

Training Course To Open Oct. 21

Registration for the Leadership Training Course is now open and will continue through Tuesday at the HUB desk. The ten-week course will begin on Wednesday. Meetings will be held at 7 p.m. in 119 Osmond.

Guest speakers are to include Student Government Association President Leonard Julius, Dr. Earl Strong, assistant dean of business administration, and Dr. Helen Snyder, assistant professor of psychology.

DOC Council Reads, Adopts Constitution

The constitution of the DOC Student Council was read and adopted last night.

Amendments to the constitution, which were proposed and tabled for further discussion, are that 50 per cent of the members of the council shall be elected in the spring and 50 per cent in the fall; the officers shall be elected at the first meeting of the council after spring and fall elections; and all officers' terms will expire with the ending of their council term.

The council also decided to purchase a filing cabinet in which council records and materials will be kept.

Among other business, the meeting place of the council was changed to 401 Old Main, because other student councils usually meet in the building associated with their college.

Kent Cootes, president, announced that the elections of the council will be held Nov. 3 and 4 in conjunction with the other student council elections.

Froke Will Lead Panel At Radio-TV Convention

Marlowe D. Froke, assistant professor of journalism, has been chosen to lead a panel discussion at the Radio-Television News Directors' Association Convention, being held this week in New Orleans.

Froke is the first educator ever chosen by the association to lead such a discussion. The topic is the elevation of the news and public affairs programming of radio and television stations to the level of entertainment broadcasting.

Approval Of New Groups Required

A campus organization doesn't just spring into existence—it must be approved and chartered.

In one of the downtown eateries, in the Hetzel Union Building or on the Mall a student gets the idea for a new club. He talks to his friends and builds membership.

Then the process begins. A constitution must be written and submitted to the Senate Subcommittee on Organization Control. The officers of the new organization will then be interviewed by the committee.

Once an organization is approved, if it is, it must then decide whether or not to become a member of the Associated Student Activities. The ASA handles the financial affairs of about 90 campus organizations. It receives all incoming money and pays all bills.

Membership in ASA may be obtained upon presentation of a University charter and upon meeting the general requirements of the fund.

ASA does not have any control over the spending of an organization, however if a group is not a member its books must be audited each year by the subcommittee on organization control.

Penny Candy--

(Continued from page four) windows were a maze of blue. Almost everyone on the street in Grenoble was wearing the same colors. Blue and white shirts, skirts and slacks. Little boys with blue short pants and socks. Blue in stripes and squares.

I sighed regretfully. There's some conformity everywhere. Drops of water trickled down my neck, bringing me out of my reverie, and I walked slowly into the dorm. "Tomorrow should be a good day to break in my new sneakers," I mused, "it will be nice and muddy... I can't wear brand new white sneakers... people would call me a clod..."

Refunds on Books To End Tomorrow

The Used Book Agency is still returning money and unsold books and will continue returning them until tomorrow in the Hetzel Union card room. Hours for returns are between 1 and 4:30 p.m.

Students must present their yellow receipt slips to claim their books or money.

If a student has lost his yellow slip, he can pick up his money or books by giving his name.

If a book has not been sold, and is lost, the UBA will refund the money which the student stated as his selling price.

Report Fires Promptly, Security Director Urges

Fires in any campus building, even when immediately extinguished, should be reported promptly to the Campus Patrol.

Dr. Elwood F. Olver, director of the department of security, also emphasized the importance of reporting immediately, also to the Campus Patrol, the use of any fire extinguisher.

Homecoming Queen--

(Continued from page three)

In previous years she has been escorted to the field and the Blue Band has played a tribute to her, he said.

If a request is made in enough time another year, perhaps this might be done, he added.

The Blue Band will pay a tribute to the alumni in their program on Saturday. They will depict the activities of graduates since they left Penn State.

One of the highlights of the course will be a demonstration of the importance of speaking by a member of the faculty of the Department of Speech. Instruction in parliamentary procedure and methods of public relations will be included in this semester's program. Qualities of a good leader and the psychology of leadership will also be discussed.

A new feature of the course will be the use of a reference manual entitled "Successful Leadership," produced by a group of research workers in California.

Enrollment is expected to increase considerably this year, but chairman James Ettelson stated that it will be limited to approximately 350 students.

Compulsory attendance of all classes is required, and diplomas will be awarded to those who successfully complete the course. A final examination and evaluation of the program will be conducted at the final meeting.

All classes will be conducted by Ettelson. Other committee members include Jacqueline Levitt, Patricia Schaaff, Tony Straka, and Doris Gustafson.

Senior Orchesis Chooses 18 Coeds

The 18 coeds who qualified for Senior Orchesis have been announced by the Women's Recreation Association.

They are: Brenda Fichtner, Barbara McCrea, Suzanne Kirkpatrick, Mary Radovic, Marcha Michalski, Marguerite Fink, Diane Hanserman, Ila Hayes.

Juliana Lloyd, Donna Lee Lochinger, Judith Harris, Joannah Purnell, Ruth Silbey, Michele Ohrman, Donita Incitti, Carolyn Webb, Cathy Hersey and Sandra Baker.

University Installs New IBM Machine

The University recently put into operation a new IBM data processing system to eliminate its growing amount of paper work.

Officially named "650 Tape RAMAC," the equipment will be the first of its kind to be used by a university for accounting and administrative purposes.

During its first months of operation the machine will be used for handling financial matters, student records and for maintaining the Dairy Herd Improvement Association records.

The equipment will be able to do a variety of accounting tasks including preparing payrolls,

maintaining lists of accounts payable and computing budgetary controls.

William S. Dye, II, data processing service manager, said that when the conversion is completed to the new system, it may be possible to keep complete records of each student from the time of his enrollment to graduation.

The machine will "remember" residence hall assignments, fee assessments and counseling information, as well as the students class assignments and schedules.

The brains of the new equipment are spools of magnetic tape. Information fed into the machine is electronically changed into coded characters which are impressed on the tape. The machine

can condense the information contained in a stack of cards 70 feet high, containing more than 11,000,000 characters into a single reel of tape.

There's More Than Meets the Eye

Perhaps you have missed it; many people have. Nittany News has a

BACK ROOM
Well, not exactly a back room, but a short wing to the right at the back of the store. It's packed full of your favorite paperbacks, so when you drop in, be sure to see the whole store.
