the Quemoy garrisons, as well as the civilians.

Little Quemoy was reported running out of food earlier this week, with a 25-day supply left for its civilian population.

President Chiang Kai-shek, in an apparent bow to U.S. public opinion, said Monday he would not order his bombers over the mainland unless the soldiers and civilians on the islands are in danger.
