two old rivals. It's a "must" win for both teams-and they realize it, ica. There millions participate Soccer is so big in Europe that throughout the year in leagues almost every town over 5000 peo-As for the Lions, they need the victory to help silence their for youngsters, to enter leagues ple has its own soccer stadium critics-who have been having a field day since the surprising open-ifor professionals like our base-and team. In Italy every town, it half leagues allowed the organization fields a ing season loss to Nebraska. A win wouldn't do the job completely, for two more tough encounters-with Holy Cross and Pitt-remain on the Nittany schedule. But it would start the Blue and White forces off in the right direction.

Down Morgantown way, the Mounties need a win to help salvage what has been one of the most disappointing seasons in their history. Rated in pre-season predictions as the best team in Coach Pappy Lewis' 7-year regime, the Mounties have been anything but outstanding. They won their opener against weak Richmond, 66-22, but were blasted by Oklahoma, Indiana, Boston University

and Pitt on successive weekends before edging VPI iwo weeks ago. West Virginia also is trying to overcome criticism—that of not being able to win against any team outside the Southern Conference. All of their conquests this year have come in the SC—Richmond, VPI and George Washington.

But returning to Penn State, the Lions have been castigated from almost every corner for their play this season. First it was that humiliating Nebraska loss. Then the thrashing by Army. And finally the Syracuse disaster. And with Holy Cross and Pitt following West Virginia, many Lion "fans" have been talking in terms of a losing season-the first one in 20 years at Penn State.

Add to this the comments concerning Penn State's expected easy victories over "weak" opponents-i.e., Penn, Marquette and Furman-and it is understandable why the West Virginia game is a must.

But can Penn State do it? We'll have to be honest and express United States. our fears-not our doubts, but fears. We feel the Lions can win the rest of their games if they play good, sound and solid football. But will they? That's the big question.

On certain games they've looked like they could handle the best the nation could offer. But on other occasions, they've looked just the opposite. We thought they had found themselves against Boston U, but we were wrong. There's still something missingbut what it is remains a mystery to this reporter.

Maybe it's the lack of an outstanding pass-catching end. If so, Maury Schleicher could help solve that. Or maybe it was the need of a solid, injury-less backfield. There hasn't been a week go by that the Lions have been at full strength-including this week. But maybe the return of Pat Botula and Dave Kasperian to their old form will be the answer.

We hope the Lions can discover that missing link tomorrow. This is a fine group of football players with much potential. They deserve a better fate than they have had. Now is the time to strike back. Can they do it . . .?
