

Senate Rejects Cut in Housing

WASHINGTON (AP)—The Senate turned down yesterday a Republican substitute aimed at cutting a \$2.9 billion Democratic housing bill back to levels favored by President Eisenhower.

Only a little earlier, the House voted 310-89 for a \$300 million GI home loan bill over protests from Republicans that "budget busters are on the move."

Judge Orders Integration In Alexandria

RICHMOND, Va. (AP)—A federal judge told a third reluctant Virginia community yesterday it must admit nine Negro pupils to white schools next Tuesday.

The order of Dist. Court Judge Albert V. Bryan to the School Board of Alexandria came as Norfolk and Arlington went through a third peaceful and almost routine day of racially mixed classes.

Orderly compliance by Alexandria in the Norfolk-Arlington pattern should bring a temporary respite in the running school crisis. Charlottesville, granted a delay by a U.S. appeals judge, reopened a high school and an elementary school yesterday on an all-white basis to all but about 300 of 1675 displaced pupils.

The two schools, along with six in Norfolk, had not opened for the September term because of state laws designed to fend off federal integration order. Those laws since have been declared unconstitutional.

Judge Bryan announced his decision a day after hearing arguments on a challenge to the School Board's action in turning down 14 Negro applications for transfer to white schools.

Rep. Charles Halleck (R-Ind.) led the House protest, trying to help Eisenhower in his fight against any move that might upset his \$77 billion budget.

The substitute the Senate turned down was offered by Sen. Homer Capehart (R-Ind.). The vote was 58-32.

The Democratic bill compares with \$1.8 billion in Capehart's substitute.

The big issue centered around proposed spending in the fiscal year starting next July 1. All the programs extend over several years.

The bill passed by the House would add \$300 million to the \$150 million available under present laws for direct government loans to veterans in the year beginning next July 1. There is a similar \$300 million item in the over-all Senate bill.

The House bill would raise interest rates on home loans guaranteed by the Veterans Administration from 4 3/4 per cent to 5 1/4 per cent. The idea is to encourage the granting of these loans by private institutions.

In the Senate, the \$2.9 billion housing bill, sponsored by Sen. John Sparkman (D-Ala.), compares with a \$1.65 billion program supported by the Eisenhower administration.

Sen. J. William Fulbright (D-Ark.), speaking for the Sparkman bill, told the Senate that Eisenhower is not averse to using his veto power but "I don't think he will veto the bill unless it is greatly inflated."

Ike Blasts Democrats On Spending

WASHINGTON (AP) — President Eisenhower challenged the Democratic-controlled Congress yesterday to offset what he termed the reckless spending with higher taxes.

Leaping roughshod on a \$3 billion Democratic-sponsored housing bill now before the Senate for action, Eisenhower protested: "Now, this means that right off in the very first bill the budget is to be unbalanced."

Eisenhower also attacked a Senate bill that would authorize far more than he wants for airport aid. The Senate Commerce Committee promptly approved it anyway.

Eisenhower spoke up at a news conference at which he hinted he has been having secret meetings with congressional Democratic leaders. He scoffed a bit at the idea the Soviet Union can wipe out U.S. retaliatory power in one swipe, and said it "would be a wicked thing" to give people the impression the government intends to set up a federal police force to enforce civil rights.

On the business of spending and deficits, the chief executive said he was just talking sense.

USSR-British Talks Approved by Dulles

LONDON (AP)—Secretary of State John Foster Dulles gave U.S. approval yesterday to a plan of Prime Minister Harold Macmillan to go to Moscow for talks with Soviet Premier Nikita Khrushchkev.

Macmillan was expected to announce within hours that he will go to the Soviet capital to talk with Khrushchkev on easing East-West tensions.

It was indicated that Macmillan had made clear to Dulles that he does not intend to engage in any private negotiations with the Soviet leader.

Dulles flew here to open a round of urgent talks with America's European allies on Western policy for Germany.

Macmillan is to tell the House of Commons today that he plans to fly to Moscow—perhaps as early as Feb. 20—for talks with Khrushchkev on easing of East-West tensions.

There was no official confirmation but it was considered virtually certain the Kremlin two days ago renewed a long-standing invitation for the British head of government to visit the Soviet capital.

Macmillan was believed to have deferred his final decision until he discussed it with Dulles. It

was assumed that Dulles already was sold on the idea of direct British-Soviet talks.

A Macmillan visit to Moscow already is being pictured here as a reconnaissance for possible summit talks between Soviet and Western leaders.

The Moscow radio meanwhile mentioned for the first time a possible visit by Macmillan.

Atlas Flight Successful In New Missile Campaign

CAPE CANAVERAL, Fla. (AP)—Atlas No. 20 logged a highly successful flight yesterday in the Air Force's stepped up campaign to develop the mighty intercontinental range ballistic missile.

The 80-foot Atlas, present mainstay of the U.S. missile arsenal, thundered aloft in the morning darkness. It hung in the sky as a white dot of light for more than three minutes before fading.

Flood Investigation, Relief Approved by Legislature

HARRISBURG (AP) — The Legislature gave final approval yesterday to a proposed investigation of the Wyoming Valley mine disaster and a package of bills appropriating \$3 million for disaster relief there and in western Pennsylvania.

With that bipartisan action out of the way, the House Republican leadership criticized the Democratic administration for not having any major programs ready for legislative action.

Rep. Albert W. Johnson, GOP floor leader, questioned whether "the governor (Lawrence) isn't more interested in who's going to be the next mayor of Pittsburgh?" Gov. Lawrence

gave up that office to become the state's chief executive.

He said the delay in sending a program to the House was a plan by the administration to embarrass the GOP leadership.

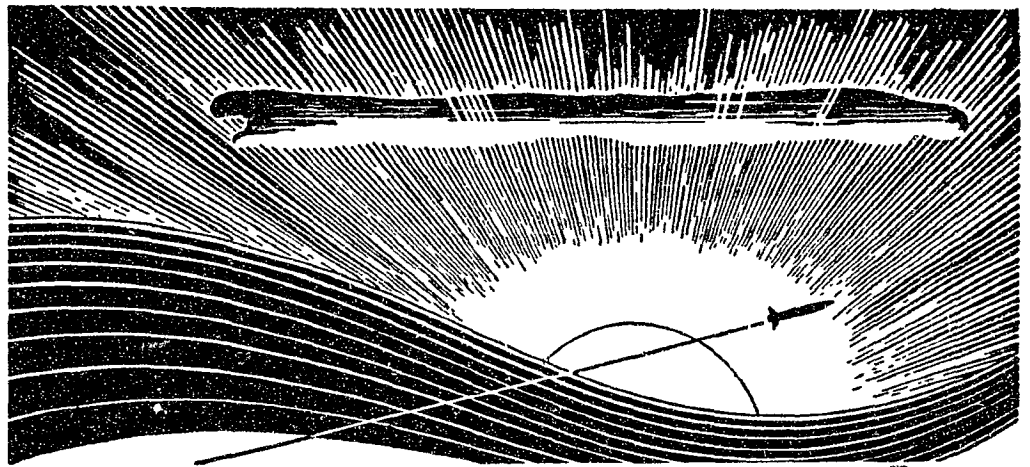

Johnson also declared in his speech to the House: "The governor of this commonwealth cannot hide behind the Tax Study Commission."

This was a reference to Democratic-sponsored moves to call a one-month's recess to give the administration time to draw up the budget on which most major programs will depend.

Rep. Stephen McCann, Democratic floor leader, answered Johnson that his "words of wisdom, of foresight, would have been so nice a few weeks ago" when Republicans were considering the recess proposal. The GOP caucus in both houses eventually rejected the proposal.

ELECTRONIC ENGINEERS PHYSICISTS

At Bendix Radio you will be AHEAD when TOMORROW comes!

At BENDIX RADIO the accomplishments of today are stepping stones to continued leadership tomorrow! There is no resting on our laurels—either individual or collective, no coasting on a reputation already won. Our immediate accomplishments are important for today . . . and for the future.

That is why work moves ahead rapidly at Bendix Radio and why each day brings new, stimulating challenges.

That is why the rewards of success are great . . . and why the scope of your future at Bendix Radio is unlimited.

It is important to you—the young engineer—to start your career off on the right track.

You will be on the right track at Bendix Radio.

You will be working with leading scientists and engineers who are pioneers in new fields. You will be working in a modern plant with most modern equipment. Your work will be of a project nature, and you will see projects through from design concept to manufacturing. You will receive ample on-the-job training. You will be working in a professional atmosphere of exceptional accomplishment . . . where the importance of your career is fully recognized . . . where the attitude, the way of work and the way of life will encourage your best efforts!

We invite you to consider your future with Bendix Radio . . . and be ahead when tomorrow comes.
