

University, Campus Party Platforms Announced for Fall SGA Elections

The University Party platform will offer a possible solution to the transportation problem forever plaguing students travelling to and from campus.

As one of the planks of their platform, the University Party proposes the establishment of a Student Government committee to aid in securing rides for students, chartering buses, and distributing bus, plane and train schedules.

The two other planks of the platform are concerned with sound-proofing the telephones in the living units and arranging for the installation of a telephone at the Hetzel Union desk for off-campus calls.

The platform in its entirety follows:

Preamble Recognizing the need for a party which will effectively insure that the voice of the students shall be heard, we, the students of the Pennsylvania State University, to effectively utilize the opportunities provided by this University, to promote the general welfare of the students, to provide more representative student government, to further understanding between the administration and the students, to guarantee responsibility and high ethical standards in student government, will do everything within our power to assure

- That a sound-proofing device be installed at each telephone in University living-units.

- That the Assembly appropriate SGA funds to install at the HUB desk a phone which can be used for downtown calls.

- That SGA organize a committee to coordinate all student transportation to and from the University. This would include:

- Maintenance and coordination of all ride sheets.

- Chartering buses to metropolitan areas at vacations

- Bus, train, and plane schedules available at a central location to all students.

NDEA Loans To Be Offered

Applications for loans from National Defense Education Act funds for the spring semester may be made after Dec. 1 at the dean of men's or dean of women's office.

Applications will be processed during December and January and applicants will be notified of results as soon as possible.

If a student receives approval for a loan, he still must achieve a 2.0 All-University average during the fall semester to be eligible to receive his loan check in February.

Preference for the loans is given to students who plan to become elementary or secondary school teachers and students with a superior academic background in science, mathematics, engineering or a modern foreign language.

Loans in limited amounts from University loan funds are still available for the fall semester.

IRE Journal Editorship Awarded to EE Prof

Sidney A. Bowhill, associate professor of electrical engineering, has been appointed editor of the journal, "Transactions of the IRE Professional Group on Antennas and Propagation."

The Institute of Radio Engineers is the largest professional society in the world, having a membership of over 75,000.

In view of the wide spectrum of interests in radio and electronics, the organization is divided into 28 professional groups of which the profession group on Antennas and Propagation is one of the largest, comprising a membership of about 4,000.

Campus Party last night took stands on five issues for the coming Student Government Association elections, November 17, 18 and 19.

At a meeting attended by candidates and party leaders planks were drawn up dealing with food service, closed-circuit television of campus events, telephone service, parking regulations and the Stone Valley Recreation Project.

In a plank which John Brandt, party treasurer, termed the most important, the party stand is: "Because of dissatisfaction expressed by many students regarding the food service, we advocate a revision of the present policy to include the following:

- Better prepared food;
- Wider selection;
- Payment by the student on an individual meal basis;
- Improved service."

The plank continues: "Campus Party has presented a bill leading to the investigation of all possible methods by which the above may be accomplished. We will support the most realistic answer to the problem."

The remaining four planks are:

- "Since there is a recognized desire to see and hear many events which innumerable students cannot attend because of overtaxed facilities, we recommend that a closed-circuit television system be instituted to include Artists Series, Lecture Series and all other timely and important events when necessary.
- "In answer to the overwhelming consensus that some University parking and traffic regulations are unrealistic, we will give our support to an improvement of these regulations.
- "Due to the greater number of students living in residence halls, there is an increasing demand on the University telephone system. Therefore, we recommend that more town-campus trunk lines be established. Also, that the possibility of off-campus dialing privileges for residence hall students be investigated.
- "Campus Party acknowledges the work of the University on the Stone Valley Recreation Area and recommends that a student committee be established to work with the administrative committee which is drawing up over-all plans for the area. The party also recommends the greatest possible speed in area construction."

• Social House Board of Control: Robert Mathers, chairman; Stafford Friday, Frederick Shaw, Theodore Simon, Robert Kadis, Ronald Shiban and Stephen Blum.

• Town Housing: Haines and Franklin Jankosky, co-chairmen; James Canavan, George Reece, Friday and Kadis.

• Screening: Jankosky, chairman; Frank Burkett, Leon Miluszeusky, Friday and Reece.

• Town Parking: Charles Sloughfy, Ira Zatcoff and Shaw.

• Publicity: Simon and Reece.

• Newsletter: William McNeil and Canavan.

• Bluebook: Gary Himes, chairman, and Luke VandeMark.

• Recreation: Robert Lynn, chairman; Ralph Levy, Joseph Kopp and Burkett.

• Athletic: Richard Babcock, chairman James Baker and Merrill Condit.

• Delegates-at-large to the Association of Independent Men Board of Governors are: Michael Woodring, Milford Robertson, Roy LeBaron, Babcock, Burkett, Friday, Himes, Mather, Reece, Jankosky and Haines.

Another delegate-at-large will be appointed at tomorrow's meeting.

TIM committee work forms are still available at the Hetzel Union desk for any town independent men interested in council committee work Haines said these posts will require about two hours work each week.

TIM Group To Petition For Parties

Three downtown independent groups have requested petitions for permission to entertain women on weekends, according to Philip Haines, president of Town Independent Men's Council.

Haines also announced the following appointments to TIM committees:

• Social House Board of Control: Robert Mathers, chairman; Stafford Friday, Frederick Shaw, Theodore Simon, Robert Kadis, Ronald Shiban and Stephen Blum.

• Town Housing: Haines and Franklin Jankosky, co-chairmen; James Canavan, George Reece, Friday and Kadis.

• Screening: Jankosky, chairman; Frank Burkett, Leon Miluszeusky, Friday and Reece.

• Town Parking: Charles Sloughfy, Ira Zatcoff and Shaw.

• Publicity: Simon and Reece.

• Newsletter: William McNeil and Canavan.

HAMMOND ENGINEERING BUILDING—the 690-foot building is having windows put into place and cement poured for its flooring. Steelwork, although slowed up by the strike, is now being unloaded and placed in position. The building is scheduled for completion in April.

Contractor to Finish Hammond in April

By BOB TACELOSKY

A year from now, engineering students will be attending classes in laboratories in the building that today is just a mass of beams, bricks and blocks.

Hammond Engineering Building will be completed by April, according to Ray Hollister, the construction superintendent of the S. H. Evert Co.

Inc. who is handling the project. "We're putting in the windows now, starting the roof next week, and we'll be finished in time for our contract deadline in the spring," Hollister said.

According to Hollister, the entire project, which will cost nearly \$3 million, is under the auspices of the General State Authority. The University is not directly associated with the construction, and will not lease the building until the project is completed, he said. The Department of Property and Supply of the GSA will then rent the rights of occupancy to the University.

Hollister said that he was quite certain most of the outside work will be completed before the harsh winter weather arrives.

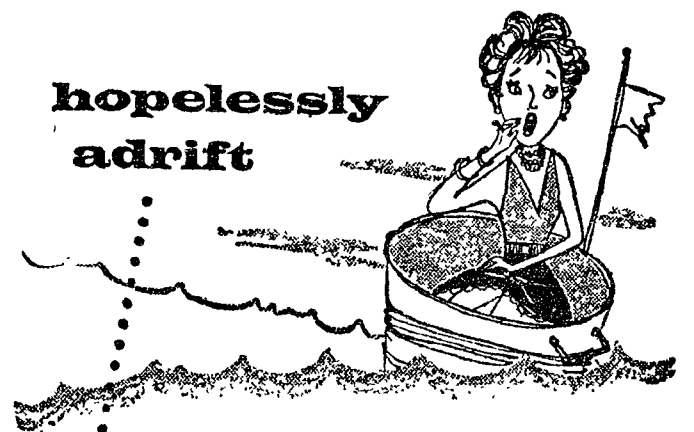

"With the roof on, and most of the partitions already built, the workers will be protected from the elements, for the most part," he said.

Between 75 and 80 men work on the project daily.

When asked how much the steel strike affected the building progress, Hollister said, "the strike didn't affect me at all yet, and it won't as far as I can see." Most of the steel was bought before the strike, and other materials such as aluminum for the window frames, are lessening the amount of steel used.

The main part of the project, the building on the north and south sides of Sackett, will cover an area 60 x 600 feet, with the long distance running parallel to College Ave.
