

SPIRITS UNDAMPENED BY RAIN—Collegian Photo by Brenda Spotts—The pep rally moved indoors to the HUB ballroom and continued with enthusiasm. A send-off rally will be held at 9 this morning at Rec Hall. See you there!

Lions to Depart For West Point

By JOHN BLACK
Assistant Sports Editor

A fired-up Nittany Lion football squad, seeking to keep its perfect season record intact, will leave this morning for the Military Academy at West Point, N.Y., where it will engage the Army eleven in one of the East's top grid attractions tomorrow afternoon.

Coach Rip Engle and his charges will board their bus in

Indoor Rally Sends Lions Off to 'Point'

About 200 students roared their approval last night to Head Cheerleader Larry Buck's statement that the Nittany Lions were "the best team in the East."

The rain-shrunk crowd gathered in the Hetzel Union ballroom to send the unbeaten Lions off to West Point for their game with the Black Knights tomorrow.

Music for the songs, and a solid drumbeat for the cheers was provided by the Navy ROTC band. Because of the weather and change in location, no skit or speech was presented.

However, Buck called upon the students present and their friends to give the team a final sendoff when they leave Recreation Hall at 9 this morning. The team will take a bus to the Black Moshannon airport where they will board a plane for West Point.

front of Recreation Hall at 9:30 a.m. today bound for Black Moshannon Airport from where they will fly to Stewart Air Force Base, Newburgh, N.Y.

After a workout at Michie Stadium this afternoon, the team will make its headquarters at Bear Mountain Inn.

Game time is 2 p.m. tomorrow. The play-by-play will be broadcast over WMAJ, beginning at 1:55 p.m. with a warm-up program at 1:30.

The team is slated to arrive back at Recreation Hall between 9 and 9:30 p.m. tomorrow.

Rated by the oddsmakers as anything from a one-touchdown underdog to a one-touchdown favorite, Penn State will carry into Michie Stadium its longest early season victory string in five years. Not since 1954, have the Nittany gridmen captured their first three straight games as they have this fall.

The potent Lions, ranked 16th team in the nation in the latest Associated Press poll, and 12th in the UPI poll, own triumphs over Missouri, VMI and Colgate, but will be contending with a long-standing jinx that has held them winless against the Cadets since 1899.

Rip Engle has subjected his men to a barrage of music and noise during the practice sessions

Dock Strike Ended By T-H Order

NEW YORK (AP) — A week-old strike of dock workers on the Atlantic and Gulf coasts was ended last night by a federal court Taft-Hartley mandate.

Union leaders immediately ordered 85,000 longshoremen back to piers from Maine to Texas. Waterfront activity was expected to return to normal today.

Federal District Judge Irvin R. Kaufman issued an order restraining the International Longshoremen's Assn. from further strike action. It is good for 10 days. A hearing was scheduled for October 15 on the government's request for an injunction providing an 80-day cooling off period under the Taft-Hartley law.

The attorney general's office went into court at the direction of President Eisenhower.

The strike began October 1 and tied up more than 200 ships. None of the big passenger liners were affected. But thousands upon thousands of tons of cargo were stranded, some of it perishable.

President Eisenhower ordered Taft-Hartley action on the grounds that the strike imperiled national health and safety.

The Atlantic and Gulf Coast ports affected by the walkout handle 81 per cent of the nation's ocean-borne dry cargo shipments.

Irene, Cold Front Brings Rain Here

Moderate to heavy rain will occur in the area today as the remnants of tropical storm Irene combine with a rapidly moving cold front.

Cold air will begin moving into the region tonight.

Today will be cloudy and windy with rain, moderate to heavy at times. High temperature will be

68 degrees. The rain may amount to two or more inches which may result in some local flooding.

Tonight should be cloudy, becoming much colder with strong westerly winds. The low will be a chilly 44 degrees.

Tomorrow should be partly cloudy with diminishing winds and continued cold. The high will only be 56 degrees.

SGA Backs Overall Tests

By CAROL BLAKESLEE

Student Encampment recommendations to require all students to take a comprehensive test at the end of four years and to investigate a plan to teach instructors how to administer tests, caused long debate at last night's Student Government Association Assembly meeting.

The recommendations were part of a report from the workshops on Academic Affairs and Curricular Revision. The report as a whole was approved by the Assembly, although several members questioned the above recommendations.

Jack Crosby (C.-Jr.) opposed the plan for initiating a test-training program for the faculty on the grounds that it was "off-base for students to teach an instructor how to test."

However Workshop Chairman Carol Frank asked, "What could be closer to the students?"

"To say that this isn't the student's concern is somewhat off-base," she added.

On a final vote, the recommendation remained in the report, but the words "investigated" was substituted for "initiated" in regards to the training plan.

Concerning the other recommendation, Miss Frank explained that the proposed comprehensive exam would cover only a student's major field.

She said letter grades would not be given for it. "It would be a matter of passing (the exam) or failing it," she said.

She added that if a student passed the exam, he would then be eligible for the baccalaureate degree; if he failed, he would have to stay on and repeat the exam.

Bruce Brennerman (C.-Sr.) said he thought the test would involve more memorizing than learning.

Brennerman was also opposed to the idea because of the added cost it might involve. "If they were quick enough," he quipped, "they would probably raise my tuition by the Spring Semester."

Other Assembly members and Miss Frank were quick to counter, however, that the tests would not be strictly memorization and that if the system were approved, the University would probably be recognized as a leader in the academic field.

SGA Acts On Parking, '60 Budget

By JIM MORAN

The Student Government Association Assembly last night approved the 1960 Inter-Class Budget of \$22,905, voted to establish a committee to probe the parking situation on campus, and decided to officially favor readmission of Frothy to the football field.

The budget was passed following a brief discussion on compensation to persons not completing their tenure in a specific position. Budget Committee Chairman Nancy Clark told Assembly that the payments would be issued in relation to the amount of work a person had done during the time he held the position.

Assembly passed a motion to set up a committee to investigate the parking situation on campus, and to make recommendations for possible revisions. Walter Darran, Assembly majority leader and sponsor of the motion, cited the fact that the new parking regulations have caused substantial controversy among student motorists.

He proposed that the committee work with the Campus Patrol in reviewing the regulations, and if improvements could be made, that it present the recommendations

Supervisor Explains Directory Mistakes

By DENNY MALICK
Editor

Married students who did not change their student number caused many of the unalphabetized listings in the new telephone directory.

Wilbur F. Diehl, supervisor of telephones, explained that the listings were made by student number.

Each student is assigned a number when he first enters the University. In practically all cases, he said, the number listing is alphabetical. However, there are some cases where it differs, especially when there is a large number with the same last name.

When a coed gets married, she must change her student number or her name will appear in the same order. Thus, Diehl explained the former Jane Arden would still be listed under the A's although her married name is Norse.

The student number may be changed by reporting to 4 Willard and requesting a change. Likewise, any other students who wish to make corrections should report to the same office.

Diehl said that a new direc-

tory probably will not be compiled until next fall, but the revised listing would be in the hands of the information operators within 24 hours.

Several complaints were registered by fraternity men who listed their private telephone numbers at registration but found the directory carrying the regular fraternity number.

In the interest of getting the directory out early, Diehl said, local addresses and telephone numbers were punched on IBM cards before registration for places where it was known students would be staying. This included the residence halls and fraternities.

Therefore, when the IBM machines processed the cards the house number was already there and it did not register the private number.

WSGA Proposal

Upperclass Women May Have Cars

Upperclass women are now permitted to have cars on campus on the same basis as men.

There are no existing University regulations which prohibit sophomore, junior and senior women from applying for parking permits.

The request to allow women to have cars was approved at the Women's Student Government Association Senate meeting Wednesday night. Miss Lois McCulloch, advisor to the Senate, said that the Dean of Women would accept the recommendation if there were no other prohibitive regulations.

Women must obey the same

registration and driving rules as men. Any student who possesses, maintains or operates a motor vehicle in Centre County is required to register it with the Traffic Violations Officer, 203 D Hetzel Union Building. They will then receive a parking permit or a registration sticker.

A registration sticker is issued to each person who is not issued a parking permit but who drives a car in Centre County.

Women students may now apply for parking permits. A fee of \$15 for parking on campus must be paid to the Bursar and evidence of payment must be shown to the Traffic Violations Officer before a parking permit is issued.

The Senate also voted to allow women to wear bermuda shorts in residence hall lounges and in the dining halls. Bermudas may be worn in dining halls at all times when slacks may be worn. This is during breakfast and lunch during the week and during breakfast and supper on Sundays.

Some women wearing bermudas were refused entrance into dining halls yesterday because Food Service officials were not notified of the new ruling.

Robert C. Proffitt, director of Food Service, said that the Food Service supervisors have now been told about the change and that women will not be turned away if they come to the dining hall in bermudas.
