Dulles Blasts Russia For Nuclear Tests

WASHINGTON (AP)—Secretary of State John Foster Dulles said yesterday the world will condemn Russia for continuing nuclear weapons tests in the face of a United Nations resolution urging a halt.

Dulles made this comment to a news conference a few

hours after the United States and Britain disclosed they caught Russia firing what might have been two sneak shots.

The White House said, and London quickly concurred, that the Soviet blasts free them to follow suit—although they won't, for the time being at least.

What effect the new Russian tests will have on significant talks at Geneva remains to be seen. The talks, supposed to seek an East-West agreement for a supervised ban on testing, are not going too well anyway.

The Russian delegation at Geneva had no immediate comment

on a statement by President Eisenhower which said:

•Despite a United States resolution urging no nuclear weapons tests after the Geneva meeting started Oct. 31, Russia continued testing nuclear weapons.

•The two Soviet shots since Oct. 31 were fired at a site other than Russia's regular atomic proving grounds north of the Arctic Circle.

•The United States and Britain will abide by their pledge not to test beyond Oct. 31, even though Russia continued testing. However, Eisenhower added the United States will reconsider unless Russia promises soon to halt tests.

Congress to Attack Domestic Scene

WASHINGTON (AP)—Four big domestic subjects—labor legislation, housing, aid to depressed areas, and federal airport grants—are expected to get first attention in the Democratic-controlled 86th Congress.

The 1958 session passed depressed areas and airport bills but both were vetoed by President Eisenhower after Congress went home.

The Senate this year also passed labor control and omnibus hous-

ing bills but these were beaten in the dying hours of the session in the House. Democrats charge that

WASHINGTON (AP)—Secretary of State John Foster Dulles said yesterday he is not a bit concerned about getting along with Congress now that the Democrats have increased their numbers there.

administration opposition killed both measures.

New legislation is being prepared in all four fields and sponsors say they will be ready to go as soon as the committees are organized after Congress meets Jan. 7.

Three of the issues—labor, hous-

ing and depressed areas—played important roles in many states in last Tuesday's election. Democrats say they are fully committed to push legislation quickly in all three fields.

Probably the most urgent tag in the 1959 session will be placed on an omnibus housing bill. The 1958 Congress failed to pass such a measure for almost the first time in a decade.

The Senate is expected to act first in all of these fields. But sponsors say the big gain in Democratic House seats will mean that labor and housing legislation will have much less committee trouble in the House than in recent Congresses.

Khrushchev Hopes For Cold War End

MOSCOW (AP)—Premier Nikita Khrushchev said Friday night he hoped the Democratic election victory in the United States will lead to an end to the cold war.

Speaking at a gala reception in the Kremlin Grand Palace, climaxing the 41st anniversary of the Bolshevik Revolution, Khrushchev declared:

"Although we appreciate that the Republican and Demo-

cratic parties barely differ from each other as far as foreign policies are concerned, we look upon the U.S. election results from the point of view of improving relations between our countries.

"We hope that these results, which expressed voters' dissatisfaction with current government foreign policy, will lead to substantial changes, an end to the cold war and a stoppage of the short-sighted brink-of-war policy."

Khrushchev said the Soviet Union was "glad that the U.S. people condemn the policies and positions of brink of war carried out by Secretary of State John Foster Dulles and supported by President Eisenhower."

Khrushchev preceded this statement with the remark that the Soviet Union does not believe in interfering in the internal affairs of others.

The Democrats in the United States, he said "should construct their foreign policy with due regard for the Socialist camp. The forces of peace are organized and they can curb aggressors."

The military parade was brief, lasting only seven minutes. Military attaches of foreign embassies saw not a single new weapon on display.

AFL-CIO Will Request Higher Minimum Wage

Mich. Athletes Plead Guilty To Illegal Pool

ANN ARBOR, Mich. (AP)—Two University of Michigan athletes pleaded guilty yesterday to charges of engaging in an illegal occupation in connection with a campus football gambling ring.

Football fullback Tony Rio, and varsity basketball captain Jack Lewis, both 21 and from Chicago changed their plea after standing mute at their original arraignment Oct. 29.

Municipal Judge Francis L. O'Brien fined each \$100 plus \$6.65 in costs.

Rio and Lewis, along with five other Michigan students, were arrested last week in a police crackdown on the distribution of football pool cards.

Three of those arrested pleaded guilty and were fined last week. The fourth, Durwood J. Collins, 22, of Houston, Tex., entered a guilty plea Friday and was fined along with Rio and Lewis.

The fifth case is still pending. The seven were accused of peddling or collecting money from the sale of the pool cards, which are used by persons who gamble on college and professional football games.

Air Force Schedules Moon Shot Early Today

CAPE CANAVERAL, Fla. (AP)—An Air Force moon rocket appears to be in preparation for another launching attempt early today.

Since a lunar probe launching attempt comes an hour later each day it is postponed, the floodlights last night would not necessarily have to come on until a late hour.

Nevertheless, if the knock in the rocket that reportedly forced cancellation of an initial launching attempt early Friday had been corrected, the new attempt early today would come as the next to the last chance to fire an Air Force space probe this month.
