

Russia Pushes Nuclear Issue

UNITED NATIONS, N.Y. (AP) — The Soviet Union demanded yesterday the United Nations give top priority to the question of ending nuclear weapons tests.

The Russians ran up against immediate opposition from the United States.

The clash took place in the 81-nation political committee,

where the United States made clear that its prime concern is no action be taken here that might jeopardize the success of crucial big power talks coming up in Geneva.

Soviet Deputy Foreign Minister Valerian Zorin declared that all members of the U.N. should have a chance to give their views on suspension of tests in advance of the Oct. 31st Geneva talks.

The United States, Britain and the Soviet Union will discuss methods of controlling an agreement on suspension of tests. Experts from East and West have already drawn up the technical requirements.

U.S. Ambassador Henry Cabot Lodge asked that the disarmament debate here be undertaken on a broad scale.

U.S. Halts Escort Of ChiangShips

TAIPEI, Formosa (AP) — U.S. warships stopped escorting Nationalist supply convoys to Quemoy today on the fourth day of the Chinese Communist cease-fire.

Nationalist ships and planes continued funneling tons of ammunition and other supplies to the battered off-shore island, its stocks depleted by the 44-day Red artillery blockade that ended last Sunday midnight.

With the Nationalists pledging not to shoot unless shot at, Americans here expressed growing hope the truce could be extended, perhaps for months. Peiping originally promised only a seven-day let-up.

The Nationalists did not share the U.S. optimism. Taipei officials said the Reds would break the cease-fire whenever it suited them.

In Washington, State Department Press Officer Lincoln White announced that U.S. convoys had been withdrawn from the Quemoy run. He warned they would start quickly if the Reds started shooting again but expressed the hope the cease-fire would continue.

Brig Gen. Lester Bork, chief U.S. Army adviser to the Formosa government, voiced confidence the Nationalists could adequately supply the off-shore island even if Communist artillery resumed the bombardment. Back in Taipei after an inspection of Quemoy, he reported its air and sea supply system had been vastly improved.

U.S. Judge Blasts Hopes Of Va. Segregationists

By THE ASSOCIATED PRESS

A federal judge yesterday slammed another door on the South's hopes to escape racial integration of classrooms when he ruled publicly paid teachers must not work in Virginia's makeshift private schools as long as they are segregated.

Already denied use of public school buildings for private classes in Arkansas, segregationists thus had the second major prop knocked from beneath their private school plans.

This teacher bar was set up in U.S. District Court at Harrisonburg, Va., while Gov. Orval E. Faubus of Arkansas shaped a nationwide drive for funds to operate segregated, private schools in Little Rock.

And in Charlotte, N.C., integration moved another quiet step forward when Fannie Waterman entered the 10th grade at Central High School and was cordially greeted at the door by two or three white girls.

At Harrisonburg, Judge John Paul ruled that private schools already operated on a make-do basis at Charlottesville and planned for Warren County must admit Negroes or stop using teachers idled when schools in those areas were closed by the state after being ordered to admit Negroes.

He refused, however, to order the reopening of the public schools in the two cities on an integrated basis, as requested by the National Association for the Advancement of Colored People. He declined to rule on the constitutionality of the state law under which the schools were closed, on the ground that a test now is being made in the Supreme Court of Virginia.

USSR Orders CBS to Close Moscow Office

MOSCOW (AP) — The Soviet government yesterday ordered the Columbia Broadcasting System to close its Moscow bureau and ordered CBS correspondent Paul Niven to leave within two weeks.

Niven said he was summoned to the Foreign Ministry and told the action was taken because of Soviet dissatisfaction at some recent CBS programs, especially a TV play, "The Plot to Kill Stalin."

The expulsion followed by two days an announcement that Mik hail Menshikov, the Soviet ambassador to Washington, had protested to the State Department about the drama. The envoy denounced it as a "filthy slander against the Soviet Union."

Glass Union to Strike

COLUMBUS, Ohio (AP) — The United Glass and Ceramics Workers Union has notified its membership to proceed immediately with strikes at 16 plants of Pittsburgh Plate Glass Co. and Libbey-Owens-Ford.

Some 25,000 workers will be affected.

Karami Quits Lebanon Post

BEIRUT (AP) — Lebanon's Premier Raschid Karami handed his resignation to President Fuad Chehab last night.

It was not immediately known whether Chehab accepted it. Karami, leader of the rebellion in Tripoli, has been premier only two weeks.

Karami's action followed the refusal of 31 deputies in the Lebanese Parliament to give him a vote of confidence.

The deputies signed a petition declaring no-confidence and Parliament Speaker Adil Osseiran submitted it to President Chahab.

The resignation move came as new disorders broke out in the capital.

Christian Phalangist foes of Karami charged that more than 100 of their followers had been kidnaped.

Pius XII Is Dead--

(Continued from page one) culatory attack struck him. He rallied slightly but the second attack yesterday was more than his frail old body could stand.

The Pope came to his summer

MOSCOW (AP) — The Catholic Church here had not offered prayers for the recovery of Pope Pius XII up to yesterday evening, presumably because it had no knowledge of his illness.

There was no news of it in Moscow papers.

residence here July 27 to avoid Rome's heavy summer heat. But he did not reduce his arduous schedule of audiences and speeches.

The past two months were

among the most fatiguing of the nearly 19 years of his pontificate.

Known as the "Pope of Peace" to many, it was Pius XII who some say saved Italy from the onslaught of communism. Pius XII's pleas for peace were heard and heeded often around the world.

The former Eugenio Cardinal Pacelli became the 261st Pontiff in 1939. Only 12 popes have held office for as long a time.

The body will be borne back to Vatican City, 18 miles from Castel Gandolfo, for the funeral rites.

All the popes for the last 400 years have come from Italy. The feeling at the Vatican has been that this likely will be the case again even though Italians no longer command a majority in the College of Cardinals.

GOP 'Gift' to U.S. 'New' Says Leader

ALLENTOWN, Pa. (AP) — Gov. George M. Leader declared yesterday that Republican leaders have given the nation "something new—recession and inflation at the same time."

"Family income is lower while prices are higher," Leader said in an address prepared for a dinner sponsored by the Lehigh County Democratic Committee at Allentown.

"Dear, do you suppose we could dine out tonight—I broke the can opener!"

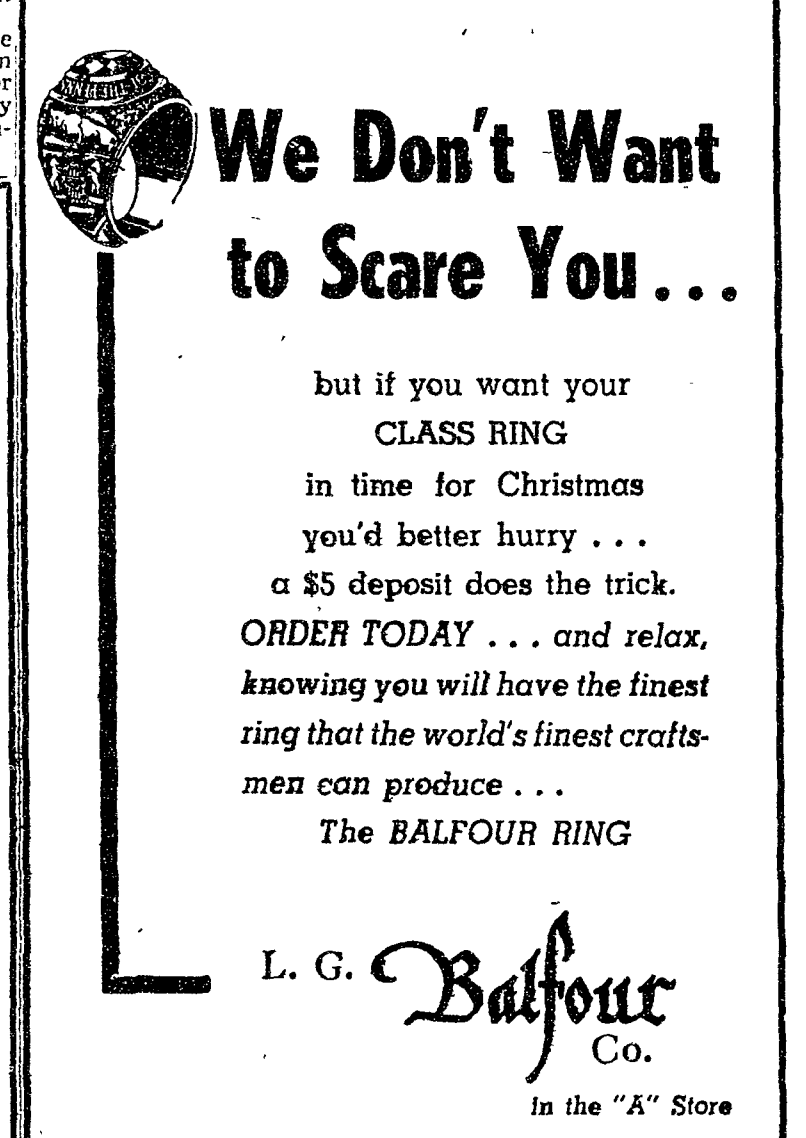

What harm a little trick, or more If it gets Pop inside our door!

Mums

To brighten your home . . . to wear to the football game . . . to gift your homecoming hostess . . . beautiful Mums are just right!
