FLYING IN REC HALL—Junior gymnast Lee Cunningham will compete in his first collegiate gym meet of the year today.

To Decide Eastern Title—

Gymnasts Host Cadets Today

By MATT MATHEWS
 Associate Sports Editor

The Eastern Collegiate Gymnastics title goes on the line at 2 p.m. today in Recreation Hall as a powerful Penn State squad faces the defending Eastern Champions, Army.

Although Tom Maloney's Cadet specialists have suffered 12 graduation losses and will field a team of sophomores,

Gymnastics Is Reviewed For Meet

Gymnastics, an international sport dating back to Grecian and Roman days, has maintained its "life" because it can be appreciated without much technical knowledge.

Three competitors from each team are allowed in each event. Each performer is scored on a 100 point basis—generally half for difficulty and half for form.

Team points in each event are awarded on a 6-4-3-2-1 basis.

TUMBLING is scored on difficulty, form and continuity of routine. Dave Dulaney relies on speed and Graeme Cowan's work emphasizes height and form.

Difficult moves are a double-twisting somersault ("sommy") and a back-front somersault. The back-front comes after a series of backward handsprings and, at the end, the performer reverses his direction and momentum to do a difficult front sommy. Good score: 235. Championship: 260.

The **SIDE HORSE** is regarded (Continued on page eight)

the defending champs have always given the Lions a tough battle.

Lion Olympian Armando Vega considers the Cadets his jinx team. Two years ago Vega was on another Penn State power that eked out a three point win over a similar "inexperienced" Army team in Rec Hall. Vega had a bad day in that meet and is out for personal revenge against his "jinx" opponents.

The Lions went on to win the Eastern and National crown that year, but in '58 they lost the Eastern championship at West Point by five points when Vega dropped out of school.

Incidentally, Army and Penn State have dominated the EIGL title the past twelve years. Army has won it five times and the Lions six.

Maloney told this writer yesterday that his strongest event is the side horse.

Veteran horseman Jim Hill is one of the best horsemen in the East and will face the Lion's best bet on the horse, Lee Cunningham. The Lion ace beat Hill in both the dual meet and Eastern championships last year, but has not competed for this year in collegiate competition.

Maloney also has excellent depth on the horse in Scotty Steel and Ralph Garens.

Rope climber Bill Cohen will also give the Lion trio their tough- (Continued on page six)

Truck Made Four-Wheeled Pizza Oven

By DAVE FINEMAN

Joe had hot pizza last night. Hotter, even, than he wanted it because of an impertinent heater in the delivery truck belonging to Joe's Pizza Shop which decided to set the vehicle ablaze. Luckily, the driver was on the last leg of a trip, so that only a dozen or so pizzas were overdone in the blaze.

The Willys station wagon first became a mobile pizza oven at about 10:15 p.m. yesterday when the heater apparently blazed into flames as members of the fraternity at 240 E. Prospect Ave. poured out of their house to watch their snacks melt away.

The driver, Frank Ollm, senior in business administration from Mahoney City, ran into the fraternity house to try to find a fire extinguisher.

The Alpha Firemen were needed, however, to cool off the four-wheeled oven. They arrived at about 10:35 and got the blaze out quicker than you can say spaghetti and meatballs.

Cold Continues, Wind Gusts Die

The frigid arctic air mass that sent the temperature into the low 20's yesterday will remain for at least 2 more days.

The cold was accompanied by gusts up to 50 miles an hour yesterday but will be considerably less today.

Today will be sunny with the temperature stopping at 29 degrees. Tonight will produce a low of 20 degrees.

Tomorrow will be warmer with chance of rain or snow in the afternoon.

terday but will be considerably less today.

Collegian News Staff Will Hold Open House

Students interested in joining the news staff of The Daily Collegian are invited to attend an open house, to be held from 6:30 to 8:30 p.m. Wednesday in the Collegian office, in the basement of Carnegie.

Those attending will be shown through the office, and will see members of the staff at work on Thursday's edition. Refreshments will be served.

Change Suggested For LA-Eng Plan

By DENNY MALICK

The University Senate has suggested that the proposed five-year curriculum in liberal arts and engineering be fully integrated into a joint program rather than two distinct courses of three and two years.

The Senate Committee on Courses of Study headed by Dr. Phillip A. Shelley, has sent the curriculum proposal back to the Colleges of the Liberal Arts and Engineering Architecture.

The program of the two colleges for the five-year curriculum proposed that the first three years be devoted essentially to liberal arts requirements. When these were completed, the student would take two years of the engineering course in which he wished to major.

At the end of the five years, the student would receive both bachelor of arts and bachelor of science degrees.

The course study committee has expressed "hearty approval of the intent of the proposal of a dual degree program" but has requested further study by the executive committees of both colleges.

At its meeting Thursday, the Senate proposed that the University make available "to a certain limited number of highly qualified individuals" the position of Evan Pugh Professors.

The duties of these professors would be primarily to direct and encourage research in their particular fields.

The qualifications requested by the Senate include that the candidate be a professor at this or another university of comparable standing and that he has shown a high degree of competence in his field and also promise with regard to his productivity of research.

The candidate would be nominated by the head of his department to a board of review. If the professor is approved by the board, the vice president for research would recommend the appointment to the president of the University.

Red Cross to Sponsor Classes on Baby Care

The State College Red Cross will sponsor a series of seven 2-hour classes in Mother and Baby Care starting Monday.

Included in the course will be a trip to the Centre County Hospital and a one-hour film.

The meeting Monday night will be at 7:30 at 330 W. Beaver Ave. in the Associated Service Room.

Eisenhower To Consider Soviet Trip

THOMASVILLE, Ga. (AP)—President Eisenhower promised yesterday to consider visiting the Soviet Union if the Soviet leaders mend their way to an extent that world peace would be advanced.

A White House statement which boils down to that—in comment on Soviet Premier Nikita Khrushchev's informal invitation to Eisenhower—said also that the President has no plans to go to the Soviet Union.

The clear implication was that Kremlin threats and demands in the East-West cold war rule out an Eisenhower visit at this time.

The statement, issued at Eisenhower's vacation headquarters by press secretary James C. Hagerty, questioned the sincerity of the Khrushchev invitation in noting the President has received no formal bid.

"The President has no present plans to make such a visit—in fact, he hasn't received any invitation except through the reports of an off-hand invitation extended in a political speech.

"Ever since he has been in office President Eisenhower always has made it clear he was willing to go anywhere in the world if, by so doing, such a visit would serve the cause of peace.

"Should future developments suggest that a visit to the Soviet Union or anywhere else would serve to advance this cause, then it certainly would be considered."

Secretary to Replace IFC Officer

By BILL JAFFE

The Interfraternity Council plans to revamp the Fraternity Affairs Office and hire a secretary to replace the IFC executive vice-president, a post now held by David Morrow.

Edward Hintz, IFC president, said the IFC Executive Committee met Thursday night and decided to proceed with plans to reorganize the administrative branch of the group. Hintz will present the proposal at the IFC dinner meeting to be held at 5:45 p.m. Monday at Delta Tau Delta fraternity.

Under the present system, the office is staffed with five junior secretaries, ten sophomore secretaries, and Morrow as manager. The office handles all IFC pledge

registrations and records, including the mimeographing of minutes, notices and agendas.

Hintz said a secretary would be hired on a part-time basis and would provide all fraternities with a secretarial service for special events at a nominal fee.

The IFC will also discuss the controversial plan presented at a December meeting recommending that the University withhold diplomas of graduating seniors who owe debts to individual fraternities. A committee, chaired by Hart Langer, Sigma Chi president, presented a committee report at the January meeting and announced that a survey would be taken of fraternities concerning the prevalence of the problem.

Langer's committee sent a questionnaire requesting fraternities

to list the number of times seniors have graduated without paying bills owed to the house. They also questioned whether fraternities would favor and support a voluntary plan to request the withholding of diplomas.

Individual fraternities would have the option of requesting that the University withhold the diplomas but have no control over the fraternity's finances. If the plan is approved by the IFC, it will be sent to a University administration committee for final action.

Discussion will also be held on the request of Edward VanTine Co. to become the official IFC photographer. VanTine proposed that he sell all the fraternity composites and handle all fraternity pictures and in return the IFC would receive a percentage of the charges.

Instruction, Research Cost \$10.8 Million

By CATHY FLECK

Second of Two Articles

The University spends over one-fourth of its total annual income for instruction and departmental research.

A total of \$10,819,825 was spent in the academic year 1957-58 for salaries and wages, outlays for equipment and minor improvements used in instruction, as well as basic

institutional research and organized activities to educational departments.

Expenditures by separately organized research units such as the Agricultural Experiment Station and contract or project service by individual departments totaled \$8,398,699 or 19.9 per cent of the income.

All these investigations were specifically organized and financed from general funds or outside sources.

A total of \$7,569,139 or 18 per cent was involved in carrying the services of the University to individuals and groups throughout the Commonwealth. These services were carried

through agricultural and home economics extension activities and the University's General Extension Services, very largely on a self-financing basis.

Expenditures of the general executive and administrative offices of the University included the costs of the Board of Trustees, the offices of the president and controller and the departments of accounting and purchasing. The total of these expenditures was \$961,155 or 2.3 per cent of the income.

General expense of the University amounted to \$1,938,145 or 4.6 per cent. Included in this expense (Continued on page four)
