

# Red China Branded As 'Outlaw Nation'

UNITED NATIONS, N.Y. (AP)—The United States yesterday assailed Red China as an outlaw nation guilty of inflicting mass murder and slavery on its own people. It declared Peiping's admission would debase the United Nations.

The Soviet Union charged that by making such accusations the United States was trying to drag the UN back into the worst days of the cold war.

## GSA May Get More Money For Building

HARRISBURG (AP) — An administration plan to raise the borrowing capacity of the General State Authority to finance nearly 106 million dollars in construction projects was submitted to the House last night.

The projects were recommended to the Legislature by Gov. Lawrence when he submitted his biennial capital budget Aug. 31.

The measure would raise the GSA's borrowing ceiling of 480 million dollars to 585 million dollars. A companion bill would raise the ceiling \$27,700,000 to finance improvements and new buildings at Pennsylvania State, Temple and Lincoln Universities and the Universities of Pennsylvania and Pittsburgh, as recommended by the governor.

Reps. Stephen McCann, Democratic floor leader, and Chairman J. Dean Polen (D-Washington) of the Appropriations Committee, sponsored the bills.

The administration requests face an uncertain future. Sen. George B. Stevenson (R-Clinton), a member of the State Planning Board which drew up the 106 million dollar program, suggested that new GSA-financed projects be limited to 30 million dollars.

## Bohlen Gets Post On Soviet Affairs

WASHINGTON (AP) — Charles E. (Chip) Bohlen, long a first-rank U.S. diplomatic expert on the Soviet Union, is being recalled from Manila to a top Washington job dealing with Soviet affairs.

The new assignment was made over opposition from Sen. Styles Bridges (NH), the Senate GOP policy committee chairman, and Sen. Everett M. Dirksen (Ill), Senate Republican leader. They had protested Bohlen's part in the World War II Yalta conference.

The sharp exchange occurred in the UN General Assembly, where a former U.S. assistant secretary of state, Walter Robertson, gave his country's answer to the declaration by Soviet Premier Nikita Khrushchev here on Friday that it was high time for the UN to admit Communist China and kick out the Chinese Nationalists.

Robertson's strong indictment of the Peiping regime was his country's answer to Soviet Premier Nikita Khrushchev's declaration here last Friday that it was high time for the UN to admit the Chinese Communists and kick out the Chinese Nationalists.

The United States was confident it would again succeed in persuading the 82-nation Assembly not to consider any proposals along the line of Khrushchev's suggestion at this three-month session.

The 21-nation Steering Committee had already recommended such action to the Assembly, along with rejection of India's proposal to put the issue on the agenda.

Welcome back!  
We missed you...  
and that's no fooling

Vacations are wonderful, but three months is a long time, especially when the college friends of our firm are away. No wonder we've had that hang-dog look.

But all is well now! The campus crowd is back and we're looking forward to meeting old friends and making new ones. You don't have to wait until you have drycleaning, laundering, tailoring or shower-proofing to bring to us... stop in the very first time you're passing by, even if it's just to say Hello.
