

Greek Projects Set for Today

The postponed Greek Week community projects will take place today with over 500 fraternity and sorority members participating.

The event was rained out last Saturday.

Students will work on 19 different projects from 1 to 5 p.m. in order to develop a feeling of citizenship and community responsibility which is a part of the annual observance of Greek Week.

The largest project will be at Stone Valley where about 200 students will clean up the area. They will leave at 1 p.m. from the Hetzel Union parking lot in University buses.

Refreshments will be provided for the students at Stone Valley by the Outing Club.

Greeks going to Stone Valley are: Pi Lambda Phi, Sigma Tau Gamma, Chi Omega, Alpha Sigma Phi, Alpha Chi Sigma, Acacia, Kappa Sigma, Phi Mu Delta, Sigma Sigma Sigma, Theta Xi, Alpha Zeta, Delta Gamma, Sigma Alpha Epsilon, Beta Sigma Rho, Alpha Xi Delta, Phi Gamma Delta.

Other projects and the fraternities and sororities participating are: Park Forest Playground—Tau Phi Delta, Gamma Phi Beta and Pi Kappa Phi; Woodcrest Playground—Alpha Gamma Rho, Beaver House and Alpha Gamma Delta; Westview Playground—Lambda Chi Alpha, Alpha Phi and Sigma Phi Epsilon; Sunset View Playground—Tau Kappa Epsilon, Alpha Chi Omega and Kappa Delta Rho; East Fairmount Playground—Theta Delta Chi, Alpha Delta Pi and Alpha Kappa Lambda; Holmes-Foster Playground—Alpha Chi Rho, Phi Mu and Delta Theta Sigma.

Also, South Hills Playground—Pi Kappa Alpha, Zeta Tau Alpha and Alpha Rho Chi; Panorama Playground—Theta Kappa Phi, Theta Phi Alpha and Phi Kappa; High School Football Field—Delta Upsilon, Kappa Kappa Gamma and Beta Theta Pi; Harris Twp. School Playground—Delta Sigma Phi, Kappa Delta and Delta Chi; Lemont School Playground—Phi Kappa Sigma, Delta Delta Delta, and Phi Delta Theta.

Also, Legion Park—Chi Phi, Pi Beta Phi and Alpha Tau Omega; Community Tennis Courts and Baseball Field—Sigma Alpha Mu, Alpha Epsilon Pi, Sigma Delta Tau, Zeta Beta Tau and Beta Sigma Omicron; Boro Refuse Forest—Theta Chi, Delta Zeta and Phi Sigma Kappa; Day Care Training School—Phi Kappa Psi, Alpha Omicron Pi and Sigma Pi; Midget League Baseball Field—Kappa Alpha Theta, Phi Kappa Tau and Delta Tau Delta.

Harootunian Gets Grant For Summer Research

Dr. Harry D. Harootunian, instructor in history, has been awarded a \$500 grant-in-aid for summer research by the American Philosophical Society.

Harootunian is working on a monograph treating a group of early 19th century Japanese thinkers who were concerned with the effects of western penetration on the Far East.

'Readership' To Be Goal Of Handbook

Ben Bronstein, editor of the 1959 Student Handbook, told All-University Cabinet Thursday night that the format of the handbook will be changed because few students read it in its present format.

Bronstein said many students in the past read very little of the publication because of the lack of illustrations. He said next year's handbook will seek more readers with a liberal use of photographs and artwork.

Two major changes in the content of the handbook are planned. Information on student government will be removed from the section on extracurricular activities and placed alone because of the recent reorganization.

The section on campus religion will be eliminated since each religious group sends out its own detailed information.

Besides being new, Bronstein promised, "it is going to be the best handbook ever to be issued by the Student Government."

In other business, All-University President Jay Feldstein reported on actions of the Senate Committee on Student Affairs at its April 9 meeting. They included approval of the Mineral Industries College honor system, provisional approval of the Penn State Government Association and approval of a charter for the Engineer's Club.

Lanny Day, chairman of the flashcard committee, told Cabinet that his committee had a poor response to the questionnaires sent to other colleges. Only two colleges replied.

Day said that lack of information on a flashcard system has hindered the committee's efforts and that 800 questionnaires will be distributed on campus to determine student interest in such a program. He said he thinks a flashcard system at the new stadium is feasible.

Hubana to Feature Fraternity Band

The Phi Mu Alpha dance band will play for the semester's second Club Hubana from 9 p.m. to midnight today in the Hetzel Union ballroom.

Tickets will go on sale at \$1.25 a couple today at the HUB desk. The floor show will include a combo, Pat "the Cat" Monforte and His Kittens: a song and dance act by Audrey Quayle, sophomore in education from Philadelphia; and singer Judy Coy, freshman in arts and letters from Lititz.

The last Club Hubana of the semester will be held in May, according to chairman Richard Stevko, sophomore in pre-medicine from Palmerton.

Frings to Talk at Bowdoin

Dr. Herbert W. Frings, professor of zoology, will give the Annual Public Lecture on Ornithology at Bowdoin College on Thursday.

Williams to Appear In Schwab Tonight

Emlyn Williams, who will present Dylan Thomas' "A Boy Growing Up," at 8:30 tonight in Schwab Auditorium, discovered the theatre through the Dramatic Society at Oxford University.

There are no tickets remaining for the performance, 15th in the current Artists' Series.

Williams was still an undergraduate when his first play was produced by the Oxford Playhouse. He got his first acting job in "And So To Bed," in London. He later came to New York in the same play.

The man who is known as actor, playwright and director had his first play, "Full Moon," produced while still an undergraduate. J. B. Fagan, who produced the play for the Oxford Playhouse, was the one who gave Williams his acting start.

However, as is the plight of many young actor-writers, it was a while before he really got started. With his performance in Edgar Wallace's "On The Spot," and his staging of his own play, "A Murder Has Been Arranged," he was on his way.

One year later, in 1931, he started his screen career as Lord Le-

anon in Wallace's "The Case of the Frightened Lady."

His first real success in the movies came to Williams as author and star of "Night Must Fall."

He has been seen in movies and on the stage ever since. Only five times in his career has he acted in plays he did not write. He appeared with the Old Vic Company in "Measure for Measure" and "Richard III."

He has also appeared in Terence Rattigan's "The Winslow Boy," Lillian Hellman's "Monstrat" and Henrik Ibsen's "The Wild Duck."

HUB to Take Orders For Sr. Announcements

Orders for graduation announcements and invitations will be taken at the Hetzel Union desk until noon today.

No orders will be taken after today.

Powers To Head Science Extension

William H. Powers, director of arts and science extension, has been named associate dean for the University campuses and director of science extension in the College of Chemistry and Physics, effective July 1.

Powers will be responsible for resident instruction in the sciences at the University campuses and centers and for all continuing education work in science.

With the growing program in the sciences, especially in programs such as the teacher institutes sponsored by the National Science Foundation, which Powers has been coordinating on campus, he will be devoting an increasing amount of his time to the work in the field of the physical and biological sciences.

Powers will continue to hold the academic rank of professor of chemistry. He has been director of arts and science extension since 1948 and has been serving departments in three colleges concerned with the liberal arts and the physical and biological sciences.

A native of Titusville, he received his bachelor of science degree in soil chemistry from the University of Notre Dame and his master of science degree from Ohio State University. Prior to his appointment here in 1923, he taught in the public schools of Oil City.

Scholarship Funds Available for Fall

Scholarship applications for next year are available in 205 Old Main and must be turned in by 5 p.m. Monday, April 27.

The scholarships, which are announced by the Penn State Student Scholarship Fund, are available to students enrolled in a regular 4-year course. The student must have a minimum All-University average of 2.5 and at least one semester residence at the University.

Factors considered in selection of recipients are character, contribution to student activities and need as indicated by the necessity for part-time work. Part-time work includes summer work needed to aid expenses as well as work while on campus.

More newspapers are sold in two days than the total number of passenger cars registered throughout the world.

Liver: You Hate It But You Need It

By LOLLI NEUBARTH

If you hate liver, leftovers and Brussels sprouts, you share the taste of a majority of residence hall diners.

But if you keep finding these "most disliked" items on your plate it isn't because the Department of Food Service is unaware of student preferences.

According to Mrs. Eris M. Sanders, food supervisor at Redifer Dining Hall, by checking food left on plates, requests for second servings and even the number of students who show up for a certain meal, the department gets a good idea of whether an item is disliked or not.

"In Redifer one of the supervisors checks often almost every meal to see what items were not

well received," she said.

Robert C. Proffitt, director of the department, said liver heads the list of "pet hates," but because of its high nutritional value and since there are students who like it, it is still offered as an alternate choice with Friday's fish.

Creamed dishes and those using leftovers also are not popular, he said. Spinach is surprisingly well liked and so are peas, corn and green beans. Least popular are asparagus, broccoli and Brussels sprouts.

Hamburgers and hot dogs are the most liked luncheon items, closely followed by spaghetti and lasagne.

Supervisors find that students often will not even try new items on the menu. If they find that almost everyone left a certain food, it usually will be served

less frequently or only when there is a choice. At any rate, it will not appear again for at least six weeks, since menus are planned about that far in advance.

Proffitt added that in planning menus strict attention is paid to satisfying nutritional needs of active young people, cost, seasonal availability of foods and limitations of staff and equipment.

New recipes are tested and standardized in an experimental kitchen before being placed on the master menu. Although each dining hall serves the same food, efforts are made to vary menus as much as possible.

"We are not a 'chicken every Sunday' organization," Proffitt said. We try to avoid a set pattern in menu planning so students won't feel that there are "Monday and Tuesday" foods.

WHO SAID IT FIRST?

A column of incidental intelligence
by Jockey brand

	<p>"TO HAVE AND HAVE NOT" The privileged and the underprivileged, the rich and the poor—most of us have a tendency to divide mankind into two classes. The man who showed us how to do it was Cervantes. In "Don Quixote", he wrote: "There are only two families in the world, the Haves and the Have Nots."</p>
<p style="text-align: center;">"WHEN IN ROME..."</p> 	<p>...do as the Romans do, we say, thus misquoting a line from Burton's "Anatomy of Melancholy". In this monumental book, the celebrated vicar stated it thusly: "When they are in Rome, they do there as they see done."</p>
	<p>"JACK SPRAT" No, "Anon" didn't coin the famous quatrain concerning the thin man and his peculiar eating habits. Instead, it was a certain John Clark in something called, "Paraemologia", written in 1639: "Jack Sprat will eat no fat, And Jill doth love no lean, Yet betwixt them both They lick the dishes clean."</p>

Jockey Underwear

Of all the kinds of underwear, only Jockey brand is especially tailored to feel better because it fits better. This superior comfort is assured by exclusive construction features that no other underwear can duplicate. To enjoy real comfort, insist on Jockey brief—the world's first and finest. Look for Jockey at your campus store.
