

Professors to Fill Mines Group Posts

Dr. John J. Schanz, Jr., associate professor of mineral economics, was elected secretary-treasurer of the Council of Education of the American Institute of Mining Engineers at the annual meeting held in San Francisco, Calif.

Another member of the faculty, Dr. R. L. Slobod, professor and head of the Department of Petroleum and Natural Gas Engineering, was appointed to the education committee of the Society of Petroleum Engineers of the AIME.

tiveness in dealing with others, professional competence and latent supervisory or managerial efficiency."

Students have a great challenge to live to the year 2000, Lobinger said as he outlined what industry expects of college graduates during the next 40 year span and how this job can be accomplished.

Lobinger warned students of the post-graduate slump which will occur in the first five years away from college and urged students to keep studying and be alert. "The first year after graduation is the toughest—you must secure a job," he said.

The industrial enterprise system must find the solution to automation which causes unemployment, human relations and maintaining a supply of competent personnel as are found in college graduates, Lobinger said.

Platforms--

Steele was criticizing one of University party's planks which would set up a committee to air complaints from town independents.

Pearson said, "I sit on TIM council and they can't complain through it. Besides that, TIM has no power to do anything about it." Pearson was backed up on this by Edward Frymoyer, president of the Association of Independent Men.

New Eng Course--

tive courses in mathematics beyond those usually offered in engineering curriculums.

The materials option, the first program of this type to be offered anywhere in this country, will include in addition to the usual amount of mathematics a new type of training in materials engineering.

The new curriculum will mark the first time that a baccalaureate degree will be conferred in engineering mechanics.

Know Customs--
