

Red Economic Pressure Fells Finnish Government

HELSINKI, Finland (P)—Finland's 19th government since World War II fell yesterday, a victim of Soviet economic pressure.

The Center-Conservative coalition government of Prime Minister August Fagerholm was never liked by the Soviet.

The Soviet Union had simply refused to do business with the Finns—who must have that trade to survive—since the Fagerholm regime took office Aug. 29. That put the squeeze on the Cabinet.

Fagerholm gave up after three months of trying to hold together a coalition of his right-wing Social Democrats, Agrarians, splinter Conservatives and a Swedish minority.

He agreed to a request of President Urho Kekkonen to keep his governmental machinery in force until a successor can be found.

The Agrarians' five ministers, representing 48 seats, quit yesterday morning and thereby doomed the coalition.

They were motivated by steadily declining relations with the Soviet Union which had postponed scheduled trade talks, and put a vital fishing treaty on the shelf. Exports to Finland were cut off, the Soviet Union claiming a trade imbalance. The Soviet ambassador to Finland left without giving the traditional farewell.

The Soviet Union used these tactics to show displeasure over two facts:

•The big Communist bloc was ignored in the formation of the Fagerholm government.

•Left-wing Socialist Democrats backed by the trade unions were left out in the cold.

Berlin Air Traffic Ban Hinted

BERLIN (P)—An East German Communist leader said last night commercial airliners from the West have no legal right to fly into West Berlin.

His implied challenge came as West German Chancellor Konrad Adenauer campaigned in the Berlin streets for an anti-Communist victory in the city parliamentary election Sunday.

Matern told 3500 cheering Communists meeting in the heart of West Berlin that the Allied commercial planes had no right to fly over the sovereign East German territory.

Matern did not make clear whether the East Germans intend to begin interfering now with flights through three air corridors linking Berlin to West Germany about 100 miles away.

But his statement was regarded as an unmistakable warning that East Germany will try to disrupt commercial air traffic if the West refuses to accept a Soviet demand to turn Berlin into a demilitarized neutral city.

Some of the heaviest air traffic loads in the world are carried in those corridors. Nearly one million refugees from communism have been airlifted from West Berlin to freedom on commercial carriers.

Air Force May Make Underground Use Study

WASHINGTON (P)—Rep. Frank M. Clark (D.-Pa.) announced yesterday that the Air Force is asking to inspect the Pennsylvania mines of two firms. He said the Air Force is considering various approaches to possible underground deployment of military facilities and equipment.

The mines are located in Armstrong and Lawrence Counties.

It would take 204-page 6"x9" book to equal the total content of the average United States newspaper.

Demos Plan '60 Campaign

WASHINGTON (P)—Democrats feuding as usual over civil rights met yesterday in the glow of their 1958 election victories and began mapping plans for the 1960 political wars. A top Californian drew a bead on Vice President Richard M. Nixon.

The California national committeeman, Paul Ziffren, tabbed Nixon as an able, formidable foe and the man to watch above all others.

Ziffren also told a news conference the Democrat party needs a Western rather than a Southern accent.

"That's his opinion," snapped Mrs. T. K. Kendrick, Georgia's national committeewoman. "It would be unfair to my section to write off the South. I'm a loyal Southerner from start to finish and from Georgia, which has never been out of the Democratic column."

Members of the Democratic National Committee and the Democratic Advisory Council from over the country descended on Washington yesterday for four days of sessions to work out party problems and strategy.

Nixon to Meet with Ike

WASHINGTON (P)—Vice President Richard M. Nixon and the Republican leaders of Congress will meet with President Eisenhower on Dec. 15 to go over the proposals the chief executive plans to include in his annual State of the Union message to Congress.

Airline Revenue-Sharing Pact OK'd

WASHINGTON (P)—The Civil Aeronautics Board yesterday allowed six major airlines to maintain a pact for revenue-sharing to offset strike losses pending a hearing set for Jan. 14.

The board could have rejected the unprecedented arrangement without a hearing if it so desired. It decided to let the pact stand while seeking information on which to base a final decision. If its ruling is adverse, payments already made under the pact must be returned.

The agreement, which took effect Oct. 20, provides for monthly payments to the grounded airline.

CHRISTMAS SPECIAL

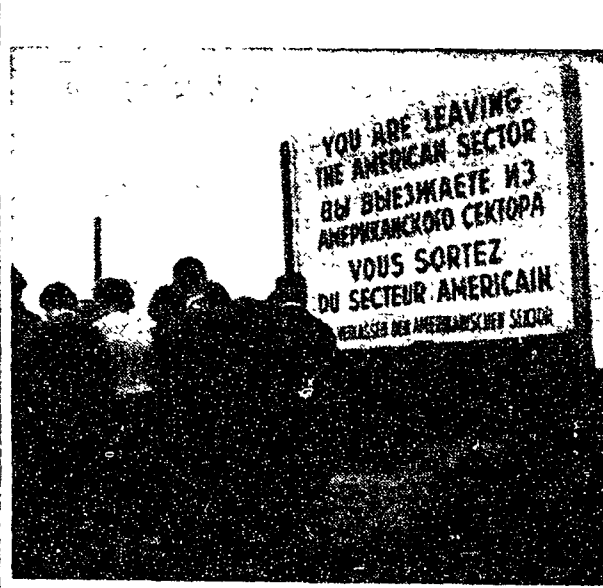

Everyone from Alaska to Zanzibar is raving about the **COLE PORTABLE TYPEWRITER**

featuring the whisper touch Full keyboard with matching cases in green, desert sand, red, and white
