

Numbers to Be Replaced

Units in Hamilton Hall Named

Units in Hamilton Residence Hall in the West Halls area and in all of the North Halls have been named rather than numbered this fall to foster more "esprit de corps" among men living in those halls. There will be nine units in Hamilton. They will be named Larch, Hemlock, Poplar, Locust, Birch, Maple, Cedar, Hickory and Linden. Formerly there were seven numbered units in the hall. Units in Hamilton have been

named because it is the biggest hall in the West Halls area, said Frank J. Simes, dean of men. Hamilton's capacity is 600. Otto E. Mueller, director of housing, said he expected the Hamilton units to be renamed after Pennsylvania counties when study lounges are installed in each unit. This will occur in 1960 or 1961, he said.

North Halls units, which will be open for residence in the fall, will be named after counties. The names are:

Runkle Hall—Philadelphia House, Dauphin House, Delaware House and Westmoreland House; Leete Hall—Allegheny House, Lehigh House, Luzerne House and Berks House; Beam Hall, Montgomery House, Cambria House, Blair House and Lackawanna House; and Holmes Hall, Centre House, Bucks House, Schuylkill House and Erie House.

Centre House will be formally dedicated Sept. 23. Dedications

for the other units will be held by Oct. 29.

Each living unit will accommodate 70 students.

Four houses in the new Pollock Circle Halls, now being built, will be named for counties.

The first counties to give their names to residence hall units have been chosen on basis of the number enrolled from that county in the University. Eventually units will be named after all Pennsylvania counties.

Harer Discusses Units

Dr. W. Benson Harer, counselor and trustee of the State Medical Society of Pennsylvania, yesterday said he believes progress during the past eight years in the establishment and operation of county health units has been fairly good.

"But," he continued, "I believe 6 to 10 more county health departments must be established in Pennsylvania before we reach the break-through points that will result in state-wide acceptance of these units."
