Textbooks Aren't Rabbits—

—so we don't have an endless supply of them. Naturally we can get enough to supply every student, but frequently we have to order books before we have accurate class enrollment figures. Sometimes we underestimate the popularity of a course (we're human, too!), and the only rule we can apply is a democratic one, "first come, first served".

So come to the store early, when we can give you the very best possible service. And if you're disappointed because we don't have one of the books you need, rest assured that the publishers are staying up late these nights to service our orders. We'll get them for you as soon as possible.

We do believe that you

should own your own books, for they are the basic tools of learning. Without them you will be like a carpenter without his hammer. Penny

for penny, page for page, books are the best "buy" of your college career. So come into the store right away. We are anxious to serve you.

Fleisher, who was born in 1928 in California, has led an international life. He began his piano studies at four years of age and gave his first recital two years later. When he was 10 years old he was placed in the hands of Arthur Schnabel for his musical instruction. He studied first in Italy and then in New York.

At the age of 15, Fleisher appeared with the San Francisco Orchestra under the direction of Pierre Monteux for his "adult" debut.

In 1952, Fleisher became the first American to win the coveted Queen Elizabeth of Belgium International Music Competition in tests from 28 countries and was chosen "the best young pianist in Brussels. He competed with 71 artists from all over the world."

Since that time, Fleisher has made several appearances throughout Europe and the United States. His wife and two children often accompany him and make Rome and Paris their home bases in Europe. Fleisher wishes to reside permanently in the U.S. in the near future.

Rose was born in 1918 in Washington, D.C., and moved to Florida shortly thereafter. While attending school he studied the cello under Walter Grossman. In 1934 Rose received a scholarship to the Curtis Institute to study with Felix Salmond.

When Rose was 20 years old, Arturo Toscanini engaged him as a cellist for the NBC Symphony Orchestra. The following year he joined the Cleveland Symphony and four years later became a member of the New Philharmonic. Rose has toured South America, Europe and the United States.
