

Penalties Given To Two Coeds

Two women who stayed out of the residence halls overnight without permission Thursday were given penalties by the Senate Subcommittee on Discipline. One woman had a letter sent home to her parents and will be required to have conferences with the dean of women. She finished work at a downtown restaurant at 11.15 p.m. and rather than returning to the residence hall stayed overnight at the apartment of two woman graduate students.

She has just completed her junior year at the University.

A second woman, who has also just completed her junior year at the University received office probation. She will also attend conferences with the dean of women. A letter has been sent to her parents.

She had been at the drive-in theatre past 11 p.m. and rather than return to the residence hall late, stayed all night in Buckhout Laboratory. She had a key to Buckhout because she worked in the building last year.

The girls were found missing by a bed check. The check was held because of reports that many women were staying away from the residence halls overnight.

100 Teachers Hear Scientists

Eleven prominent science educators are assisting in training the 100 teachers at the University's Institute for Teachers of Science and Mathematics.

The Institute began last week. Paris, Trieste, eight American colleges, and the National Science Foundation will be represented by the scientists.

They will address the Institute on topics ranging from radio-chemistry to vertebrate behavior, as a method of giving the studying teachers inspirational contact with high-level scientists. Purpose of the Institute is to update and re-acquaint high-school science teachers with their subject matter.

The foreign visitors will be Dr. Maurice Dreyfus, professor at the Lycee Voltaire in Paris, and Dr. Luciano Fonda, professor of physics at the University of Trieste.

State's Beauticians Magazine Consults Prof on Painting

Beauty will be the order of business when 54 hairdressers and cosmetologists from Pennsylvania arrive Monday to begin a 2-week course.

The conference, sponsored by the Pennsylvania Hairdressers Association, Inc. and Cosmetologists and the College of Home Economics, will include morning sessions on nutrition, psychology, advertising, attractive shops, business management, chemistry of cosmetics, public speaking, public relations and make-up.

The afternoon sessions will be reserved for hair styling workshops conducted by Joseph Paterno, Passaic, N.J., and Comer Sypprett, Hollywood, Calif.

The sessions for the conference will be held in Cooper Halls.

C. R. Carpenter, professor of psychology and director of the Division of Academic Research and Services, served as a consultant for a painting of jungle life which was used to illustrate an article in Life magazine.

The painting by Walter Linsmaier was used as an illustration for Part V of Darwin's World of Nature, "The Animal Heirs of Ages Past."

Photographs made by Carpenter during his studies of monkeys and apes in the jungles of three continents were used by the artists. The painting depicts jungle life during the day contrasted with a different pattern of life at night.

During the 14 years preceding World War I more than 11 million immigrants were admitted to the U.S.

Baker, Hogan, Barnes Named to New Positions

Richard H. Baker, assistant bursar since 1956, has been named bursar at the University, filling the position formerly held by David C. Hogan.

Hogan has assumed his new duties as director of the division of revenue accounting, thus heading one of four divisions of the accounting division.

Carl R. Barnes, controller, in announcing the appointment of Baker also announced the appointment of Donald Zell, accountant, to the position of assistant bursar.

smoothest ride!

One of the 7 big bests Chevrolet gives you over any other car in its field

Anyone who's ever taken a Chevy over a choppy country road can tell you how lightly Chevrolet's Full Coil suspension handles rough going—and coil springs never squeak, never need grease! Try this velvet way of going for yourself. Once you do, you'll find your own way of saying what MOTOR TREND magazine puts this way: "... the smoothest, most quiet, softest riding car in its price class." But the happiest part of it all is that this Full Coil ride is just one of seven big bests—all documented by published opinions of experts and on-the-record facts and figures.

BEST ROOM—Official dimensions reported to A.M.A.* show that Chevrolet sedans offer more front seat head room than all but one of the high-priced cars—more front seat hip room (by up to 5.9 inches) than the "other two" of the leading low-priced three.

BEST ENGINE—Chevrolet engines have long won expert praise from virtually every automobile magazine, and, just recently, Chevrolet received the NASCAR† Outstanding Achievement award for "the creation and continuing development of America's most efficient V-type engines."

BEST ECONOMY—A pair of Chevrolet sixes with Powerglide won their class in this year's Mobilgas Economy Run, topping every other full-sized car. And the winning mileage was a whopping 22.38 m.p.g.

BEST BRAKES—Chevy's bonded-lining brakes are the biggest in their field, built for up to 66% longer life. In a direct competition conducted by NASCAR, Chevy out-stopped both of the other leading low-priced cars in a test of repeated stops from highway speeds.

BEST STYLE—It's the only car of the leading low-priced 3 that's unmistakably modern in every line. "In its price class," says POPULAR SCIENCE magazine, "a new high in daring styling."

BEST TRADE-IN—Any N.A.D.A.‡ Guide Book can give you the figures on Chevy's extra value. You'll find that Chevrolet used car prices last year averaged up to \$128 higher than comparable models of the "other two." Your Chevrolet dealer will be happy to tell you about a whole host of other advantages besides these seven. Why not drop by his showroom?
