

Violinist Will Open Fall Artists' Series

Tosy Spivakovsky, violin virtuoso, will begin the 1959-60 Artists' Series at 8.30 p.m. Sunday in Schwab Auditorium.

Student tickets will be available beginning 1 p.m. tomorrow at the Hetzel Union desk. Non-student tickets will go on sale beginning at 9 a.m. Thursday.

Grad Series Lecturers Announced

Four speakers and their respective lecturing dates and topics for the Fall Graduate Lecture Series have been announced by the Graduate School.

On Oct 7 the Reverend Gustav Weigel, theologian and professor of ecocology at Woodstock College's School of Divinity, Woodstock, Md., will speak on "Ecumenics: Old and New World"

Dr. Gottfried Haberler, will lecture on "Inflation, Recession, and Dollar Surplus" Oct 20. Haberler is an economist at Harvard University

"Rivers and Creeks: Their Significance to Man" will be the subject of Dr. Luna Leopold's address on Oct 27. Leopold is an engineer with the Geological Survey of the U.S. Department of the Interior.

The final lecture will be given Nov. 19 by Dr. Donald Super, psychologist-educator, of Columbia University, on "The Vocational Maturity of Adolescent Boys: Some Psychological Data and Some Educational Implications."

During the fall semester the lectures will be held at 8 p.m. in 121 Sparks.

Riemer, Silva Attend 55th Poli Sci Meeting

Two faculty members participated in the 55th annual meeting of the American Political Science Association in Washington, D.C., recently.

Dr. Neal Riemer, associate professor of political science, participated in a panel on political theory and the American tradition. Dr. Ruth C. Silva, also associate professor of political science, was a member of a panel dealing with the election of 1958.

Labor Department Head Attends Navy Program

Dr. Joseph G. Rayback, head of the Department of Labor Education and chairman of the Senate Committee on Military Instruction, last week attended a Navy Orientation Program at Pensacola Naval Air Station.

The program was designed to inform educators and business leaders of the Navy's pilot training program.

LISTEN TONIGHT at 10:05 to BLAINE HARVEY and "GROOVOLGY 54" WMAJ--1450 "Music for Your Listening Pleasure"

Enrollment Increases By 361

Incomplete registration figures for this year show 361 more students enrolled on the University Park campus than last year.

Prior to the close of registration at noon Saturday, 18,000 students had been enrolled. Dr. Robert G. Bernreuter, dean of admissions, reported the incomplete figures topped the 17,525 who were registered in the same period last year and the 16,245 who had registered by Saturday noon during the Spring semester.

Figures for the University Park campus show 14,498 registered prior to Saturday noon this year, 14,137 last fall and 13,332 for the Spring semester.

Included in the incomplete totals are 1898 candidates for bachelor's degrees and 1484 for associate degrees at the 14 Commonwealth Campuses throughout the state. Also enrolled are 126 at the Mont Alto School of Forestry.

The figures are expected to move higher as late registrations are received.

Spivakovsky was born in Odesa, Russia, and was taken to Berlin before the age of two. There he received his formal education and began to study the violin. He was taught by Arrigo Serato and the famed Willi Hess. At the age of 10 he made his public debut and soon won acclaim throughout Europe as a soloist.

Spivakovsky started on his way to the United States after the rise of Hitler in Germany caused many distinguished scientists and artists to leave the country. He travelled to New Zealand and Australia, where he married his wife.

Spivakovsky made his debut in America in 1943 with the New York Philharmonic Symphony where he introduced the Bartok Concerto. This particular concert brought nation-wide attention to both the composer and violinist.

Recently the "master violinist" appeared with the Royal Philharmonic in London.

While Spivakovsky has introduced many compositions of both major and minor composers, he feels that a "second performance" is more important than the premiere. He believes that the "second performance" gives the composition the opportunity to become established in the repertory.

Profs Contribute Chapters

Raymond W. Swift, Katherine H. Fisher, Mary L. Dodds and Miriam E. Lowenbert, all faculty members, are four of 72 outstanding authorities on nutrition who contributed chapters to "Food," the 1959 Yearbook of Agriculture.

News Staff to Meet

The Daily Collegian news staff will meet at 5 p.m. today in the city room.

Ballot on Smoking Cast by Women

Cords voted at dinner last night whether or not they should be allowed to smoke in the dining halls.

A spokesman from the Dean of Women's office said the votes would be counted tomorrow and if they were favorable to smoking, it would be allowed. Students may vote for smoking in one dining hall and reject it in another, she said.

The balloting is sponsored by the Women's Student Government Association.

Eng Prof Will Present Paper in San Francisco

Dr. Joseph Marin, professor and head of the Department of Engineering Mechanics, has been invited to present a paper at the annual meeting of the American Society for Testing Materials to be held in San Francisco, Calif., next month.

The paper deals with a discussion of proposed changes in standards for defining properties of materials based upon recent research developments in the field of materials.

NITTANY NEWS

next to the "Corner" on West College Avenue

Open Every Night until 10:00

Contrary to sage advice, we will use this space for idle observations rather than spout photography.

Sign of the times — a radio announcer last evening frothing about the "Loveable-Bra" . . . since girl friends, babies and pets don't quite resemble bras, alas they can no longer be loveable!

Have you noticed lately how few listenable things are heard on radio and then only between constant bombardment of ads? Because of this many of us have tuned in RADIO MOSCOW in the evening?

Why is it when a new fashion fad makes its debut that the girls least likely to benefit from it are the first to try it? We refer (almost painfully) to some of the girls we saw Sunday in their kilts and long black stockings. Unless the wearer has a shapely leg and a trim waist, the sight is an affront to Scotland.

Not to mention the gum chewing girls from Phila. You can spot some Philly girls a mile away. At least it is obvious to us when a sorority we photograph has many members from Phila. The waiting room is reeking with smoke, the soft music is drowned by sounds of "gum cracking" and constant gossip. Mind you, there are girls from Phila. who are beautiful and feminine. Which reminds us, there were two beautiful (but typical) Kappas here making arrangements for their sorority composite today.

The following fraternities, composed of most intelligent and far-sighted men will have their 1960 composites ready and hanging in October. Cool gentlemen these, they had Coleman photograph them during April and May. These houses are—Phi Gam, Sigma Phi Epsilon, Phi Kappa Sig, SAE, SAM, ATO, Delta Sig, and Alpha Sigma Phi.

While many parties will be shot in color this year (\$1.50), black and white pix will still be available (95c).

For the many who have asked, the name is Nina and SHE is now 6 heavenly weeks old.
