

Atomic Explosions Raise Missile Defense Hopes

WASHINGTON (AP)—U. S. hopes for building a defense against the intercontinental ballistic missile were brightened yesterday by the announced success of a series of high altitude atomic test explosions.

The hitherto secret launching of three rockets bearing nuclear warheads into space late last summer was described by the Defense Department as having "advanced the basis of knowledge required to develop anti-missile missiles."

Dep. Secretary of Defense Donald Quarles told a Pentagon news conference that "the national security had been helped by these experiments."

He said the test blasts—the first known man-made nuclear explosions in space—had provided information to back up the Nike-Zeus antimissile missile now under development in this country. These systems must be highly effective in their ability to find and track an onrushing enemy weapon in time to knock it out.

The first of the three atomic bombs was launched from a Navy missile experimental ship last Aug. 27. The second burst was three days later and the last of the series was on Sept. 6.

The officials emphasized that this was about a month before the Oct. 1 start of a one-year suspension on nuclear explosions pending negotiations with the Soviet Union for halting of all such tests.

Sales Tax Increase Defeated; Cigarette Levy Boost Passed

HARRISBURG (AP)—Gov. Lawrence's plan to boost the 3 percent sales tax to 3 1/2 percent, was defeated in the State Legislature yesterday, 86-119. However, unanimous approval was given to a cent-a-pack rise in the cigarette tax.

After the dramatic post-midnight session, House Democratic leadership picked up the pieces of the fallen sales tax bill and made a new overture for Republican help to pass it after the Easter recess.

The cigarette tax boost from five to six cents a pack went to the Senate for action. It is designed to raise 25 million dollars every two years to finance a 150-million-dollar Korean War bonus.

The House also sent to the Senate legislation completing the groundwork to borrow the 150 million dollars in an effort to start

Macmillan Calls For Firmness, Reason in Talks

WASHINGTON (AP)—Arriving here for talks with President Eisenhower, Britain's Prime Minister Harold Macmillan called on the Western Allies to develop "the right mixture" of firmness and reasonableness to guide them in foreign ministers' and summit conferences with the USSR's leaders.

Macmillan expressed confidence that the Soviet leaders want to negotiate rather than go to war over Berlin.

"I am persuaded that the Soviet leaders realize that they and we have a common interest in avoiding war," he said.

Not long afterward the State Department challenged Soviet Premier Nikita Khrushchev to back up the apparent softer tone of remarks he made at a news conference in Moscow yesterday.

Khrushchev said he was ready to accept a Western offer to convene a foreign ministers conference May 11.

Soviet Boss Agrees To Ministers' Talk

MOSCOW (AP)—Soviet Premier Nikita Khrushchev said yesterday he is willing to open a foreign ministers conference on Germany May 11 but insisted only a summit meeting can brush away the threatening clouds of war.

"I am convinced there will be meetings of both the foreign ministers and heads of states," he told a news conference. He said he is waiting for the West to make concrete proposals.

Khrushchev expressed belief President Eisenhower's Monday night speech to the American people recognized a need for negotiations and a willingness to take part in them.

Noting that Eisenhower also had called for a firm Western stand on Berlin, Khrushchev said the President's speech contained contradictions and reservations.

He said, however, that when the reservations "are weeded out" there remains a majority of "healthy seeds"—namely, a willingness to hold a foreign ministers meeting with a summit meeting possibly later.

Repeatedly in the two-hour conference with 300 correspondents in the Kremlin, Khrushchev insisted the Soviet Union was ready to meet the West more than half way to solve the questions of Germany and European security. There was nothing threatening in his words or manner.

In Washington, a State Department spokesman said Khrushchev's remarks appear to be encouraging.

State Freeway Project Begins

BROOKVILLE, Pa. (AP)—A symbolic, three-handled shovel and a roaring bull-dozer turned the first earth yesterday for the start of the Keystone Shortway, a 291-mile freeway that eventually will span Pennsylvania from Ohio to New Jersey.

The ceremony took place in a gently sloping farm field south of Route 322 and six miles west of this Jefferson County community. An audience of 500, many of them from distant areas of the state, watched the event.

The strange shovel, coated in bronze, was symbolic of state, federal and local participation in the project that will eventually cost hundreds of millions of dollars.

It was wielded by State Sen. Z. H. Confair (R-Lycoming) of Williamsport, long time leader in the battle for the Shortway; State Senator Jo Hays (D-Centre), who represented Gov. Lawrence and delivered the governor's prepared speech; and Carl W. Wild, of the Planning Division of the State Highways Department.

payments flowing to some 330,000 Korean War veterans by the end of the year.
