

Traffic Code Report 'Campuses' Presented to Cabinet Encampment Advocated

The results of several weeks of investigation by the SGA Traffic Code Investigation Committee were presented to SGA Cabinet last night.

Cabinet rejected a recommendation by the committee to delete the section of the Student Parking and Traffic Regulations requiring a minimum of \$10,000 liability insurance for vehicles registered at the University.

Men Debators Take 3rd Place In Tournament

The Men's Debating Squad placed third this weekend in the Invitational Tournament held at St. Joseph's College in Philadelphia.

According to David M. Jabusch, instructor of speech and debating, 28 colleges and universities participated in the tourney with Dartmouth placing first and Notre Dame second.

The University's squad consisted of Vernon Barger, senior in engineering science from Curllsville, and Arthur Ichter, senior in business administration from Ashley, who upheld the affirmative side; Peter Galie, junior in labor-management relations from Conshohocken, and Alan Elms, senior in psychology from La Center, Ky., who argued the negative side.

The national topic, "Resolved: that Congress should be given the power to reverse the decisions of the Supreme Court," was debated.

Jabusch also said that the debating squad will be sending members to the University of Rochester and to Duquesne University this weekend to participate in debates.

Stereotyped plates were used for many years in book printing before they were used in newspaper production.

Walter Darran, committee chairman, urged deletion of the provision since it was not required by the state. He said students owning old cars would be paying more for insurance than their cars are worth, and that owners of motor scooters and motorcycles would have to pay the high rate.

Cabinet felt that the insurance should be required to protect the college community, rather than for personal protection. It was felt, however, that the section of the regulations requiring motor scooters to pay the sum should be revised.

Cabinet unanimously approved the rest of the committee's recommendations which were included in a legislative bill to be presented before Assembly. They are:

• That faculty parking areas be reserved for student parking between 5:30 p.m. and 7 a.m. on weekdays and from 12:30 p.m. Saturday to 7 a.m. Monday.

• That no student motor vehicle shall be driven on Pollock Rd. between Shortlidge and Burrows Rds. between 7:30 a.m. and 5:30 p.m., Monday through Friday, and between 7:30 a.m. and 12:30 p.m. on Saturday.

• That parking fees on motorcycles and scooters be reduced to \$5 per full academic semester and \$1 per week during the summer.

—The International Typographical Union was founded in 1852 and is the first and oldest labor union in the United States.

The SGA Committee on the Integration of Commonwealth Campuses will recommend to the Assembly that a separate encampment be held for student leaders and faculty members from the campuses.

Chairman Norman Kahn said his committee felt that students from other campuses are not getting the full benefits from the present Encampment arrangement at which most of the business concerns the main campus.

He said such an encampment would be attended by three or four students and one or two faculty members from each commonwealth campus and about 10 or 15 students and faculty members from here.

Kahn said he will also ask the Assembly to consider setting up a yearly meeting of students from organizations on all the campuses. Kahn said this might be called an SGA Congress.

He said he will also recommend that at least six copies of The Daily Collegian should be sent to each campus. He added that more should be sent if possible although the exact number would depend on the decision of the Collegian staff.

A Collegian co-ordinator at each campus should also be appointed, Kahn said, to maintain a bulletin board display of the Collegian and see that they are used in the most beneficial manner.

Sommer to Head Committee

Dr. Leo H. Sommer, associate professor of chemistry, has been appointed chairman of the Committee on Organometallic Chemistry of the American Chemical Society.

Engineering Professor Gets Leave of Absence

Francis R. Nitchie, Jr., associate professor of engineering research at the Ordnance Research Laboratory, has been granted a 9-month leave of absence to participate in the projected Space Telescope Program of the Smithsonian Institution.

He is to work with the Smithsonian Institution Astrophysical Observatory at Cambridge, Mass., as engineer administrator in the program.

Lions Paw--

(Continued from page one) the timber line on the Lemont side of the mountain not owned by Lion's Paw, but it will be "cut off" before going across the face of the mountain.

The most economical way to put in this line, which is needed because State College is growing so fast is to move in a straight line, Novotny said.

In regard to the Lion's Paw protest, Novotny said, "in this situation, it is the face of the mountain which is critical." The line will be "cut off" before it goes across the face of the mountain, he said.

The path for the line will not spoil the view of the mountain for most of the area residents, Novotny said.

However, Koser said, "We believe it will definitely be visible from the campus and from town." "The mountain is a college symbol and no changes whatever should be made in its appearance," he said.

Prof to Chair Session

George M. Dusinberre, professor of mechanical engineering, by invitation of the Heat Transfer Division of the American Society of Mechanical Engineers, will serve as a session chairman at the annual meeting of the Society in Atlantic City, N.J., on Nov. 30.
