

SGA Urges More News On Centers

By CAROL BLAKESLEE
The SGA Assembly voted last night to recommend that a special section or page in the Daily Collegian be devoted to news from the Commonwealth campuses on a regular basis.

The recommendation was one of seven in a progress report from the SGA committee on Commonwealth Campus Integration, chaired by Norman Kahn, senior in psychology from San Antonio, Texas.

In other action, the Assembly went on record as favoring a half-holiday if the football team accepts an invitation to the Liberty Bowl to be played Dec. 19.

Speaking against the suggestion for having a special section in the Collegian for commonwealth campus news, Dennis Malick, editor, said that there was already a problem of scarcity of space. "We can't promise space to anyone," he said.

The committee also recommended that a minimum of six Collegians be sent to each campus. Malick pointed out that there are already Collegians sent to each campus. A Collegian is now placed in each campus library daily for the student's use, he said.

Assembly deleted a recommendation of the report which asked that Collegian appoint a person at each campus as a Collegian coordinator.

Again, Malick told the Assembly this was already being done. He said that students from the centers now send articles to the Collegian and that a Collegian staff member coordinates this information.

McCoy Requests Equipment Back

Ernest B. McCoy, dean of the College of Physical Education and Athletics, has requested that students who removed equipment from Beaver Field after the football game last Saturday return it. Contrary to rumor, line markers, pennants and other equipment, which it would be expensive to replace, will be reused in the new stadium.

Some of the equipment was recovered this week from the men's residence halls. However, much of it still is missing.

Those who have any of the equipment should return it to Beaver Field, or should call the Department of Athletics and a truck will be sent to get it.

Canadian Gets Grant

David A. T. Donohue, of Montreal, Quebec, is enrolled as a graduate student in petroleum engineering at the University under a fellowship from the Pan American Petroleum Foundation, Inc., which provides one of four such fellowships in the department.

THEY'RE OUT FOR BLOOD—The stalwart aggressive Collegian Pio (for probation) grid squad menaces its contempt for the Pitt News Kittens whom they meet in the 2nd annual Blood Bowl tomorrow in Forbes Field in Pittsburgh. The inset shows the "lonesome end" (an identical twin of the left end) taking his position for the Pros' best play—the "sleeper." (See page 7 for story.)

Commission Accepts Traffic, Safety Plan

By ZANDY SLOSSON
Third of a Series

The State College Traffic Commission voted unanimously last night to accept the engineering committee's recommendations to improve the flow of traffic and safety conditions on S. Atherton St.

The proposal was presented following the committee's study of results of the 60-day trial period on S. Atherton St. The trial was conducted as a result of increased traffic due to the Benner Pike detour and increasing size of the community.

Major points in the committee's approval plan are:

- Removing of all parking from both sides of S. Atherton St. from College Ave. to S. Allen St. except as stated in the next point.
- Prohibiting parking at the seven curb meters on the east side of S. Atherton St. (100 block) and the four curb meters on the north side of W. Beaver Ave from 7 to 9 a.m. and 4 to 6 p.m. (This does not constitute a change from the trial plan.)
- Providing two lanes, each with a width of 10 1/2 feet, for south-bound traffic and one lane, with a width of about 15 feet, for north-bound traffic on S. Atherton St. from Highland Alley to S. Allen St.
- Providing four lanes of equal width on S. Atherton St. from Highland Alley to College Ave., using the curb land on the east

side of S. Atherton St from Highland Alley to College Ave. for right turns only. (This suggestion was also used in the trial plan.) The committee's recommendation, which includes seven other changes, will be presented to the Borough Council for their approval. If accepted the plan will be sent to the State Highway department for their final sanction.

Class to Hear Palladino

Nunzio J. Palladino, head of the Department of Nuclear Engineering, will address the Fluid Mechanics Seminar at 4:15 p.m. today in 102 Sackett.

He will speak on the subject, "Survey of Fluid Mechanics Problems in Nuclear Reactors."

New Tavern Opens On Garner Street

Yes students, faculty, and townspeople, a new tavern has opened in the new shopping center. The tavern, the Lion's Den, under the new management of Charley Rager and George Hook, has just been renovated for your pleasure.

The new interior presents an ideal setting for after-class, evening, and weekend enjoyment with its bright and friendly atmosphere. The congenial hosts are striving for close customer-management relationships and invite you to stop in anytime to meet them and "shoot the breeze" for a while.

Blue Band Will Modify Gershwin Show for Pitt

Penn State Blue Band will present a modified version of its tribute to Gershwin show tomorrow during halftime at the Penn State-Pitt football game. The Gershwin show was presented at the Syracuse game.

Hummel Fishburn, head of the Department of Music, said there will be more action in the halftime routine and that the band will not play a Gershwin number by standing and facing one part of the stands. He also said that because of the height of the Pitt stadium the routines will be seen more clearly.

Eliot Block, assistant to James Dunlop, director of the Blue Band, pointed out that the Gershwin songs will be balanced by the marches played before each one, the last Gershwin selection, "Strike Up The Band," and the exit march "Victory."

Blue Band members will leave by chartered buses for Pittsburgh at 11:30 a.m., after a rehearsal at the practice field at 10 a.m.

They will stay at the Hotel Pittsburgh and play at a smoker of University alumni tonight in the Hotel Webster Hall. The band will stay over in Pittsburgh and return to campus early Sunday afternoon.

The halftime show will begin by the playing of the "Nittany Lion" and then the "Penn State Alma Mater" as the band forms

the letters LIONS to salute the University.

Bandsmen will form a piano and play "Rhapsody in Blue," then form a stick-man to play "The Man I Love," a stick-girl to play "Embraceable you," and a stick-girl that claps her hand and slaps her thigh to the tune "Clap Yo' Hands."

A regular formation will be assumed as the band plays "Strike Up The Band." They will then perform a "to the winds maneuver" with lines breaking off right and left, march up the width of the field and exit while playing "Victory."

Formations for the pre-game show will be the letters PSU and PITT. The band will play "Nittany Lion," "Victory," and "Hail to Pitt."

Brattain to Speak Tonight

Dr. Walter H. Brattain will discuss "The Physics of Semiconductors" at 7:30 tonight in 119 Osmond.
