

Geneva Deadlock Flares Into Russian Accusations

GENEVA (AP)—A nightmare of frustration yesterday gripped the 19-nation conference on prevention of surprise attack.

Russian tempers flared after a month's discussion in which East and West have failed to agree even on a plan of work.

Soviet delegates angrily accused the West of trying to trick the Communist bloc by Trojan horse tactics into accepting espionage agents in the role of international inspectors.

International warning systems outlined in Western documents would serve as Trojan horses, they said, prying into all sorts of things behind the Iron Curtain and establishing the location of Soviet missile pads.

Across the table, the Westerners denied it. It was a dramatic illustration of the deadlock that has persisted in milder form since the conference opened in Geneva's Palace of the United Nations Nov. 10.

The experts of the five Western powers—the United States, Britain, France, Italy and Canada—came to Geneva to engage in a technical study of the problems of surprise attack. They believed that was the understanding arrived at in the correspondence last spring and summer between President Eisenhower and Soviet Premier Nikita Khrushchev.

But the representatives of the Soviet Union, Poland, Czechoslovakia, Romania and Albania have from the first tried to transform the talks into a general disarmament conference.

Until Thursday, the atmosphere was friendly.

USSR Charged With Terrorizing

UNITED NATIONS, N.Y. (AP)—The United States charged yesterday that the Soviet Union and its agents in Budapest are keeping the Hungarian people under a "scourge of terror."

Ambassador Henry Cabot Lodge told the 81-nation General Assembly it must "face the fact now that the reign of terror, of which the salient feature was the killing of Imre Nagy, still continues in full force."

He made the statement in calling on the Assembly to condemn the Soviet Union anew for the repression in Hungary, and to denounce the present Hungarian regime for the executions of former Premier Nagy, General Pal Maleter and "other Hungarian patriots."

State's Fund Falls Short

HARRISBURG (AP)—The State Revenue Department said yesterday Pennsylvania's general fund fell more than 53 million dollars short of official expectations during the past 18 months.

Federal Judge Threatens Hoffa

WASHINGTON (AP)—A federal court threatened yesterday to oust James R. Hoffa as president of the Teamsters Union unless he and other officials of the union quit blocking and obstructing recommended reforms.

F. Dickinson Letts, 83-year old U.S. District Court judge, directed Hoffa and other Teamsters chiefs to obey orders of court-named monitors to house clean the 1½-million-member union.

Letts in effect armed the three-man monitor board with power to enforce his cleanup orders.

Record Output Predicted

WASHINGTON (AP)—In a forecast built on favorable reports from seven key segments of business, the United States Chamber of Commerce yesterday predicted a 5 per cent rise in jobs, production and income in 1959.

Dr. Emerson P. Schmidt, the chamber's chief economist, foresaw a gradual rise to a record national output of around 475 billion dollars next year.

Soviet Says West Avoids Settlement in West Berlin

MOSCOW (AP)—The Russians accused the West last night of stalling on the Kremlin's proposal to convert West Berlin into a neutralized free city.

Tass criticized the reaction of President Eisenhower and other Western statesmen who have said

Washington (AP) — The United States served notice on Russia and the world last night that it "will not be deterred by threats" from defending its rights in protecting West Berlin.

the United States, Britain and France intend to hold fast in West

Berlin, 110 miles deep in East Germany. The official Soviet news agency said the Western powers are avoiding a business like settlement.

Premier Nikita Khrushchev turned thumbs down on Western suggestions for a discussion of the Berlin issue in a conference on the bigger question of divided Germany's future. He said in an interview published by an independent Munich newspaper, Suddeutsche Zeitung, he did not believe the West would start a war over Berlin, "because the other side (Russia's) also has tanks and other, even more powerful weapons, which would not remain inactive."
