

# Firing on Red Planes Strains Cease-Fire Talks

TAIPEI, Formosa (AP) — Communist planes swooped over Quemoy and touched off a hail of Nationalist anti-aircraft fire yesterday, straining the Red-proclaimed cease-fire in the Formosa Straits.

The Nationalist firing was the first since Red China had proclaimed a week-long halt in its artillery pounding of the offshore island effective early Monday. No further clashes were reported, and the Nationalists took advantage of the truce to push in more supplies by air and sea.

Eight planes in three formations approached Quemoy in the afternoon, the Nationalist Defense Ministry said.

They streaked over the island, then raced for the mainland with anti-aircraft shells bursting around them and machine gun tracers probing the sky.

AP Correspondent Gene Kramer reported from Quemoy that the Red planes had made two passes through a high overcast but did not open fire.

Maj. Gen. I Fu-en, Nationalist Air Force intelligence chief, said both jets and propeller planes may have been involved.

The Red flights did not necessarily violate the truce pledge. Peiping's original announcement said only that artillery shelling of Quemoy would be suspended seven days.

One condition, however, was that the United States cease conveying Nationalist supply ships to Quemoy.

In Washington, State Department Press Officer Lincoln White described the flights as provocative. Therefore, he said, the Nationalist anti-aircraft fire did not break the cease-fire.

The LaVie photography staff will meet at 7:30 tonight in the LaVie office in the basement of Carnegie Building.

# Reds Threaten to Match Tests

UNITED NATIONS, N.Y. (AP) — The Soviet Union declared yesterday lack of East-West agreement will compel it to continue nuclear weapons tests until the total reaches that of the United States and Britain combined.

WASHINGTON (AP) — The United States called on Russia Tuesday night to say whether she really wants a suspension of nuclear tests starting Oct. 31.

Soviet Foreign Minister Andrei Gromyko made the statement at a news conference called prior to his departure Wednesday for Moscow. He has been here since the opening of the U.N. General Assembly in mid-September.

Gromyko said he wanted to emphasize the importance Moscow attaches to a Soviet resolution recommending that all countries conducting tests discontinue them immediately, and then negotiate an appropriate agreement.

But in response to questions, Gromyko commented that an Assembly resolution is only a recommendation, and not backed by any legal force.

He declined to say specifically if the Assembly would end tests if the Assembly approved his country's resolution.

# Ike Names Stewart To High Court

WASHINGTON (AP) — Judge Potter Stewart of Cincinnati was picked by President Eisenhower yesterday to succeed Harold H. Burton on the U.S. Supreme Court.

Stewart, 43, is now a judge of the 6th Circuit Court of Appeals. He is a Republican.

The selection of Stewart for the high court was announced at a White House news conference which Stewart attended.

Burton will retire from the Supreme Court Monday on the advice of his physician.

Eisenhower gave Stewart a recess appointment which permits him to begin serving on the Supreme Court immediately on Burton's retirement. A formal nomination, subject to Senate confirmation, will go to Congress when it reconvenes in January.

The 6th Circuit Court of Appeals, on which Stewart has been serving has jurisdiction in Michigan, Ohio, Kentucky and Tennessee.

Stewart, a handsome man whose black hair is graying slightly at the temples, told newsmen his selection by the President took him by surprise.

# Chesterfield Ads Hit As False by FTC

WASHINGTON (AP) — The Federal Trade Commission yesterday ordered a halt to what it called false and misleading advertising that Chesterfield cigarettes have no adverse effect on the nose, throat or other organs.

The makers of Chesterfield also were ordered to stop claiming that Chesterfields soothe or relax the nerve and are less irritating than other brands.

# UAW Serves Notice Of New Contract Split

DETROIT (AP) — The United Auto Workers served 10-day contract cancellation notice yesterday on American Motors Corp. as the two resumed wage talks recessed almost four months ago.

The UAW has wrapped up overall, national agreements with General Motors, Ford and Chrysler, except for the latter's unionized office workers.

# Faubus Claims U.S. Is Persecuting Him

LITTLE ROCK, Ark. (AP) — Gov. Orval E. Faubus accused the U.S. government yesterday of attempting to penalize him, through extra personal tax demands and "pressure in other ways," for his fight for state's rights.

Federal law enforcement agencies are being used to persecute those who oppose the national administration, he said.

"We now find them (the agencies) acting as political arms of the national administration," he said, "and used to persecute and plant the seeds of fear in the hearts of those who disagree with the policies of the administration."

Curtis R. Mathis, district director of the Internal Revenue Service, said a mistake in the Little Rock office caused the incident.

He said Washington authorities had nothing to do with it. And in denying Faubus' accusation of federal "pressure," Mathis said:

"If this was pressure, it would have had to come from Washington and Washington did not even know of this action until I informed them."

Mathis called a news conference after Faubus made his charge.

He said the investigation of the governor's tax return was initiated in 1956, and given to an agent in August of that year — more than a year before the struggle began over integrating Central High School.

This was Faubus' newest blast in the deadlocked battle over the Little Rock schools.

# Hurricane Hits With Violence Near Bahamas

MIAMI, Fla. (AP) — Hurricane Janice, blowing far out at sea Tuesday became this season's deadliest tropical storm with word that a sailing vessel's crew was lost in Bahamas waters.

A report from Nassau said 18 persons drowned when the Haitian sloop Dien Davint sank Monday night at the south end of Long Island. Long Island is more than 200 miles southeast of Nassau, where a boatman drowned and boats, trees and communications were damaged by the storm.

One death was attributed to Alma, the season's first tropical storm, and five to Ella, the fifth.

Storm forecaster Gilbert Clark said there were indications the big storm, moving north-northeast, would turn even more toward the east Wednesday.

On such a path, the storm center would pass about midway between Cape Hatteras and Bermuda, roughly 400 miles east of the mainland.

# Pope's Health Fails--

(Continued from page one)

cleared up Tuesday morning. Other indications of deterioration were a quickened pulse—a beat of 102 per minute—and a slight fever at a temperature of 99.5 degrees.

There had been reserved optimism over the rally shown by the 82-year-old pontiff. The Tuesday morning medical bulletin said he had come out of a coma, thrown off the paralysis and taken some nourishment.

The Tuesday evening medical bulletin said his general condition remained satisfactory but it reported the high pulse and fever.

Doctors said a kidney block had been overcome. This urinary condition set in Monday night,

and a urologist was summoned to help relieve it. Vatican sources said the Pope in the evening was again suffering urinary trouble.
