

Surrender of Invaders Negotiated in Panama

PANAMA (AP)—Two bearded Cuban officers landed at a remote Panama beach yesterday on a peace mission and contacted a band of invaders from Cuba.

The officers immediately began negotiating for the surrender of the invasion force.

In another spectacular aspect of the unfolding modern drama in old-time pirate sea haunts, Cuba's Prime Minister Fidel Castro declared from a plane in flight that the Cubans invading Panama were not of his ilk.

Republicans Oppose Tax On Alcohol

HARRISBURG (AP)—A combination of nine House Democratic rebels and solid Republicans opposition last night threatened the passage of Gov. Lawrence's plan to extend the 3 1/2 per cent sales tax to beer and liquor.

Rep. Stephen McCann, House Democratic floor leader, said he would nevertheless push for a final vote Wednesday even though prospects were in doubt.

"We're going to roll the bill," he told the Associated Press. "We had a Republican promise to support the bill and I'm going to find out about that promise."

Rep. Albert W. Johnson, GOP floor leader, said his 102-member GOP caucus agreed during the day to vote solidly against the measure.

Previously, he had said that some Republicans may support the measure. He had identified the group of Republicans as prohibitionists who would be disposed to load the liquor industry with additional taxation.

As revised, the beer and liquor sales tax would exempt across-the-bar drinks. The levy instead would be imposed on retail and wholesale sales made by beer distributors and state liquor stores.

The amended bill would yield 37 1/2 million dollars, 21 1/2 millions short of the 59 millions estimated as the revenue from the original bill.

Fixed Check Asked For Nuclear Tests

GENEVA (AP)—The Soviet Union said yesterday it will cooperate in a veto-free system of spot checking the sites of suspected nuclear explosions if the three atomic powers fix the number of such checks in advance.

Seymour Tsarapkin, chief Soviet delegate to the conference here on a treaty to ban nuclear tests, told newsmen the Soviet proposal offered a chance to break the deadlock in the six-month-old talks.

The Soviets have been insisting on a veto over inspection arrangements for a test ban. The United States and Britain have declared that an inspection system is worthless unless it has no holes and is free from governmental interference.

Tsarapkin called for a prompt acceptance in principle of the Soviet proposal by the Western powers as a way to break the impasse.

The idea of a limited number of spot checks was brought up by the Soviets Monday amid speculation that the move was ultimately aimed at driving a

wedge between the United States and Britain.

The two Western powers have offered to explore the idea but have given Tsarapkin a list of questions dealing with its application.

Luce Named Ambassador To Brazil

WASHINGTON (AP)—Clare Booth Luce easily won Senate confirmation as ambassador to Brazil yesterday and almost immediately set off a brand new uproar.

She and Sen. Wayne Morse (D-Ore.), her chief critic, raised pointed questions about each other's sanity.

In the midst of the storm that followed, her editor-husband, Henry R. Luce, said in New York he had asked her to offer her resignation as a result of Senate criticism.

"That would be good for the country," Morse said.

Several senators accused Mrs. Luce of going too far, indulging in intemperate language and even being invective.

There was no word from Mrs. Luce as to whether a resignation had been submitted.

But press secretary James C. Hagerty said at the White House that Mrs. Luce had not been in touch with anyone there since the vote on confirmation and added:

"There has been no resignation."

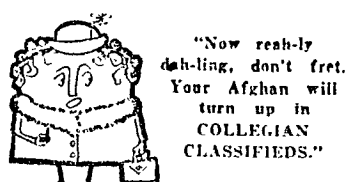

A flurry of White House telephone calls to Sen. Everett Dirksen of Illinois, the Senate Republican leader, indicated that a resignation might be imminent.

PRR States Right To Alter Schedule

PHILADELPHIA (AP)—The Pennsylvania Railroad told the State Supreme Court yesterday it has always had and must continue to have the right to eliminate certain unprofitable trains and change time schedules without first getting Public Utility Commission approval.

The PUC, backed by the cities of Philadelphia and Pittsburgh, appealed to the high tribunal to reverse the State Superior Court which last November upheld the railroad view.

The PRR, America's biggest railroad, then eliminated five trains running between Philadelphia and Pittsburgh. The Supreme Court, pending outcome of yesterday's appeal, ordered the trains to continue in service.

Budget Seen Cut Below \$77 Billion

WASHINGTON (AP)—Senate Democratic Leader Lyndon B. Johnson of Texas predicted yesterday that Congress will cut President Eisenhower's budget below the 77 billion dollars he asked—but perhaps won't balance the budget.

When questioned by reporters, Johnson said he was not forecasting a balanced budget for the next fiscal year, starting July 1.

"We may not raise all the money the President wants us to raise, but we'll appropriate less than he asked us to spend," he explained.

Eisenhower sent to Congress last January a budget to be balanced with an increase in the tax on highway fuels and higher postal rates. Neither of these boosts has gotten anywhere in Congress so far.

Johnson said America must dedicate itself to "the realization that our free enterprise system is locked in the struggle with an enemy, not within our own country but without."

Saying a balanced budget is "not a partisan issue, except in the headlines," Johnson said Democrats and Republicans alike have a stake in a second economy and a balanced budget.

In 1880, the first roll film for cameras was patented by George Eastman. Today, more people are taking more pictures than ever before. And more photography advertisers are investing more advertising dollars in newspapers than ever before.

Asked for comment, the White House press secretary, James C. Hagerty, said: "There is another house, isn't there?"

Senate Overrides Veto of REA Bill

WASHINGTON (AP)—The Senate, with Democrats in the saddle, voted yesterday to override President Eisenhower's veto of a bill that would strip away Secretary of Agriculture Ezra Taft Benson's power over rural electrification loans.

The 64-29 count—two votes more than the required two-thirds majority—was a stinging rebuff to Eisenhower. Only a few hours earlier, he had told Republican congressional leaders he hoped his veto Monday would be sustained.

Fifty-eight Democrats and six Republicans, all but one from Midwest farm states, voted to override. Siding with Eisenhower were 28 Republicans and a single Democrat—Sen. Frank J. Lausche of Ohio.
