

Snack Bar Established In Redifer

Coeds living in the South Residence Halls can now get their study snacks at a vending area opened by the Department of Housing in the Redifer lower lobby this semester.

Eight vendors now provide the women with a variety of drinks, candy and ice cream. Plans are underway to add a vendor for pastry, potato chips and pretzels, and another dispensing fruit.

The idea for a snack area was suggested by representatives to the Women's Student Government housing committee last year. The group meets with Otto Mueller, director of housing, every two weeks to discuss the dormitory housing situation.

No area had been provided for a snack bar when Redifer Hall was constructed, so a small storage room has been converted to fill the needs of dormitory residents. Work has been going on for several months, since the room had to be painted, wired for electricity and plumbing provided for a sink to wash out the machines. Asphalt tiles were laid to form a large PSU on the floor.

Two sets of wrought-iron tables and chairs, similar to the deck furniture used on terraces around the dormitories, have been provided for the women's use. The Department of Housing intends to put additional furniture in the alcove outside the snack room if the place becomes popular with coeds.

There is an added possibility that regulations can be adjusted so that the doors leading to Redifer can be left open, allowing the women to use the vendors between 10 and 11 p.m.

Once there was a small Book Store on West College Avenue.

Now there is a large, modern Book Store on E. College Ave.

KEELER'S

CONGRATULATES PENN STATE STUDENT BODY

AND WE WISH TO THANK ALL CLASSES FOR THE ACCEPTANCE OF THEIR NEW SELF-SELECTION STORE.

The **New KEELER'S** ... The University Bookstore

206 East College Avenue . . . Opposite the East Campus Gate
Serving Penn State Students Since 1926

LYONS FLORISTS

and GREENHOUSES

Our Specialties are cut flowers, dynamic arrangements and corsages

AND

We are proud of our WIDE selection of potted plants for use in doors or out-of-doors.
