Coed Suffers Ankle Break During Game

Carol Dott, sophomore in elementary education from Jenkintown, broke her ankle at 8:30 a.m. yesterday when she slipped on the wet grass on the field behind the Hetzel Union Building. She was playing a running game during a Physical Education 125 class at the time.

The instructor, Elmer Gross, professor of physical education, said the class was playing "One-Two-Button My Shoe," in which a swift change of direction is involved. Miss Dott injured her ankle when she made the quick turn.

Gross, thinking the injury a sprain, used the opportunity to demonstrate to his class the first-aid measures which should be taken, he said. He then had two members of the class carry Miss Dott to the University Health Center. She was later removed to the Centre County Hospital.

Dr. E. H. Adams, physician at the hospital, said the small bone of the lower leg, the fibula, was broken at the lower end near the ankle. He diagnosed the break as "not too serious" and added that Miss Dott will probably be in a cast for only a few days.

Pike Construction To Begin Oct. 13

Construction of Benner Pike, a modern highway to be built between State College and Dale Summit, "ought to start" by Monday, October 13, John J. Kelmar, district highway engineer, said yesterday.

Equipment and personnel are now being moved into the State College area. Kelmar said they will have to work all winter to finish by the set date of December 1, 1959.

The project will cost \$1,059,949.19.

Work planned for the winter includes:

- Construction of four new bridges.
- Widening of two more bridges.
- Installing of pipes.
- Moving of several houses.

The structure and grading work must be done in the winter so paving can start in the spring, Kelmar said.

When the new road is completed it will include a cloverleaf at the eastern end of the borough on College Ave. It will also include a new access road to the University — University Drive.

The Pike will be centered just about halfway between McClellan's Garage on East College Ave. and the intersection of Entrance Road and College Ave. It will carry the two-lane University Drive over College Ave. At this point College Ave. will

be six lanes—four for traffic, one for turning off and one entering the highway from the cloverleaf. From this point the road extends south of its present location over the hill in the direction of Evergreens and Dale Summit.

The four-lane highway will be 48 feet wide, with a two-foot divider strip in the middle. The surface will be of blacktop.

L. M. Hutchison, a contractor from Mt. Union, received the contract for the project after handing in the lowest bid. The bids were taken by the State Highway Department Office at Clearfield last Thursday. All that officially remains before construction is a contract interview between Hutchison and the Highway Department.

IFC Gives Astiz Council Scholarship

Carlos Astiz, junior in arts and letters from Argentina, has been awarded the Kent Forester Interfraternity Council scholarship for the 1958-1959 academic year.

Astiz, a professional soccer player in his native land, will coach the University freshman soccer team this season while sitting out a year of transfer ineligibility. He was introduced to the members of the IFC council at their meeting Monday night.

Penn State is believed to be the first school to adopt the mountain lion as a symbol.

Lion Coach Toretti To Speak at Rally

Sever Toretti, line coach of the Nittany Lions, will speak at the Penn State-Army pep rally at 7:15 p.m. tomorrow.

The pep rally, sponsored by Chimes and Blue Key hat societies, will be held on the lawn of Old Main.

A pep parade will begin at 6:45 p.m. in the Nittany-Pollock area and will go up Pollock Road to West Halls and back to Old Main.

Edward Hintz, head football manager, will be master of ceremonies at the rally and the AFROTC Band will play.

Civil Air Patrol to Meet Tonight in Willard Hall

Group 1300, Civil Air Patrol, will hold an orientation meeting for students, faculty and area residents at 8 tonight in 208 Willard.

Major Wayne Showers, group commander, will explain the organization, mission and activities of the local flying group, which is affiliated with the Pennsylvania Wing of the CAP.

Men and women interested in aviation and radio may attend.

The oldest building on the Penn State campus, Oak Cottage, was built in 1857.
