

# Hussein Says 2 MIGs Imperiled Royal Plane

AMMAN, Jordan (AP)—Young King Hussein charged yesterday two MIG jet fighters attempted to force down his unarmed royal plane in a flight over Syria and then chased him back across the Jordan border.

He made no mention of any shots being fired.

# U.S. Will Sign Pact With Iran

WASHINGTON (AP)—The United States is negotiating a defense agreement with Iran and will sign it—despite Soviet warnings—when informal talks in Tehran are concluded.

State Department officials, in reporting this yesterday, said they did not see any reason for Moscow to be either surprised or alarmed.

The United States had pledged at the London conference of Baghdad-Pact nations last July to cooperate in strengthening "the united defense posture in the area." This is well-known in the Kremlin.

In the London declaration, Secretary of State Dulles promised on behalf of the United States "to promptly enter into agreements designed to give effect to this cooperation."

The Tehran talks are aimed at following through on the London declaration, press officer Joseph W. Reap told reporters at the State Department.

Reap and other department officials stressed that no military treaty is contemplated.

Hussein, in a dramatic broadcast to the nation, explained his unexpected return home less than two hours after taking off amid cheers to celebrate his 24th birthday Nov. 14 with members of his family in Switzerland. He declared this trip has now been canceled.

Hussein spoke in solemn but firm tones that gave no indication he had been unnerved. He was unharmed; the royal plane undamaged. The King was riding as copilot.

A spokesman for the United Arab Republic's 1st Army in Syria—without mentioning Hussein—charged a Jordanian "military plane" was caught trying to fly over the country without getting official clearance.

"Our planes could have forced it to land in Damascus airport or shot it down in case it refused to land," the U.A.R. spokesman said. "But the truth is our planes escorted it without interference until it left Syrian air space."

Hussein charged that two Soviet-made Syrian MIGs rose to challenge his twin-engine De Havilland Dove—a slow light transport with a cruising speed of only 200 miles an hour—over Syria and made six passes at the royal plane.

# U.S. Rejects Khrushchev's Berlin Demands

WASHINGTON (AP)—The United States yesterday bluntly rejected Soviet Premier Nikita Khrushchev's call for an end to four-power occupation of Berlin.

A State Department spokesman said none of the four powers can walk out on the occupation agreement on its own. And he said the Western Big Three are prepared to fight if necessary to defend West Berlin's freedom.

State Department Press Chief Lincoln White gave notice that U.S. reaction to statements by Khrushchev at a Polish-Soviet friendship meeting in Moscow.

Khrushchev demanded an end to four-power occupation and hinted Russia might break its treaty to permit free access between West Berlin and West Germany.

In response to newsmen's inquiries, White said:

"The United States has always maintained the position that the four powers are in Berlin as a result of the total surrender of the Nazi regime.

"No one of the four powers can separate itself of its responsibilities and obligations unilaterally. The United States certainly has no intention of so doing."

# Priest Wins Peace Prize

OSLO (AP) — Rev. Dominique Georges Pire, a Belgian Dominican priest, who has devoted his energies since World War II to helping refugees, won the Nobel Peace Prize he openly sought—"not for the honor" but for the money to help his crusade.

# Ike Maps Program For Free Asia Aid

SEATTLE (AP)—President Eisenhower yesterday outlined a major five-point program of long-term economic assistance to Free Asia.

He called on other free nations to join the United States in sharing the burden of a "great crusade for growth in freedom."

"By working together to create hope of progress," he said, "we raise barriers against tyranny and the war which tyranny breeds."

Eisenhower's 21-minute address opening the 10th Consultative Committee meeting of 18 nations at the Colombo Plan conference was warmly received.

Some 200 Asian and Western leaders and their delegations, representing one-third of the world's population, stood and applauded the President as he entered the conference room.

Prime Minister Walter Nash of New Zealand and the foreign ministers of Canada, Cambodia, Indonesia, Nepal and Viet Nam formally replied to the President's talk. Their responses in general strongly endorsed the program Eisenhower unfolded to them.

Britain's minister of state for foreign affairs, Allan Noble, said he welcomed the priority Eisenhower has given to sound economic development as a necessary condition for maintaining the growth of free nations.

Secretary of State Dulles presided over the conference and adjourned its first session upon the President's departure.

# Johnson Picked For Space Talks

SEATTLE (AP) — Secretary of State John Foster Dulles yesterday said Senate Majority Leader Lyndon Johnson of Texas has accepted a mission to the United Nations to support the United States effort to achieve the peaceful control of outer space.

Dulles said in a statement that, "In order to make clear to the world how much all Americans agree on the importance of this subject and in view of the deep congressional interest in it, I have, with the President's approval asked Sen. Johnson to go to the General Assembly to make a statement during the debate."

No date has yet been set for consideration of the outer space question but it is expected to come before the General Assembly's Political Committee within a matter of days.

# U.S. Rejects Soviets' Try To Obstruct Attack Talks

Geneva (AP)—The United States and its allies quickly rejected yesterday an attempt by the Soviet Union to hamstring with cold war political issues the technical talks on prevention of surprise attacks.

U.S. delegation leader William C. Foster reminded the Soviets that the conference—which opened at noon—was organized to study complex scientific and military problems.

From the facts so determined, he said, it might be possible to organize an international system to lessen the danger of any country being struck again by a Pearl Harbor-like blow.

Across the table, Soviet Dep. Foreign Minister Vassili Kuznetsov voiced sweeping demands for nuclear and conventional disarmament without going into the

problem of guarantees and controls.

In the usual Communist terms he attacked American foreign policy, blaming the United States for a worldwide armaments race.
