

Tickets for Frost To Be Distributed

Student tickets will be available at 1 p.m. tomorrow at the Hetzel Union desk for the Artists' Series program featuring Robert Frost, one of America's foremost poets.

Non-student tickets will go on sale at 9 a.m. Thursday.

The program will be held at 8.30 p.m. Saturday in Schwab Auditorium.

Frost's works are a biography of American traditions and customs. They are familiar to young and old for their pure stories of life, free from complicated esthetics and philosophies.

Frost's life began in 1874 in San Francisco, California. His father was a New Englander and his mother a Scot. After his father's death, Frost and his mother moved back to Lawrence, Massachusetts.

After high school, Frost attended Dartmouth College for one year but found it too "academic" for his taste. He went to work in a mill as a bobbin-boy, and at age 20 he married Eleanor White.

In 1897 he went to Harvard University and stayed for two years. He never received a degree, but since that time has received several honorary degrees, two of which are from Dartmouth and Harvard.

Frost held many different jobs until he sailed for England in 1912 with his family. He published two books while abroad and returned to the United States in 1915 to find himself famous.

Since that time, Frost has spent his life writing poetry and prose, and teaching and lecturing at colleges all over the country. He has received many citations, among them four Pulitzer Prizes, the Mark Twain Medal, the gold medal of the American Academy of Arts and Letters, the Poetry Society of America medal and the Loines Prize.

Among Frost's best known works are "A Boy's Will," "North of Boston," "A Witness Tree" and "Steeple Bush."

143 Withdraw From Classes At University

A total of 143 men and women had withdrawn from classes on the University Park and Commonwealth Campuses by the end of last week.

Seventy men and 33 women dropped out of school at University Park. Thirty-three men and one woman withdrew from the Commonwealth campuses.

The total enrollment of students for the fall semester dropped from 20,377 to 20,234.

The greatest number of withdrawals came in the freshman class—25 men and 11 women.

The senior class lost six men and one woman.

In the junior class, 17 men and three women dropped out.

Eight men and seven women withdrew from the University in the sophomore class.

In the graduate and special student category 14 women and 14 men withdrew.

HUB to Hold Halloween Candlelight Meal Tonight

A Halloween candlelight dinner will be featured tonight from 5 to 6:45 in the Hetzel Union cafeteria.

The menu will consist of roast leg of lamb, baked ham, chicken pie, or meat loaf with potato border. For dessert there will be pumpkin pie or applesauce cake with orange icing.

Leopold to Give Grad Lecture

Dr. Luna P. Leopold, engineer with the Geological Survey, U.S. Department of the Interior, will speak at the third Graduate School lecture at 8 tonight in 121 Sparks.

His topic will be "Rivers and Creeks: Their Significance to Man."

Leopold's experience in the engineering field covers many aspects of water-resources development, particularly in hydrology. During much of the past nine years he has been devoted to research in the field of river mechanics, the hydrology and physiographic characteristics of river channels and on certain aspects of water-sediment relations on rivers.

The lecture, which is open to the public, is co-sponsored by the College of Engineering and Architecture and the College of Mineral Industries.

Griffiths Receives \$3500 From Petroleum Institute

The American Petroleum Institute has awarded a \$3500 grant to Dr. J. C. Griffiths, professor of petrography, to support research in the field of sedimentary petrography.

The project is entitled "Relationships between Source Area, Process and Deposit in some Pleistocene and Recent Sediments."

Three different types of deposits are being studied by means of factor analysis, and advanced statistical technique.

Oliver Named Recipient Of Devoe Scholarship

Robert E. Oliver, junior in business administration from Danville, has been awarded the Lee D. Devoe Memorial Scholarship.

The award provides \$500 for the student chosen, with half of the amount paid during the junior year and the remaining half at the beginning of the senior year.
