

Editorial Opinion

Back to Ithaca

It took approximately 11 months and nine days, but the University Senate finally came through.

It began on Feb. 27, 1958, when All-University Cabinet submitted a recommendation to exempt veterans from required physical education—and the student body stepped on to the Senate-Go-Round.

The students were being whirled around for seven months without even knowing it. And then one day in September, somebody began to wonder just what happened to the recommendation. All-University President Jay Feldstein dispatched John D'Angelo, his administrative assistant, to find out.

D'Angelo got the ride of his life, touring the offices of Senate committee chairmen. Finally he came to the inescapable conclusion that the brilliant senators had lost the thing.

Well, rather, perhaps, misplaced it. For a few days later, one of the chairmen found it lying on his desk. And so, it started off again.

The proposal was submitted to the Committee on Academic Standards (again), which reported negatively. Feldstein spoke to the Senate and the plan was re-referred to the Committee on Educational Policy, which seems to have ended the Odyssey with a negative report.

Cabinet Applauds

All-University Cabinet broke into its first round of applause in a year Thursday night.

The applause followed a report given by Carmella LaSpada, general chairman for Larry Sharp Week. Miss LaSpada presented her committee's plans in a way that made Cabinet members wonder just how such preciseness was possible at this early date.

Mary Ann Gemmill, chairman of the Board of Dramatics and Forensics, spoke for Cabinet members in congratulating Miss LaSpada for the remarkable job she and her committee have done in coordinating the week's events.

The committee has spent countless hours going over plans so that the general campaign would be an overall success.

But the efforts of Miss LaSpada and her committee are just a beginning toward making Larry Sharp Week realize its \$7000 goal.

Only the cooperation of students, townspeople and faculty can bring to the entire week the complete success it deserves.

Ambulance Segregation

A national news magazine recently printed a picture of a Negro African boy lying injured in the street while a white policeman took measurements of truck skid marks. The caption said the country's segregation laws prevented the white ambulance drivers from taking the boy to a hospital, so he had to lie helpless for 45 minutes until a press photographer drove him to the hospital.

As ridiculous and inhuman as such a policy appears, it exists in the Union of South Africa.

And until this week, a somewhat similar situation existed on the University campus.

A. E. Diem, vice president for business administration, announced a new policy for the University ambulance, replacing the "feeling or general belief that the ambulance was to be used only when a STUDENT needed emergency care."

Now visitors and members of the faculty and staff have been welcomed back into the human race on campus and will be entitled to University ambulance service.

Fifty-four Years of Student Editorial Freedom

The Daily Collegian

Successor to The Free Lance, est. 1887

Published Tuesday through Saturday morning during the University year. The Daily Collegian is a student-operated newspaper. Entered as second-class matter July 5, 1934 at the State College, Pa. Post Office under the act of March 3, 1879. Mail Subscription Price: \$3.00 per semester - \$5.00 per year.

Rushees Enjoy Fraternities' 'Glad Hand'

"Gee," "gosh," "wow" and a host of other superlatives could probably be used to describe the feelings of second semester freshmen, still a little awed by it all, after a week of rushing.

Doubtless, they are finding the food quite good. As one house president put it to the brothers, "the first eight weeks we eat good—after that, peanut butter."

The "glad hand" extended the rushees is apparently very effective. "I never felt so happy in all my life," said one astonished frosh.

Tonight, as last night, rushees will be able to take their dates someplace other than the HUB or the Corner Room.

Before they enter the darkened fraternity houses, where the welcome mat and "glad hand" will again be in overabundance, freshmen will be able to take dates either to the Penn State-Syracuse basketball game (8 p.m. Recreation Building) or to one of three movies.

Instruction--

(Continued from page one)

are 1) maintenance of the offices of the dean of admissions and registrar, dean of the graduate school, dean of men, dean of women, division of counseling, chaplain and placement service, and 2) miscellaneous outlays for personnel administration, legal council, public information and insurance.

Other expenditures for the year were: libraries, \$584,634 or 1.4 per cent; operation and maintenance of the physical plant, \$3,625,301 or 8.6 per cent; auxiliary enterprises, \$7,558,805 or 18 per cent; and student aid \$642,294 or 1.5 per cent.

The sub-total of the operating money for the year plus \$715,507 in appropriations and transfers gave a total of \$42,813,509 that was spent by the University in that year.

Little Man on Campus by Dick Bibler

"Are the boys taking us to see this picture in a theater or a 'drive-in'?"

Letters

Student Asks For Certainty

TO THE EDITOR: In response to Dr. Howard A. Cutler's article of Feb. 5 issue of The Daily Collegian:

What is wrong with certainty? Certainty gives hope. Certainty releases the heart of man from fear, despair and darkness.

One thing is certain. We need to reckon with the heart of man. Witness the ideas springing from our so-called "Beat Generation". This is a generation that seeks a foothold on life, but finds only the quicksand of changing ideals. What can be lonlier than the statement made by a spokesman of the Beat Generation, Jack Kerouac? When asked what he wanted most from life, Kerouac replied, "Show me the face of God."

Maybe all of us don't fall into the category of those who are "Beat," but doesn't Kerouac's statement reflect something deep-seated within all of us, that is, a need for companionship, hope, truth and all that encompasses the certainties of life?

If uncertainty promotes "creativity," as Dr. Cutler has implied in his statement "certainty abolishes the need for creativity," how much more fertile would be the endeavors of man if his course had bearings? Witness the air and sea tragedies that have occurred recently. They were the result of minor fluctuations in the certainty of their bearings. If the physical properties of this earth need direction, does not also the spirit of man need rest on safer ground than uncertainty?

If man needs "internal con-

sistency," let him find it in the One who never varies, namely, Christ Jesus.

Are we to go on searching and never find? Are we to travel and never arrive? I ask you.

—Bernie Buhl, '60

Californian Seeks Toasts for Book

TO THE EDITOR: For the past several years I have been collecting "toasts," in English and many other languages, with the intention of publishing a comprehensive book of the collection. While the selection is fairly good, I feel I don't have enough which reflect our contemporary mores.

I would like to ask the readers of the Collegian if they have any toasts of any description which they would like to share. For any such toasts which are included in this collection, I will be pleased to send a complimentary copy of the book when published. Please send yours to me at 3969 Branson Drive, San Mateo, Calif.

—John Koken
