

# Gates, Radford Chosen To Fill Military Offices

WASHINGTON (AP)—The administration moved yesterday to fill two gaps at the top of the military establishment, choosing Thomas S. Gates to be deputy secretary of defense and recalling Adm. Arthur W. Radford for temporary duty.

Gates, now secretary of the Navy, had been due to leave government service within a few days.

President Eisenhower's choice of him as the No. 2 civilian administrator at the Pentagon stirred expectation that Gates would move up to the No. 1 spot with the likely departure this fall of Defense Secretary Neil H. McElroy.

A government official in a position to know said Eisenhower's present plans are to give the secretaryship of defense to Gates if and when McElroy goes.

Adm. Radford, a former chairman of the Joint Chiefs of Staff, was recalled for temporary duty at the Pentagon as a civilian consultant.

He was succeeded, as head of the JCS nearly two years ago by Air Force Gen. Nathan F. Twining, officially reported to be recovering now from a lung cancer operation performed last week.

The Defense Department hoped for prompt Senate confirmation for Gates. He is a Philadelphia investment banker who served for nearly four years as a Navy officer in World War II and who has been serving the Navy as undersecretary and secretary for nearly six years.

Gates was nominated to fill the gap left by the sudden death 10 days ago of Donald A. Quarles.

# Witness Says Police Control Red Churches

WASHINGTON (AP)—The Senate Internal Security subcommittee released testimony yesterday that Soviet churches are under control of the secret police, and that many priests are secret agents.

Chairman James O. Eastland (D-Miss.) said in a statement the testimony established that Metropolitan Nicolai, foreign affairs secretary of the Russian Orthodox church, is an agent of the Soviet secret police.

The testimony was given by Peter S. Deriabian, described by the committee as a former MVD—secret police—officer who was attached to the Soviet Embassy in Vienna when he defected to the West in 1954. He testified at a closed session May 5.

The witness said that when Soviet leaders saw in 1937 that the policy of closing churches and exiling priests would not work, the Communist government began requiring priests to be agents.

"For more than 20 years now, under the policy of the state police in the Soviet Union, to be a priest one has to be an agent," asked chief counsel J. G. Sourwine.

"That is right," Deriabian replied.

# Visiting Prof to Speak At Economics Seminar

"The Economic Outlook" will be discussed by Dr. Edwin Nourse at an Economics Faculty Seminar at 12 noon today in Dining Room A of the Hetzel Union Building.

Dr. Nourse, a visiting professor, is the author of many distinguished works, and was the first chairman of the Council of Economic Advisors to the president.

# Pasternik Called 'Traitor'

MOSCOW (AP)—Boris Pasternik was accused before a Soviet writers conference yesterday of "the behavior of a traitor."

Secretary General Alexei Surkov of the Soviet Writers Congress denounced the author of "Doctor Zhivago," barred in the Soviet Union but a best seller in the West, which plays up the despairing side of the losers in the Bolshevik Revolution.

# Trains Collide Carrying 800; 2 Badly Hurt

CHICAGO (AP)—Two jammed elevated trains carrying 800 passengers collided head to tail during the morning rush hour today.

One hundred twenty-five persons were taken to three hospitals where two were found to have been injured seriously. Within a few hours 58 were discharged. Many ostensibly unhurt had been brought in for examination.

The impact sent the front car of the rear train telescoping four feet into the rear car of the stationary lead train.

Passengers were bowled over into writhing piles. Those seated were banged against other seats. There was no fire.

Dominic Parise, 45, motorman of the rear train, said he saw the train ahead stalled on the tracks. He jammed his brakes, but there wasn't time.

A Chicago Transit Authority spokesman said a preliminary investigation apparently pinned the cause of the crash to man failure.

The spokesman said skid marks indicated the brakes and other equipment were working.

# Inventors Asked To Help Military

WASHINGTON (AP)—The armed forces appealed yesterday to the nation's inventors to come up with devices that would enable soldiers to jump over mountains and live off the land.

Through the National Inventors Council, the military also called for quick methods to repair broken undersea cables, like those a Soviet fishing trawler was accused of ripping in February.

A spokesman said, however, the decision to seek new repair methods had no connection with the February incident.

The council is a Commerce Department agency which acts as a clearing house for military inventions. It issued a list of 28 new problems which the Pentagon wants civilian inventors to tackle.

# When "public power" wins—you lose!

Every time the lobbyists for federal "public power" push another government electricity project through Congress, you are taxed to pay the bill!

You and other Americans have already been taxed about \$5,500,000,000 to pay for federal "public power." That's how much has been taken out of taxpayers' pockets and put into federal power dams and plants in certain parts of the U. S.

But that's just the beginning—if the federal "public power" lobbyists and pressure groups have their way. They want more of your tax money—\$10,000,000,000 more—so that government can take over a still bigger share of the electric business.

Yet they must know that independent electric light companies like your own are ready and able to supply all the electricity the nation needs—without depending on your tax money.

How can this needless spending of your taxes be stopped? As soon as enough people know what "public power" is really costing them, they will call a halt to it. The quickest way is to spread the word among your friends and neighbors.

WEST PENN POWER

# Boy, 2, Drowns in Well

STATE COLLEGE (AP)—Two-year-old Ricky A. Baney drowned yesterday in a 42-foot abandoned well at his grandmother's rural home six miles north of Milesburg, Centre County.

Firemen recovered the youngster's body about 12:30 p.m., some two hours after the boy toppled into the well, which held about eight feet of water.

# Ike Visits Sick Dulles

WASHINGTON (AP)—President Eisenhower made another visit yesterday to former Secretary of State John Foster Dulles, seriously ill with cancer.

The State Department reported there has been no change in Dulles' condition since Friday, when a decline was noted following an attack of pneumonia.

# Our Amazement

never ceases as to why droves of people stare at our party picture display. Aren't all party groups alike after a while. Is it to see who's been seen with whom? From what we've gleaned from conversation, the reasons motivating the female onlooker are totally different than the male . . . thank goodness.

Anyway a graduate student friend of ours (clinical psychology) is convinced that the female is naturally nosy and because of thousands of years of evolution has no choice about it. Further, he states that men onlookers are hardly aware of the pictures, but are utilizing the situation to make conversation and observe a pretty calf.

Coeds . . . be aroused and let us know by postcard what, if anything, makes you stop in your tracks when you scent a party picture in your proximity. If it's cataclysmic enough we'll publish the best card. Signature not needed.

# To Climax

the many parties we've seen this year, we think it fitting to end our display with pictures of the four sorority dances held this weekend. The Kappas, Phi Mu's, ZTA's and the Tri Deltas.

# There's a Pile

of about 150 extra party pix (Spring Weekend too) which we can be talked out of for 85c each. However, starting this Thursday—whatever remains will be given away free—by the handful if you wish.

# Want to Buy?

a '55 DeSoto, a 4"x5" Meridian camera, a photostat machine, a 200 watt second portable Strobe light? Any reasonable offer will be flatly rejected.

# At Last

Over the years many people have asked to purchase their negatives. So it is with some misgivings and great expectations that we announce to graduating seniors their negatives can be purchased.
