Length of Stay In DOC to Be Judged by Poll

The Division of Counseling Student Council has appointed a committee to determine how long students in DOC feel they should be allowed to remain there.

The DOC faculty has been asked to recommend a suitable time span to University officials, who will make the final decision. The faculty hopes to obtain information on student opinion before making their recommendation.

The council committee, made up of Jane Kleinfeld, Kenneth Houck and John Borchert, has not yet decided on a way of polling student opinion.

At the present time a student is allowed to remain in DOC for a period of two semesters. Then he must transfer to the school of his choice.

The purpose of the Division of Counseling is to provide a place for those students who are not sure of the type of training they wish to receive.

Elections for All-University and class offices will be held this year, as last year, without any restriction on candidates as to fraternity or independent affiliation.

All-University Cabinet earlier last year junked the rotation system which specified that certain offices be held by fraternity men and others by independents.

Cabinet took this action after a study of the elections system was made. The study was recommended by the 1957 Student Encampment.

For the first time since the 1952-53 school year, elections for All-University offices and senior and junior class offices were held last spring with unrestricted affiliation.

Under the previous system, which was revised in March, 1957, All-University offices and senior class offices rotated each year.

As an example of the rotation system, if the All-University president was a fraternity man, then the secretary-treasurer and the senior class vice president had to be recruited from a fraternity or sorority.

At the same time, the All-University vice president would have had to be an independent as would the senior class president and secretary-treasurer.

Although the senior class officers' affiliation rotated each year, the junior and sophomore affiliations remained the same.

Each year the junior class president and secretary-treasurer and the sophomore vice president were independents while the junior vice president and sophomore president and secretary-treasurer were from fraternities or sororities.

Freshman officers were all independents since elections were and still are held during the first semester before pledging is allowed.
