Nov. 19, 20 Set For Fall Voting

All-University Elections Committee has set Nov. 19 and 20 as the dates for the election of freshman and sophomore class officers in the Hetzel Union cardroom.

Bike Victim 'Improving Each Day'

Charles Willingham, junior in geophysics and geo-chemistry, from Pittsburgh is "improving each day" after a bicycle accident Friday night, a Centre County Hospital official said.

He suffered minor shock and multiple cuts and brush burns of the face when his bike upset on an unpaved part of East Waring Avenue. The accident occurred about a block east of South Pugh Street.

A hospital official termed his condition as good, but could not say when he would be released.

State College Police Chief John R. Juba said the borough put up a red and white barricade the day after the accident—Saturday.

At the time of the accident the street had not been officially turned over to the borough and was not completely within the borough's contract rights. Monday night the borough council voted to accept the paving contracts of Waring Avenue.

After the accident, Willingham walked to the Ranch Court Motel on nearby Rt. 322 where he was found in a dazed condition by an unidentified woman. The police were then called and Willingham was taken to Dr. John H. Light, a local physician. Light had the police take him to the Centre County Hospital.

POPE PIUS XII

Condition Of Pius XII Worsens

CASTEL GANDOLFO, Italy (AP)—The condition of Pope Pius XII grew worse last night.

The 82-year-old head of the Roman Catholic Church had rallied earlier from a coma and partial paralysis that attended a stroke Monday, but other symptoms recurred.

Then late last night a Vatican official said flatly the pontiff's condition had taken a turn for the worse. Pressed to elaborate on the degree of worsening, he replied only: "I stick by what I said."

A doctor close to the situation said the Pope was in worse condition than a medical bulletin issued at 6 p.m. had indicated. This source said the pontiff actually was still afflicted with partial paralysis that affected his upper body, face and speech.

There also were signs that the Pope possibly was delirious.

Another indication that the pontiff's condition had become more grave was the announcement that the Vatican Press Office planned to remain open throughout the night.

Vatican sources said members of the papal household disclosed the return of a urinary difficulty. His physicians had reported it

Persons Named As Ike's Assistant

WASHINGTON (AP)—Wilton B. Jerry Persons took over yesterday as President Eisenhower's No. 1 assistant.

But Sherman Adams, who resigned the top White House staff job under fire, is staying around for a while to help out.

Adams solemnly looked on from the back of the room

as Atty. Gen. William Rogers administered the oath of office to the lean, 62-year-old graying retired major general.

Adams didn't stick around to join the line of well-wishers congratulating Persons after the ceremony.

Eisenhower was at the front of the White House conference room beside Persons.

After Rogers had administered the oath, the President handed Persons his commission, smiled and said: "Well Jerry, here is a new diploma. This is one of the many capacities in which we have been together."

Persons, a long-time close associate and personal friend of Eisenhower, served with him in the Army. A member of the White House staff since Eisenhower took office in 1953, he has been deputy assistant to the President.

The White House said Adams will stay on until there has been an orderly transition. Press Secretary James C. Hagerty said he did not know how long that would be.

Adams resigned the \$22,500-a-year role of right hand man to the President Sept. 22 after there was no letup of the continuing criticism of his relations with Boston industrialist Bernard Goldfine, the gift-giving millionaire.

Adams insisted he had done no wrong in making inquiries of regulatory agencies about pending Goldfine cases.

But he agreed with Republican critics that his actions might hurt the election chances of GOP candidates in next month's elections if he stayed on.

The conference room was filled with relatives and well-wishers as Alabama-born Persons was sworn in.

Adams slipped to the rear of the room just before the ceremony started. He left as soon as the oath had been administered.

The new role will bring Persons an \$800-a-year salary increase.

Extended Den Hours Draw Bigger Crowd

By ELAINE MIELE

The extended hours in the Lion's Den drew a larger crowd than usual last weekend, according to Robert C. Proffitt, director of Food Service.

He also said that some of the students present said that they had been encouraged to come. The experiment would not be a fair one if students did not come of their own accord, he said.

Edward Frymoyer, president of the Association of Independent Men, said he did not believe any of the students present were pressured into coming. He said they were taking advantage of the later hours because they wished to.

The Lion's Den was open until 12:30 a.m. last Friday and Saturday on a trial basis to see if it would be feasible to keep it open later every weekend.

The original request for later hours was made by Frymoyer at a meeting of the Hetzel Union

Board. The extended hours would provide a place for freshmen to go on weekends since they are not allowed to visit fraternities because of the deferred rushing program, Frymoyer said.

Members of AIM conducted a survey in the HUB on Saturday night and reported that about 60 per cent of the students present were freshmen.

There was a line at the snack bar late Saturday evening, Frymoyer said, but figures on sales are not yet available.

Proffitt said he would know the totals later this week.
