

Keating, Rockefeller Get Ike's Support in Election

NEW YORK (AP) — President Eisenhower joined with Nelson A. Rockefeller and Rep. Kenneth B. Keating yesterday in a demonstration of unity between the White House and the Republican ticket in New York.

He told two party rallies, to which he rode in the rain, that by sending Rockefeller to Albany they will elect a governor just as great as the fine new senator he said they will send to Washington. Keating is running for the Senate.

Police estimated that some 30,000 persons saw the President on his two motorcade trips through the city.

Earlier in the day, his news secretary, James C. Hagerty, had brushed aside some published reports that Rockefeller held a negative attitude about Eisenhower's current politicking in New York.

Rockefeller himself told the rallies at state GOP headquarters and at those of the Eisenhower-Nixon National Citizens Committee, that to have Eisenhower join his campaign "really is terrific."

Then turning to the President, he said: "It is an honor and a privilege to have your support."

At the latter meeting, announcement was made that President Eisenhower will close his campaigning for a Republican Congress with a nationally televised speech from Baltimore Friday night.

Eisenhower, informed that funds had been raised to finance the Baltimore telecast, said he welcomed the opportunity to speak for the GOP cause "whatever the time, whatever the place, if it's humanly possible to be there."

Four Rescued In 2nd W. Va. Mine Explosion

SUMMERSVILLE, W. Va. (AP)—At least four miners survived an explosion deep in a southeastern West Virginia coal mine yesterday. Two others were found dead and the fate of 11 missing men was in doubt.

One miner was brought to the surface about 4 p.m. (EST), more than five hours after the blast. Three more miners, two of them in critical condition, were carried out by rescuers an hour later.

Earlier reports that three additional miners had survived did not stand up.

A company announcement late in the day said only that the bodies of two had been found and the fate of the 11 remaining miners was unknown.

It was the second mine explosion in two days in the West Virginia coal fields. Monday, 22 miners died when trapped gas ignited in a Pocahontas Coal Co. mine on the Virginia-West Virginia border near Bishop, about 90 miles southwest of here.

The second underground blast occurred between 10:30 and 11 a.m. at the Oglebay-Norton Co. Burton mine, located about two miles off a hard-surface road between Summersville, the Nicholas County seat, and Richwood, a coal mining community.

U.S. Questions Red Intent on Test Ban

UNITED NATIONS, N.Y. (AP) — The United States questioned yesterday whether the Soviet Union actually wants to negotiate a controlled ban on nuclear weapons tests.

The challenge to Moscow's sincerity was issued at the UN just three days before the start of Big Three negotiations in Geneva.

It came as Secretary of State Dulles said in Washington that Moscow's rejection of a one-year test suspension dimmed chances of the United States, Britain and the Soviet Union reaching agreement.

Sen. Bourke B. Hickenlooper (R-Iowa), a member of the U.S. delegation, called attention of the 31-nation Political Committee to a Soviet resolution recommending an immediate unconditional halt to nuclear weapons tests.

He said that while the Soviet Union had declared its agreement in principle to controls for a ban on tests its position "as set forth in the draft resolution pending before this body, leaves room for doubt as to how vital it believes a control system to be."

"One is compelled to wonder why the Soviet resolution fails to mention either the forthcoming Geneva negotiations or the principles of controls . . . I hope this is an oversight."

3 Red Scientists Win Nobel Prize

STOCKHOLM, Sweden (AP)—Three Soviet nuclear scientists won the Nobel Prize in Physics yesterday. The Prize for Chemistry went to an Englishman.

The Russians are P. A. Cherenkov, I. M. Frank, and Igor E. Tamm, all Moscow professors.

They were cited jointly for their work with high speed, subatomic particles. One product of their research was a cosmic ray counter.

Holy Communion

(Episcopal Liturgy)

FOR ALL CHRISTIANS

7:00 A. M.

THURSDAY

Hamilton Hall Lounge

Note: The worshipping congregation will designate the use of the offering.

Light breakfast following

The MILITARY BALL

at

Rec Hall

DECEMBER 5

★Your girl, too, can be Queen of the Mil Ball. Enter her picture at the HUB desk from Mon., Nov. 17 through Wed., Nov. 19.

★The picture will be mailed to the Cadets at the Virginia Military Institute, and they will choose the five finalists.

★The Queen will then be selected at the Mil Ball.
