

Ike Plans Peace Talks For Goodwill Journey

WASHINGTON (AP) — President Eisenhower declared yesterday the major aim of his 22,000-mile visit to 11 countries, beginning today, will be to prove to foreign peoples that the United States is a "good partner" in the search for a just peace.

The President is scheduled to leave Washington after

Courts in Cuba May Ask Lives Of 2 Americans

HAVANA (AP) — Military tribunals yesterday weighed the fate of three Americans caught up in a roundup of suspected foes of Prime Minister Fidel Castro's regime.

Accused of counterrevolutionary activity, two face death sentences demanded by the prosecution. But there was speculation that deportation, not the firing squad, awaited them. A long prison term has been demanded for the third.

The three, all pilots, are:

Frank Austin Young, 38, from Miami, Fla., who returned to Cuba last September, three weeks after his release from a Havana prison on currency manipulation charges. He was accused of leading an armed band of rebels. He denied the charge. The prosecution asked the death sentence.

Rafael del Pino, 33, from Miami, Cuban-born naturalized American captured last July. He is accused of trying to help anti-Castro Cubans flee the country. The prosecution asked the death sentence.

Peter John Lambton, 24, from Nassau, Bahamas, London-born naturalized American captured with Young. Lambton said he came to Cuba to take pictures of counterrevolutionists for sale to American magazines. The prosecution asked a 30-year term.

House Lifts Sports Ban

HARRISBURG (AP) — Blue Laws — The House completed final legislative action on a proposal exempting a number of sports and recreational activities from the Sunday blue laws. By a vote of 151-26 the House approved Senate amendments adding basketball and bowling to these exempted activities: golf, tennis, boating, swimming, picnicking and target shooting.

making a broadcast to the nation about his 19-day journey. That trip will take him, at its farthest point, to four days of talks with Prime Minister Nehru of India, then bring him back to Paris for a Western summit meeting Dec. 19-21.

Discussing the trip and other foreign issues at his meeting with newsmen, Eisenhower made these main points:

- He has received medical clearance from his doctors who found in a physical examination three days ago that he was "capable of doing it."

- Nehru is right in trying to settle the border dispute with Red China by negotiation and that China's leaders are wrong in using force.

- The President will be prepared to discuss the border issue and other specific problems with Nehru, including hopeful signs of an improvement in relations between Pakistan and India.

- Prime Minister Nobusuke Kishi of Japan will visit the United States, probably in January, and is expected to bring completion of negotiations for a revised U.S.-Japanese mutual defense treaty.

- Eisenhower is more hopeful now than a few months back that some constructive result will emerge from U.S.-British negotiations with the Soviet Union for a ban on nuclear weapons testing backed up by an international inspection system.

Senate Cuts Increase Proposed for School Aid

HARRISBURG (AP) — The Senate Rules Committee yesterday scaled down to 16 million dollars the cost of a proposal to increase state aid to schools.

The figure compares with the 55-million-dollar estimate as passed by the House and 200 millions originally requested by organized teachers and school directors to help hard-hit school districts.

But Senate Republicans were divided on how the 16 million dollars could be raised to finance the boost.

Investigators Puzzled By Plane Wreck

WILLIAMSPORT, Pa. (AP) — Federal and state investigators sifted through the wreckage of an Allegheny Airlines plane for clues yesterday on why the craft crashed, killing 25 of 26 persons aboard.

One of the biggest puzzles is the role of the experienced pilot just before the Martin Executive-type twin-engine aircraft plunged into the rock-strewn slope of 1400-foot high Bald Eagle Mountain.

David Miller, senior vice president of the airlines, said there was no evidence that the pilot, 30-year-old Thomas R. Goldsmith, made a wrong turn in an attempt to land at the Williamsport-Montoursville airport during a snow storm Tuesday.

"The man had flown the route since 1950," he said. "Every pilot of our system is alert to the mountain. To me it is inconceivable that he turned into it."

The single survivor of the disaster, Louis Matarazzo, 35, a Springfield, Pa., textile executive, was under sedation after suffering an eye injury and burns over most of his body.
