

U.S., Mexico to Build Joint Dam on Rio Grande

ACAPULCO, Mexico (P)—President Eisenhower and Mexico's President Adolfo Lopez Mateos ended their two-day good neighbor meeting last night by agreeing to build a joint \$100-million dam on the Rio Grande.

The two chief executives also agreed that their governments should cooperate to help Mexico sell more minerals, coffee and cotton.

The results of their five hours of conference were announced in a communique stressing that the two men met as friends

seeking to contribute to a just and lasting peace everywhere.

The dam Eisenhower and Lopez Mateos agreed should be built is to be known as the Diablo Dam. A structure 250 feet high and 6½ miles long, it is to be located about 12 miles from the Texas town of Del Rio on the Rio Grande.

The dam has been in the talking stage for about 10 years. It would promote flood control and provide more irrigation and power benefits.

Eisenhower was expected to end his 36-hour visit about midnight last night and fly to Augusta, Ga., or back to Washington if the weather is bad in Georgia.

Dulles Renews Fight for Life

WASHINGTON (P)—John Foster Dulles began yesterday the second fight of his life against cancer. He too the first of a series of treatments under a million-volt X-ray machine at the Army's Walter Reed Medical Center.

The treatments probably will continue daily, except Sunday, for three or four weeks. By the end of that period his doctors may be able to determine whether Dulles can return to active duty as secretary of state.

The statement that the treatment was well tolerated, Lincoln White, press officer at the State Department, said, means that Dulles was not sickened by it as some persons are.

Dulles will be 72 next Wednesday. He has been in the hospital for 10 days.

Bulletin City Editor Dies During Florida Vacation

PHILADELPHIA (P)—Stanley G. Thompson, city editor of the Philadelphia Bulletin, died Thursday night at the outset of a vacation with relatives in Lake Worth, Fla. He was 61.

He suffered in recent years from a heart condition, but this rarely kept him from his desk. He was on the job Wednesday, right up to taking off for a two weeks rest at the home of his father-in-law, Lee Gibson. Death came as he slept.

He was employed by the Associated Press in Detroit, New York and Berlin.

Warren Quits Bar Assn.

CHICAGO (P)—The board of governors of the American Bar Assn. yesterday accepted the resignation of Earl Warren, chief justice of the United States.

Neither Warren nor officials of the bar association have made public the reasons for the resignation.

Amazing how fast a young engineer surges ahead in an engineering-minded company! Many executive-type jobs at West Penn Power are filled by engineers. They talk your language. They appreciate the vital contribution an engineer can make. They invite you to join them in a challenging industry.

You owe it to yourself to look into a company where a young engineer is given a chance to advance when positions ahead open up... where a young engineer is more than a slide rule expert.

We'd like to talk to you if you're about to receive a degree in electrical or mechanical engineering. Our representative will be on campus
