

Beck Sentenced 5 Years; African Riots Halted By British Guns

TACOMA, Wash. (AP)—Millionaire ex-Teamster President Dave Beck was sentenced to five years in prison and fined \$60,000 for tax evasion yesterday by a judge who said exposure of Beck's "insatiable greed is a shocking story."

Army Will Try 2nd Moon Shot This Weekend

CAPE CANAVERAL, Fla. (AP)—A Polaris rocket apparently blew up, a Jupiter was fired successfully and the Army pushed ahead with plans for an imminent moon shoot at the busy missile test center Friday.

The 28-foot Polaris poured out a puffy smoke trail and disappeared in a hovering mass of clouds in seconds.

The Navy announced later, however, that the missile may have broken up shortly after launching. Sources close to the project confirmed this.

It was the fourth time that the temperamental Polaris has blown up in five attempts during the latest development series.

The Army, using a Jupiter IR-BM as a booster, plans to make a second attempt to fire a 13-pound satellite past the moon and into orbit around the sun sometime this weekend. On the first shoot Dec. 6, the Army probe climbed 64,000 miles before plunging back to earth.

BLANTYRE, Nyasaland (AP)—Security forces broke up an African demonstration with guns and tear gas yesterday near Blantyre. One African was killed and two others were wounded in this latest burst of native nationalism now erupting.

In Southern Rhodesia, the British rounded up scores of African nationalists and hustled them off to barbed wire encampments. Quiet was reported in Northern Rhodesia which, with Nyasaland and Southern Rhodesia, makes up the British Commonwealth central African federation.

There were rumblings of trouble in the Belgian Congo to the north of the federation and occasional gusts of violence in the Union of South Africa to the south.

In the Union of South Africa, two clashes were reported between police and African women who resented the issue of passbooks to African women under the country's racial segregation laws.

The judge assessed Beck \$10,961.52 court costs and ordered him to produce the \$70,961.52 total of fines and costs Friday to avoid going to jail.

Beck was sentenced to five years on each of six counts and fined \$10,000 on each count. The prison terms are to run concurrently. It was the maximum fine, but the ex-labor leader could have been sentenced to a total of 30 years imprisonment.

Beck told newsmen: "I have a great and firm belief in our judicial system. I am not the first innocent person to be sentenced nor will I be the last . . ."

Los Angeles to Host Democrats in 1960

WASHINGTON (AP)—Democrats settled yesterday on Los Angeles as the site for their 1960 presidential nominating convention, but only after a five-hour wrangle.

The Democratic National Committee rejected competing bids of Philadelphia and Chicago for the convention scheduled to open on July 11, 1960.

Clashes between National Chairman Paul M. Butler, Mayor Richard Daley of Chicago and Gov. A. B. (Happy) Chandler of Kentucky marked a series of defeats for insurgents who sought to overcome the choice of Los Angeles by the national committee's site subcommittee.

In the showdown, the national committee voted 71-35 to accept the subcommittee's choice. Camille F. Gravel Jr. of Louisiana, who headed the site subcommittee, said the party would receive about \$750,000 in benefits from Los Angeles.

Chicago's bid for the convention was defeated on a voice vote. Gov. David Lawrence of Pennsylvania then moved to pick Philadelphia. His motion was defeated 67-39.

Boat-Boarding Act Illegal, Say Reds

WASHINGTON (AP)—The official Soviet news agency Tass Friday night described a U.S. Navy boarding of a Soviet fishing vessel as a unlawful action, but the State Department indicated it won't apologize.

Moscow radio and Tass, for the first time, carried factual dispatches from New York reporting that a Navy boarding party had inspected the records of the trawler about 120 miles off Newfoundland.

The dispatch contained no comment, but Tass gave it this headline: "Unlawful action of the American naval fleet in the open sea." Moscow radio, in broadcasting the account in Russian, omitted the accusing headline.

Why your engineering career with an electric utility is MORE THAN JUST A JOB

BECAUSE you begin at a good salary.

BECAUSE your salary will be reviewed regularly.

BECAUSE you enjoy security in your profession, security for your family, in an industry that will more than double in size in 10 years.

BECAUSE the work is exciting and challenging; you work with the top men in the field, using the latest equipment.

BECAUSE the electric utilities generally follow a policy of promotion from within; your chance of continuing to advance depends on you.

WHY NOT ASK about the opportunities at your local electric utility company? Talk with the electric companies' interviewers when they visit your campus, or write to:
