

# Alums Increase University's Influence

(Continued from page three) former president of the Board of Trustees.

Two other executives head businesses that are dependent on each other—Oliver G. Willits, Class of '14, chairman of the board of Campbell Soup Co., and J. B. Wharton, Class of '35, president of the National Can Corp.

Edwin T. Asplundh, Class of '12, is chairman of the board of Pittsburgh Plate Glass Co. and George L. Haller, '27, is vice president and general manager of the Defense Electronics Division, General Electric Co.

The University is well represented in the field of education by Dr. David D. Henry, president of the University of Illinois, and

John R. Richards, chancellor of the Oregon State System of Higher Education which includes Oregon State University, University of Oregon and others. Henry graduated in 1926 and Richards was in the class of '29.

William H. Meyer, '36, snook the Vermont political picture last November. He became the first Democrat elected to a national office from Vermont in 106 years.

One distinguished alumnus working out of the nation's capital is Harry J. Anslinger, Class of '16, serving as chief of the U.S. Bureau of Narcotics.

The University holds its own in the world of show business, also. Oliver Smith, Class of '39, is a leading stage designer in New

York. His top jobs include My Fair Lady, Auntie Mame and the Flower Drum Song

Vance Packard, '36, wrote "The Hidden Persuaders," a book that has hit the top seller lists.

These are only a few of the University's distinguished products and only a few of the major companies and institutions they represent. The alumni will have a great influence in determining the reputation of the University in the future.

## SENIORS AND GRADUATE STUDENTS IN ENGINEERING, PHYSICS AND MATHEMATICS

### The Douglas Aircraft Company

#### INVITES YOU TO ON CAMPUS INTERVIEWS FEBRUARY 23 and 24

Find out about the interesting positions, assistance in furthering your education and outstanding promotion opportunities with the world's leading manufacturer of aircraft and missiles. Get facts on living conditions, research facilities and opportunities to advance professionally at Douglas facilities located in California, Florida, Oklahoma, North Carolina and New Mexico.

Reserve your career decision until you have talked with the Douglas representative. It may be the most important interview of your life.

## Old Classes

(Continued from page three) charged two-thirds of the cost of a broken article.

Letters confirming admission to the school gave directions for reaching it. An example of one of these letters said: "... It is accessible to visitors and students by the Pennsylvania Railroad to Lewistown and from that place by daily stage to Bellefonte and thence to the school by stage or livery accommodation.

Students had to be 18 years of age or older and the number admitted in a school year which began in February and ended in December was not to exceed 100.

Students had to appear at meals neatly dressed and in proper attire. They were not allowed to take anything from the kitchen without leaving the proper ticket until it was returned. Even then the administration had discipline problems. A letter from William Gularing, superintendent, said:

"There has been very much plundering of melons (from experimental nursery beds), fruits, money, utensils, keys etc. ..." He asked what could be done about such a problem and devoted the rest of his letter to a declaration on the merits of honesty.

Grading in most courses worked on a 5-point system. Five stood for unexcelled work; four represented good work; three was medium; two was faulty; and one was very deficient.

The first graduating class had 11 members. Their scholastic averages in present-day terms included six A's, three B's and two C's. The class originally contained 17 members, but four left because of illness and two withdrew shortly before graduation to join Sherman on his march through Georgia.

ENROLL NOW for ballroom dancing, tap, toe, or acrobatic lessons. Park Forest Village School of Dance. AD 8-1078.

A CAMPUS-TO-CAREER CASE HISTORY

## He's been on his way up from the day he started work

James C. Bishop got his B.S. in Electrical Engineering from the University of Illinois on June 23, 1953. On July 1, he went to work as a lineman in the Illinois Bell Telephone Company management training program. On July 2, he was "shinnying" up telephone poles.

And he's been "climbing" ever since. A planned rotational training program, interrupted by a stint in the Army, took Jim through virtually every phase of plant operations.

He was promoted to Station Installation Foreman in July, 1957. Then came more training at company expense—in human relations and other supervisory subjects—at Knox College.

Since early 1958, Jim has been Central Office Foreman in the Kedzie District of Chicago, which embraces about 51,000 telephone stations. He has 19 men reporting to him.

"I was hired as 'a candidate for management,'" he says. "I know I'll get the training and opportunity to keep moving ahead. How far I go is up to me. I can't ask for more than that."

Find out about career opportunities for you in the Bell Telephone Companies. Talk with the Bell interviewer when he visits your campus. And, meanwhile, read the Bell Telephone booklet on file in your Placement Office.

Jim Bishop holds training sessions regularly with his men. At left, he discusses cable routes in connection with the "cutover" of his office to dial service. At right, he and a frameman check a block connection on the main frame.
