

# Serov Demoted In Red Shakeup

LONDON (AP)—Moscow followed up the transfer of Gen. Ivan A. Serov from his job as the Soviet's top policeman with a fresh blast yesterday at disgraced former leaders it calls

## Rate Rise OK'd For 9 Bus Lines

HARRISBURG (AP) — Nine bus lines providing transportation between several major Pennsylvania cities yesterday were authorized by the Public Utility Commission to raise their fares by five to nine per cent. The increases are effective Dec. 15.

The PUC granted the increases after the companies agreed to drop their requests for a boost in fares 50 cents and under.

In the new schedule, fares between 55 cents and \$1 will be increased by 5 cents while fares over \$1 will be raised an average of about 6 per cent.

Some of the bus lines affected and their operating areas are:

Greyhound, throughout the state; Edwards Motor Transit Co., Williamsport, through the northeast.

# Navy Plane Crash Lands, Killing Six

NORFOLK, Va. (AP)—A Navy tanker plane attempting an emergency landing smashed two houses yesterday.

Its four-man crew and two babies in one of the homes perished in the wash of flames from the fuel filled tanker. Two other persons suffered burns and shock.

One of these is Mrs. Joseph E. Tondora, mother of the two babies.

Also burned was Charles Sheppard Jr., driver of a potato-laden trailer-truck struck by the plane as it bounced across the 8900 block of Granby street, in a residential area.

No one was at home in the other residence.

A spokesman said preliminary investigation indicated the pilot tried to reach a swamp a short distance behind the two houses.

Crewmen killed were identified by the Navy as Lt. Cmdr. George Wilson, 38, the pilot, Norfolk; Ens. Fred M. Clancy III, 20, copilot, son of Mr. and Mrs. Fred M. Clancy Jr., Kissimmee, Fla.; Airman Patrick F. Toomey, 19, son of Mr. and Mrs. Francis J. Toomey, Durham, N.C., and Aviation Mechanic 3.C John E. Delaney, 20, son of Mr. and Mrs. Timothy J. Delaney, Chelsea, Mass.

# Goldfine Is Indicted On Contempt Charge

WASHINGTON (AP) — Bernard Goldfine, the big-dealing friend of Sherman Adams, was indicted yesterday on a charge of contempt of Congress.

Goldfine, who protested he was being smeared when the charge first was raised in the House, had no immediate public reaction.

He is to be arraigned in U.S. District Court here next Friday morning.

The 18-count indictment was based on Goldfine's refusal to answer 22 questions put to him last July in a sensation-filled House investigation. This inquiry turned up, among other things, evidence that he paid \$3,096.56 in hotel bills and did other favors for Adams.

Adams, then serving President Eisenhower as his No. 1 aide, and Goldfine, were friends of long standing.

Adams acknowledged putting in some queries to federal agencies with which Goldfine was having

difficulties, but he denied applying pressure.

The House voted 369-8 on Aug. 13 to ask for judicial prosecution.

Under the indictment now voted by the grand jury, Goldfine could be fined \$1000 and sent to prison for as much as a year if convicted.

## Town Crier Astounds New York Bystanders

NEW YORK (AP) — A leather-lunged town crier sounded his call above the din of Times Square yesterday—and his bellow startled even the blasé natives.

Bill Cruttenden, carrying a 300-year-old staff of office, swinging a 200-year-old bell, raised his 52-year-old voice authoritatively above the noisy traffic.

His vocal prowess, he confided to amazed bystanders, comes from always wetting the whistle before work, with a beaker of beer.

# Civil Rights Group Asks Negro Voting Evidence

MONTGOMERY, Ala. (AP)—The Civil Rights Commission, with assent from Southern members started legal action yesterday to compel defiant public officials to produce evidence about Negro voter registration in Alabama.

A spokesman for Atty. Gen. William P. Rogers said in Washington the matter will be handled through Hartwell Davis, the U.S. district attorney at Montgomery. The U.S. District Court in Alabama will be asked to issue the order.

The spokesman noted that if the court order is issued and is not obeyed, a contempt situation will be presented.

Six vote registrars, protesting what they called an invasion of their rights as judicial officers, declined to talk about the functions of their office when called as witnesses at the outset of the hearing Monday. Five of them refused even to testify under oath.

Alabama Atty. Gen. John Patterson, who directed the massive

resistance, accepted the commission challenge.

"If they are going to attempt to try our public officials," he said, "they ought to do it in a court of law, and we will take advantage of every means we have available to represent our judicial officers and protect them from invasions by the federal government and legislative and executive branches of the government."

## State Plans All Out Fight On Juvenile Delinquency

HARRISBURG (AP)—A \$27 million program to combat juvenile delinquency in Pennsylvania was outlined by Welfare Secretary Harry Shapiro yesterday.

"If adopted by the 1959 Legislature, this program would mean state assumption of leadership for the first time to coordinate a program on juvenile delinquency," Shapiro declared.

The program would be aimed at prevention and treatment of juvenile delinquency.

"The problem of juvenile delinquency can no longer be treated as a local problem," Shapiro contended.

## Industry's Spending Shows Slow Rise

WASHINGTON (AP)—Industry's spending on new plants and equipment has hit bottom and turned upward. But this important business barometer is rising more slowly than other major indicators.

Plans for business expansion and modernization outlays, on the basis of reports by corporations, call for a spending rate of about 30 billion dollars annually this quarter and 30½ billion dollars in the first quarter of 1959.

The figures were announced yesterday by the Securities and Exchange Commission and the Commerce Department on the basis of reports from corporations.

Industry's outlay for factories, machinery and equipment is regarded by economists as an especially significant factor in generating jobs, production and building activity.

## Walker's Talk Published

Parts of the address President Eric A. Walker delivered at the dedication of the Engineering Center and Research Park of National-U.S. Radiator Corp. at Johnstown in October are being carried in the current issue of "Product Engineering."
