**President Tells SGA Purposes**

During the past week, a good many of you have heard me speak about the mechanics of Student Government and how it operates. Now, I should like to explain why it operates. In other words, I'd like to consider the role that student government plays in the hotel educational process.

Leonard Julius

The purpose of the Student Government Association, as stated by its constitution is as follows: "The purposes of SGA shall be to provide representative self-government for the student body and protect the students interests, education, culture and general welfare."

However, I am of the opinion that student government serves an even more important purpose. It tends to instill a sense of responsibility in those who participate in it. Whether a student be associated with the Executive, Legislative, or Judicial branch, he soon learns that his is a job that must be taken seriously. This inculcation of a sense of responsibility is an important part of the transition from student to adult citizen.

This is to make recommendations on behalf of the student body concerning student welfare. The Student Government Association acts as a liaison between the students and the administration. It provides a voice for the many mouths of the student body.

The accomplishments of student government are many. In the past five years student government has:

Student government also fills a gap which exists in our college education. It is similar to a practical course in political science. We do have, of course, excellent courses in political science here at Penn State. However, they merely teach the subject matter without giving students an opportunity to practice it for themselves. This is not the fault of the course or the professor. It is merely a deficiency which is inherent in any class of this nature.

- Instituted the Artist Series
- Instituted the University Lecture Series
- Brought Student Insurance to the University
- Suggested ideas for the original construction of the Hetzel Union Building
- Sponsored the Orientation Week program

It is generally agreed, I think, that one learns better by doing rather than just hearing. Since student government allows students to practice what they learn, it is valuable in an educational sense.

Applications for positions in Student Government are now available at the Hetzel Union Building desk. Interviews will be held in approximately two weeks.

**Who's Who in Student Government**

This year's student government leaders are participating in a new system of government on this campus — one which evolved last spring from revision of a 20-year-old system.

The reorganized system, patterned after our national government structure, consists of three branches: executive, legislative and judicial.

Heading the entire student body is the SGA president, Leonard Julius. Julius is also the chairman of the executive body which is purely advisory and composed of both elective and appointive members. At present, this body consists of AIM president, Harald Sandstrom; ICCB chairman, David Epstein; IFC president, Gary Gentzler; WSGA president, Jessie Janjigian; Leonides president, Carol Frank; Panhellenic presi-

dent, Carol Dominick; SGA vice president, Larry Byers; and SGA secretary-treasurer, Nancy Clark.

The SGA vice president, Larry Byers, is chairman of the legislative Assembly which passes all legislation affecting the student body. Members of the Assembly are: Theodore Haller, Jay Hawley, Carol Ploesch, Bruce Brennerman, Janet Moore, Ellen Burke, Peter Luckie, Walton Davis, Mary Ganter, and Howard Byers, senior representatives; Jack Crosby, Millie Moyer, Robert Toczak, Jean Demeyere, Walter Darran, Barbara Bragdon, and David Kiser, junior representatives; Mary Ann Ellis, John Witmer, Donald Clagett, and Robin

Brooks, sophomore representatives.

Judicial bodies and their chairmen are: Traffic Court, Malcolm Stauffer; Student Tribunal, Lanney Dey; Customs Board, Donald Clagett; WSGA Judicial, Dorothy Toklish; and IFC Board of Control, Robert Parsky.
