

# Report—

(Continued from page one)

mittee reports, the downtown book sellers almost always buy a little beneath their estimates so that they will not wind up with unsalable books.

The recommended makeup of such a committee would be "the managers of the local bookstores, some members of the administration and some students who are able to voice the students' opinion."

The report will also recommend an expansion of the present Book Exchange, which, the committee says, provides students with school supplies at large savings.

An expanded BX, the report says, should sell such items as toothpaste, brushes, soap, shampoo, razors and razor blades, as well as all engineering supplies and other note books and special papers used by students.

Other recommendations to be made are:

- An expanded Hetzel Union Building should include plans for physically expanding the BX.

- The BX be operated over the summer.

- The BX Board of Control study the possibility of hiring a fulltime manager for the store, if the proposed expansion becomes a reality.

Cabinet will also hear a considerably altered judicial reorganization plan and will vote for the second time on the by-laws for the reorganized student government Constitution.

## Perkins--

(Continued from page one)

Washington and Jefferson. The following year he began a 3-year tour with the United States Army.

Returning to Washington and Jefferson in 1946, he was named secretary of admissions and he continued in this post until 1949 when he came to the University.

His community activities have included Junior Chamber of Commerce, Central Pennsylvania Torch Club, a director of the State College Swimming Pool Assn. and elder in the State College Presbyterian Church.

He is married to the former Jeanne DeMuth, also of Sharon, and they have three children, Susan, 11; Ted, 9; and Timothy, 5.

## 5 Queen Finalists Will Be Chosen

Five finalists for the Freshman Class Sweetheart will be chosen tonight by the male members of the Freshman Advisory Board.

All contestants and male members of the board are to meet in 214-215 Hetzel Union at 7.

The queen will be announced at the Freshman Class Dance on April 11 in the HUB ballroom. The dance, which begins at 8 p.m., is free and open to all students. The music will be provided by the Phi Mu Alpha band.

Tickets are now being distributed at the HUB desk.

## Oberly Hurt--

men who copped EIWA championships two weeks ago. Auble stopped Pitt's Larry Lauchle, the East's 130-pound king, and Hamer decisioned Pitt's Tom Alberts, the EIWA 167-pound champ, 4-0. Both wins came in the championship match.

Oklahoma State won the team title—it's 21st—and had two individual champs. Penn State had four points and a 25th place finish.

## IM Wrestling Finals--

(KS), 3-1; Bridge (Ind) dec. Stauffer, 6-0.  
 158—Keck (DTD) pinned Phillips (ASP), 5:25; Ottoson (Ind) dec. Lablona, 5-4.  
 167—Skiddle (DU) dec. Crowe (SN), 5-1; Demmler (Ind) pinned Vogt, 3:43.  
 176—Hurlburt (AZ) pinned Wilson (SPE) at 2:21; Edwards (Ind) dec. Weaver, 5-0.  
 Hwt—Newbold (SAE) pinned Alteman (DTS) at 2:50; Miller (Ind) pinned Szwarc at 2:31.

## Harnett Wins--

(Continued from page seven)

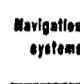

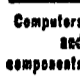

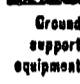

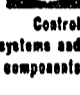

against the champ during the first round of the TKE playoffs, but he was still two below Campbell's total.

Harnett just missed taking the title last year when he was edged out in the finals by Al Jacks, 21-20, 21-18.

## Senior engineering students...

**Kearfott will be on the Penn. State campus  
April 7, 1959**

KEARFOTT CAPABILITIES INCLUDE:

-  Inertial-guidance systems
-  Navigation systems
-  Gyro and gyro systems
-  Computers and components
-  Radar
-  Ground support equipment
-  Test equipment
-  Control systems and components

interviewing for

## ASSISTANT PROJECT ENGINEERS

Responsible training-program assignments offer varied experience, and a chance to select the work you prefer for long-range growth. For example, let's examine the present training of Larry Wood, class of '58:

Larry chose the Navigational Systems Laboratory for his initial assignment. Here, he is working on the inertial guidance system for the SUBROC missile; he selects components such as networks and gear trains, specifies parameters such as amplifier gain, and is studying possible alternates to the present system.

If Larry requests permanent assignment in this Lab, he will write design specifications, sketch originals, and supervise draftsmen in the preparation of final prints. He will coordinate the efforts of engineers from supporting groups, supervise technicians performing final systems tests and developing required supporting test equipment.

Larry is helping Kearfott grow, and he is growing with it. Similar opportunities exist for this year's EE and ME graduates. Please see your Placement Director for additional information and for an appointment.

Larry Wood, BSEE, University of Maine, June, 1958

**Kearfott Company, Inc.**

 A subsidiary of General Precision Equipment Corporation

They said it couldn't  
 be done...  
 They said nobody  
 could do it...  
 but —

L&M is  
**Low**  
 in tar

with  
**More**  
 taste to it

**Don't settle for one without the other!**

"L&M is kindest to your taste because L&M combines the two essentials of modern smoking," says TV's Jack Lescoulie.

**LOW TAR:** L&M's patented filtering process adds extra filter fibers electrostatically, crosswise to the stream of smoke... makes L&M truly low in tar.

**MORE TASTE:** L&M's rich mixture of slow burning tobaccos brings you more exciting taste than any other cigarette.

**LIVE MODERN... CHANGE TO MODERN L&M**
