

### Paris Next Stop In Eisenhower's European Tour

WITH EISENHOWER AT SEA (AP) — President Eisenhower steamed yesterday toward a climactic point of his tour—the Western summit meeting in Paris.

He began work on summit papers aboard the U.S. cruiser Des Moines a few hours after locking arms in friendship with Tunisia's pro-Western President Habib Bourguiba.

During a visit of less than four hours in Tunisia, a hotbed of the Algerian independence movement, the President received a wild welcome from about 200,000 men, women and children.

The 5-year Algerian rebellion and the economic distress of newly independent Tunisia were among subjects discussed by Eisenhower and Bourguiba during a 2-hour lamb chop breakfast in the Tunisian President's Moorish palace.

A joint communique said the two men felt "grave concern" over failure to end the Algerian war. Both endorsed President Charles de Gaulle's offer to let Algerians decide for themselves what kind of government they want.

### Venus Launching Postponed; Soviets Win '59 Space Race

CAPE CANAVERAL, Fla. (AP)—The United States yesterday postponed a rocket launching toward the planet Venus and forfeited its last 1959 chance to move back into the space race with the Soviet Union.

A 3-stage Thor-Able rocket was scheduled to hurl a 90-pound package deep into space today. But the National Aeronautics and Space Administration said the shot has been called off "because of electronic problems which arose in the final checkout of the instrumented payload."

The probe initially had been set

for last Tuesday, but trouble developed then.

No new launching date was set. However, an informed source reported no further attempt will be made this year. He said the best bet would be sometime in January.

The postponement was the second blow in three weeks to a U.S. bid to start catching up with Soviet space efforts. On Thanksgiving Day, an Atlas-Able rocket failed in an attempt to send a satellite around the moon.

### Radium Dial Watch Found Radioactive

WASHINGTON (AP) — Owners of Rolex GMT—Master wrist watches, attention: If your watch is a special "Navigation" model and has the name "Oyster Perpetual" on its face it may be radioactive and should be returned for inspection to the American Rolex Watch Corp., 580 Fifth Ave., New York, 36, N.Y.

The AEC announced yesterday a check of several of these watches showed enough strontium-90 to present "a possible long-term health hazard to the wearer."

### Jury to Decide Fate

NEW YORK (AP) — The government's conspiracy case against 20 delegates to the Apalachin gangland meeting went to a U.S. District Court jury yesterday.

The case had been heard by Judge Irving R. Kaufman and a jury of eight men and four women.
