

McIlvride to Speak In Chapel Service

"A Sense of Direction" will be the sermon topic of the Rev. Donald McIlvride, director of the Westminster Foundation and Presbyterian campus minister, at the Protestant Service of Worship at 9 a.m. tomorrow in the Helen Eakin Eisenhower Chapel.

The leader of worship will be the Rev. Samuel N. Gibson, Executive Director of the University Christian Association.

A special choral anthem, "Drop Down Ye Heavens" by Statham, will be performed by the Meditation Chapel Chorus under the direction of James Beach. The organist will be Jerry Manning.

McIlvride became director of the Westminster Foundation last spring after having served previously as associate director and seminary intern.

Barth to Be Speaker In Schwab

Dr. Joseph Barth, Minister of the King's Chapel, Cambridge, Mass., will speak at the University Chapel service of worship at 10:55 a.m. tomorrow in Schwab Auditorium.

The theme of Barth's sermon will be "An Apple Tree and the Cross." The leader of worship for the service will be the Rev. Preston N. Williams, Acting University Chaplain.

As choral introt, the University Chapel Choir under the direction of Willa Taylor, will sing "Now Doth the Sun Ascend the Sky" by Guidetti. The morning anthem will be "Behold the Tabernacle of God" by Healy Willan.

George E. Coiga, University organist, will play as prelude, "Voluntary on the 100th Psalm Tune" by Purcell. The offertory will be "Chorale Prelude on 'Rockingham'" by Parry; and the postlude, "Psalm Tune Postlude on 'The Old Hundred'."

Barth attended Creighton University and Kansas Wesleyan University. In 1935 he received a doctor of philosophy degree from the University of Chicago and a bachelor of divinity degree from Meadville Theological School.

In 1956 he received the doctor of divinity degree from Meadville Theological School.

He has taught Philosophy and Ethics at the University of Miami. He is the author of the book "The Art of Staying Sane."

He was elected to the Ministry Department Committee of the American Unitarian Association and serves as the field representative for the Stevens Fellowship Committee which recruits students for the liberal ministry.

Sports Cars To Meet Today For First Rally

It's rally time for the Penn State Sports Car Club as it gets off its first rally of the year this afternoon.

The meet will start at 1 p.m. when a class for the inexperienced and the forgetful will be held in 105 Osmond to introduce them to the rally rules and the manner in which one is run.

Dale Edraney, club president, said the rally should last about three hours. Actual starting time for the cars will be 2 p.m. when the cars leave from behind Osmond.

The rally will be run on a straight time-distance scoring system. With this type of scoring it is not necessary for the navigator to calculate positions with a slide rule.

Six trophies will be awarded the first three cars. A trophy will be given to each driver and each navigator in the first three places.

The course for the rally will be announced at time of departure of the cars. This prevents any entrants from practicing the run before starting time.

Edraney stressed that it was not necessary to have a sports car or a foreign car to enter the contest. He said that last year a rally was won by an Oldsmobile.

Carpenters' Strike Ends After Week

Carpenters engaged in campus construction are back to work again after a week-old labor dispute.

A protest started last Wednesday when it was found that ironworkers were installing the wooden parts of the seats in the new Beaver Field. The walkoff involved all the carpenters working on the new dormitories and the new engineering buildings on W. College Ave.

International representatives of the Carpenters and Iron Workers locals were called in to settle the dispute.

Officer Selection Team To Make 3-Day Visit

The Marine Corps Officer Selection team will make the first of its semi-annual visits to the University on Monday, Tuesday, and Wednesday.

The team, headed by Captain A. W. Ruete Jr., USMC, will be on hand at the Hetzel Union gameroom to explain the Marine Corps' Platoon Leader and Officer Candidate programs to interested students. The team will be equipped to examine and enroll qualified applicants.

Space-age thinking and communications

Reach for the stars.

That's what a company like Gen Tel—America's second largest telephone system—must do to find new and better ways to build tomorrow's communications services.

And that's what our large and highly trained staff of scientists and engineers continuously aim at. These are the men and women who are engaged in the development of new and promising techniques in fields such as memory systems, advanced electronics, high-speed switching, and data transmission.

Gen Tel has been research-minded ever since its small beginning. That's one of the

reasons we have grown into a system that has 1,745 exchanges in 30 states, providing modern service for over 3,700,000 telephones. Our lines carry 119 million conversations each week, and we're adding 3,750 new phones every week.

To keep up with our country's growth, we continue to think ahead, plan ahead, invest ahead. In fact, this year, alone, we're investing almost \$200 million in new facilities required to meet the ever-increasing demand for more and better telephone service.

These are typical examples of how we strive—not only to meet today's communications needs but to answer tomorrow's.

Police Will Hold Bicycle Inspection

State College police will hold a bicycle inspection from 9 a.m. to noon today at the Municipal Building.

University students who do not have their bicycles licensed should report to the inspection station.

Chief of Police John R. Juba said that bicycle operators have the same responsibilities as automobile operators. These include obeying all stop signs and traffic lights, compliance with one-way streets and having a light on bicycles when operating them at night.

Juba said that all cyclists found not complying with traffic regulations will be prosecuted under the vehicle code in the same manner an automobile operator is prosecuted.
