

T-H Action Delayed By Circuit Court

PHILADELPHIA (AP)—Three federal judges yesterday delayed enforcement of a Taft-Hartley law injunction against the striking United Steelworkers Union and said they would decide some time early next week whether to throw out the writ altogether. The 100-day-old strike continued.

West German Missile Project Gets Allied OK

LONDON (AP) — The European allies Thursday granted West Germany permission to build its own anti-aircraft guided missiles.

Surface-to-air and air-to-air guided missiles were thus struck from the list of weapons which Germany agreed not to manufacture when she joined the North Atlantic Treaty Organization four years ago. Long-distance missiles are still barred.

The new move was recommended by U.S. Gen. Lauris Norstad, supreme commander Allied powers in Europe, and approved by the Western European Union—a kind of European inner NATO.

WEU was formed in 1954 with the object of bringing West Germany into the Western defense network. It was based on the Brussels treaty of 1948, a collective self-defense and economic pact.

The amendment will not increase the types of weapons now on German soil. The German army has rockets, but they all are manufactured abroad.

Still barred to German arms makers are nuclear bombs, chemical and bacteriological weapons, battleships, large destroyers and long-range missiles.

The judges, after a hearing which lasted about four hours, said they hoped to arrive at a decision early next week.

An 80-day injunction was granted in Pittsburgh Wednesday by Judge Herbert P. Sorg of U.S. District Court. The union appealed to the U.S. 3rd Circuit Court of Appeals.

A panel of three jurists drawn from the Circuit Court here heard argument on two points:

Is the injunction granted under the Taft-Hartley law illegal? Is the strike of 500,000 workers endangering the nation's health and safety?

Arthur J. Goldberg, chief attorney for the union, said yes to the first question, no to the second.

The government (George Doub, assistant U.S. attorney) said just the opposite.

Whatever the finding, it will not settle the issue. Both the steel industry and the union have indicated they will go all the way to the Supreme Court if necessary.

Goldberg told the judges that the government obtained the injunction as the industry seemed on the verge of settling the contract dispute over wages and work rules.

Goldberg said the injunction was unconstitutional because it was handed down "as the result of a nonjudicial finding."

The opening session of the hearing was delayed 15 minutes or so because of uncertainty over the precise legal issue. The government said it thought the hearing would be limited to consideration of the stay of injunction.

Opposition To Castro Increases

HAVANA (AP)—Fidel Castro fought back yesterday against hit-and-run opposition and a critical reaction to his arrest of a provincial army commander, Maj. Hubert Matos, as a traitor.

The bearded prime minister used what he called his new weapons—the Cuban people—for a one-hour strike to demonstrate public support of his regime.

Exempted from the strike call were hotel and restaurant workers and others serving 2000 American travel agents in Havana for their annual convention.

Castro passed Wednesday through the blackest day of his 10-month regime.

There was bloodshed in the streets of Havana, showers of anti-government leaflets from aerial intruders and damage to one of his B26 bombers by Cuban ground fire, along with controversy over the arrest of the widely respected major.

Nobel Prize Selection Criticized by Swedes

STOCKHOLM, Sweden (AP) — The Swedish Academy drew Swedish criticism yesterday for awarding the 1959 Nobel Prize in literature to Italian poet Salvatore Quasimodo.

The Stockholm newspaper Aftonbladet suggested there are several more deserving writers around.

"After its incursion into the heroic with last year's prize to Pasternak, the Academy has returned to a safe middle position," the influential Socialist organ complained.

France Seeks Ban On Nuclear Arms

UNITED NATIONS, N.Y. (AP)—France proposed yesterday that the coming East-West disarmament conference put top priority on banning intercontinental missiles and other new devices for carrying nuclear weapons.

Jules Moch, the French disarmament expert, made the proposal in a speech to the 82-nation U.N. Political Committee during debate on various approaches to the disarmament problem.

He mentioned specifically satellites, rockets, super-sonic or long-range aircraft, submarines, aircraft carriers and launching pads.

In outlining what he considered the top issue for the 10-nation conference in Geneva early next year, Moch said:

Capital Will Not Contest CAB Recommendation

WASHINGTON (AP)—A Capital Airlines spokesman said yesterday the airline does not intend to contest a Civil Aeronautics Board recommendation that its service to eight cities in Michigan, West Virginia and Pennsylvania be transferred to other airlines.

The CAB examiner recommended that North Central Airlines and Lake Central Airlines be authorized to serve the cities.

UNIVERSITY TRAVEL BUREAU

Above the Corner Room

Through the Looking Glass
 with Gabbi

Everybody's got it. Got what? No, not the flu. Everybody's got the Ethel habit. Have you ever watched a couple of collegians walking down College Ave? They're strolling along, neither looking to right nor left until they spot Ethel's. Their eyes light up; their bushy little tails get even bushier; and their resistance is cracked. They just can't pass up Ethel's without admiring the artful window displays and stopping in to browse around.

And what do these Penn Staters see upon entering? Why, a perfume bar with the newest and most fragrant scents of this autumn season. Hattie Carnegie, Christian Dior, and Mary Chess are a few of the names represented. Hark, boys, perfume is a wonderful gift to present your little love-ly.

YOU LIKE THEM LONG AND LEAN?

Or maybe shorter and rounder? And what color? No, not little lovelies. We're talking about umbrellas. Ethel has them in every color of the autumn leaves and then some. It's that time of day and that section of our column again. Just trip lightly across the aisle and take a look at the wide selection of men's cuff links. They come in silver contemporary designs, simple lined gold or silver, abalone shell and a Siamese silver design on black.

AN OUNCE OF PREVENTION

is worth a pound of cure, I always say. That rapidly multiplying animal, the litter bug, is now being fined, and heavily, for throwing trash from the window of his car. Now why doesn't someone invent a little trash bag to put inside that car? Well, it so happens someone has. For only \$2.50 you can buy a gaily covered trash bag with various compartments for paper and orange peels. Get yours today.

Time to go,
 Gabbi

THE HOUSE THAT JAZZ BUILT

- Opens its doors again as it did three weeks ago for the first of the Jazz Club's Workshop Series. This Saturday evening at the La Galleria we have endeavored to bring more fine jazz to you. For the second in the series there will be two combos staging THE BATTLE OF THE BANDS. First on the stand will be the soulful DAVE ATKINSON, a very strong vibist, and his quartet to be followed immediately by DON KREBS and his fine group.
- No blood will be drawn, the only cutting will be of a musical nature. To add some more punch to the battle two vocalists of high stature will be on hand. The well established FRIEDA LEE is of course one; the other will be a welcome surprise to many, JUANITA JONES, a girl of much talent makes her first Penn State appearance with us.
- All in all it will be an interesting musical experience; one that no one should miss.

SATURDAY, OCT. 24 8 p.m. - 12:30 a.m.

Admission: 75c Jazz Club Members 50c

La Galleria

221 E. BEAVER AVENUE
