

CHRISTMAS TREES AND BERMUDA SHORTS . . . Marcia Richman, wearing Bermuda shorts, looks puzzled at her friend, Sandi Newman, who can't figure out who's rushing the season, either.

Mil Queen Blanks Due in HUB Today

Today is the last day applications may be submitted for Military Ball Queen at the Hetzel Union desk.

A picture 5 inches by 7 inches or larger must be enclosed with the application. All entrants must be sponsored by an ROTC cadet or midshipman. The application must also include the name and address of the coed and the ROTC branch of her sponsor.

The Military Ball will be held Dec. 5 at Recreation Building from 9 to 1. Billy May and his orchestra will play.

Tickets will be on sale Monday for cadets and midshipmen at the ROTC offices from 8 a.m. to 5 p.m. If there are any tickets left they will be on sale for civilians after the Thanksgiving vacation. William Simon, secretary of the Military ball committee, said.

The five finalists for queen will be selected by cadets at the Virginia Military Institute, Lexington, Virginia. The queen will be chosen the night of the dance by officers of the Army, Navy and Air Force on campus.

Scabbard and Blade and Pershing Rifles, commanded by Eric Taylor, senior in aeronautical engineering from Philadelphia, will form a sabre arch for the finalists as they walk to the stage.

All the finalists will receive a trophy and the queen will be presented with a bouquet. The trophies will be displayed

Engineers May Take 'Etiquette'

Engineering students may have to take a course in Business Etiquette if a proposal by the Engineering-Architecture Student Council goes through.

The idea for the etiquette course was first suggested to council by Merritt A. Williamson, dean of the College of Engineering and Architecture, who has agreed to write a book for the class since none is now available.

One council member said there was a need for a more well-rounded education and social training in the engineering curriculum.

The council generally felt the course, Business Etiquette, would prove invaluable in business.

It was first suggested to include this training in engineering lecture or in the engineering orientation program, but the council decided that business etiquette is important enough to be included in a course by itself.

In other business, the council is considering placing on exhibition an architect's photograph of the new engineering building for the benefit of students, faculty and the townspeople.

Students Plan UN Excursion

Members of the University Christian Association and the International Relations Club will make their annual trip to the United Nations over Thanksgiving vacation.

They will leave the campus at 8 a.m. Saturday and will return at 5 p.m. Tuesday.

They will have the opportunity to attend meetings of the United Nations General Assembly and the Secretariats.

In addition, there will be interviews with the members of the American, Russian, Indian, Lebanese and Chinese delegations.

Dr. Elton Atwater, professor of political science on leave from the University and head of the Quaker United Nations program, will speak to the group.

Along with the planned program, members will be given free time in New York City.

Greek Week Applications

Applications for Greek Week committee positions are available at the Hetzel Union desk. They are to be returned to James Hammerle, Alpha Gamma Rho, or Leonard Julius, Beta Sigma Rho.

in Waring Hall before the dance.

Other members of the committee are John Moyer, senior in business administration from Quakertown, chairman, and Michael Lightner, senior in general agriculture from York.

Military dress is required for ROTC members attending the dance. Formal dress is required of civilians.

HEC College Will Hold Annual Awards Banquet

The College of Home Economics will hold its sixth annual Awards Banquet at 6:30 tonight in Hetzel Union dining rooms A and B.

Various scholarships and awards will be presented to students by representatives of the donating organizations. Thirty-eight students will receive awards.

Faculty members and representatives of various home economics organizations will also be present.

1-1.5 Million Gallons Of Water Used Daily

By SUE HILL

Water is a popular item around campus. Between 1 and 1.5 million gallons are used every day by the University.

Most of this water comes from the wells located on the University's Thompson Farm behind the National Guard

Armory. At present three wells are in operation and two more are available for use in emergencies.

The water is pumped from these wells through about 13 miles of underground pipes. It goes directly into the University's water system or into one of two water towers located on campus.

The second water source, which primarily supplies the Power Plant, is the reservoir at Musser Gap about 5 miles south of campus. This water flows down to the University by force of gravity.

In addition, the University has a cross-connection with the State College Borough water system which permits both State College and the University to exchange water on a give and take basis if the need arises.

When more water is being consumed than the wells and reservoir can supply, water is taken automatically from the tanks. They are then refilled at night, thereby keeping a 24-hour supply on hand at almost all times. The water pumped in at night is secured from the wells.

The tanks also serve as an emergency water supply if the University's supply is suddenly cut off. However, their total capacity of 1.25 million gallons would last only one day in such a situation.

The old water tank, built in 1936, is located west of Beaver Field. One-hundred five feet high, 50 feet in diameter, it holds 500,000 gallons of water. The recently constructed (1956) tank in Hort Woods near the parking area south of Patterson Building stands 120 feet high, is 70 feet in diameter, and has a capacity of 750,000 gallons.

Both of the tanks are elevated. The older one is also enclosed in brick casing.

Walter H. Wiegand, director of the physical plant, said the University plans to build a third water tank near the farm lands on the east side of campus in five or six years. It will hold approximately 1 million gallons, he said.

WSGA Judicial Gives Penalties To 19 Women

Nineteen women have received blackmarks from the Women's Student Government Association Judicial Board.

Three of the women each received a 1 a.m. permission removal because of the accumulation of four blackmarks.

A coed appealed for the cancellation of a 1 a.m. removal because of the difference in the clocks in the lounge of her residence hall and in her house-mother's office.

She said that the clock in the lounge said 10:02 and that the clock in the office said 10:05. She knew that she was late but she thought that she should be given a lesser penalty because she was within the four minute grace period by the clock in her house-mother's office.

Audrey Jersun, chairman of Judicial, said that the penalty should be retained because coeds are responsible for knowing the time of their housemother's clock. She also said that the four minute grace period should only be used for an emergency and in this case it wasn't.

Starting Dec. 5 the four minute grace period will be removed.

DIAMOND RINGS

THE BEST

219 E. College Ave.
State College, Pa.

YOU ARE INVITED TO CELEBRATE
(Tomorrow, Friday, Saturday . . . November 20, 21, 22)

The Completion of the New

Clearfield's

Fashion Center

E. College Ave. — Across from Old Main — State College

FREE — Gifts to All the Ladies!
ALSO
3 Special Door Prizes Will Be Given Away
Each Day -- at 11:30 a.m., 2:00 p.m. and 5:00 p.m.

We are happy to present for your inspection our new modernistically remodeled store—designed with your convenience and satisfaction in mind—designed to give you the nearest thing to self-service as is possible to do . . . a step toward the new "Shopping Trends of Tomorrow!" You'll find new lines of famous brand name fashions—plus our regular brands that have pleased you in the past.

Come! See! Register to Become Eligible for Prizes!
No Obligation -- No Purchase Necessary.

You're Looking At It!

Olympia . . .

Your BEST College Investment

Not an expense . . . not a frivolity, but a solid investment in better grades throughout your college years.

The Olympia portable helps you breeze through any assignment in record time . . . makes organizing your notes and reviewing for exams a cinch.

Visit Nittany Office Equipment and make that Olympia investment today—you'll be repaid with faithful service for years to come.
