8-Month-Old Steel Strike Ends

Assembly to Hear Proposal Banning Sophomore Driving

By CAROL BLAKESLEE

Should sophomores be allowed to drive in Centre County? This question will undoubtedly be debated by the SGA Assembly this week when it receives a bill asking that the freshman driving ban be extended to sophomores.

The bill also recommends that Pollock Rd., from Shortlidge Rd. to Burrowes Rd., be closed to all traffic between class periods and from 11:50 a.m. until noon and 1:05 p.m. until

Cabinet Hits Sophomore Driving Bill

By SUE LINKROUM

SGA Cabinet last night opposed the bill recommending that sophomores be prohibited from driving on campus and within the boundaries of Centre County.

Several Cabinet members pointed out that reducing the number of student cars would further hinder the transportation to and from campus during vacations and holidays.

Jay Hawley, Rules Committee chairman, said that "it would be a travesty for SGA" to recommend such an act since it was not in the best interests of the students.

Carol Dominick, Panhellenic Council president, said sophomores should be allowed to have cars until there absolutely no facilities for them.

David Epstein, Inter-College Council Board president, spoke in favor of the bill. He said in view of the increasing enrollment traffic and parking situations will become worse and eventually a time will come when sophomores will not be allowed to have cars on campus. "It would ease the pain" if the prohibition started now, Epstein said.

Cabinet also recommended that Pollock Rd., from Shortlidge to Burrowes Rds., be closed to all motor vehicles between class periods to ease student traffic at these times.

In a third move, Cabinet recommended that a registration fee be collected from each student who registers a car.

1:15 p.m. It would be open to traffic at all other times.

It asks also that a fee be charged each student who registers a car. At present only students who wish a parking permit on campus pay a \$15 fee.

The bill will be presented by John Brandt, alternate assemblyman (C.-Sr.), and Howard Byers (U.-Sr.).

Byers said last night that with increasing enrollment it is only logical that there will be more and more sophomores driving cars. "We've been pretty fortunate so far, but it's time we took a mature view and realize that accidents are bound to happen," he said. Banning sophomore driving would curtail the accident rate a great deal more, he added.

Brandt and Byers will also present an amendment to the by-laws that Assembly meet regularly every Thursday during the school year, unless otherwise specified by the Assembly at a previous meeting.

Byers said this amendment would be "putting the majority feeling into action." The idea was generated by many others, he said, because of the cancelling of the last meeting.

The time and place for the meetings would be designated by the Rules Committee, Byers said.

Assembly will also hear a bill asking that class advisory boards be established as an entity within the Student Government Association.

At present there are no provisions for advisory boards in the constitution.

The bill calls for a constitutional amendment that each class president appoint the class officers he needs from his advisory boards. The boards would approve the president's appointees.

The boards themselves would be selected by the Cabinet Personnel Interviewing Committee with the approval of the class presidents.

Boro Renews Tax on Wages

The State College Borough Council voted last night to renew the tax levied on all profits, commissions or wages earned in State College. This tax applies equally to residents and non-residents.

The tax of about one per cent is deducted from the wages by the employer and is collected monthly by the townships. Any necessary refunds are made from the borough to the township and then to the individual.

Council members also discussed the possibility of installing a blinking light on N. Atherton St. This proposal will have to be approved by the State Highway Dept. before any action is taken.

New council members Arnold Addison, Mrs. Helen T. Albrecht, Edwin Frost and Lyne S. S. Hoffman, associate professor of English composition, were installed.

Council also elected councilman Lawrence Perez, assistant dean of engineering and architecture, to replace retiring council president Ned C. Cummings.

Cold to Continue, Snow Predicted

Sub-freezing temperatures will continue today, tonight and tomorrow and a few snow flurries may fall today and again tomorrow.

Some light snow will fall on occasions during the next few days, but no appreciable accumulation is expected. However, there is some chance of a snowstorm by tomorrow night or Thursday.

Thermometer readings will rise sluggishly to a high of 29 degrees this afternoon and then fall to about 15 tonight. Tomorrow will be slightly colder with a high of 26 degrees expected.

News Staff to Meet Today

The Daily Collegian news staff will meet at 5 p.m. today in the city room. All candidates, sophomore and junior Board members are required to attend.

Settlement Will Cost Industry Over \$1 Billion

WASHINGTON (AP) — The worst steel labor battle in the nation's history ended yesterday on government-recommended terms — at a price the industry estimated will cost "well over \$1 billion."

In making that estimate in a nationwide television address last night Chairman Roger M. Blough of U.S. Steel Corp. said the steel companies had no choice but to accept reluctantly.

There appeared to be no immediate threat of a steel price boost. Blough issued a separate statement saying U.S. Steel proposes to "continue the general level of its prices for the immediate future." But he said competi-

'Bama Bowl Bid Attacked By NAACP

The National Association for the Advancement of Colored People has protested the selection and subsequent participation of the University of Alabama for the Liberty Bowl game.

A resolution approved by the Philadelphia branch of the NAACP was presented to the promoters of the Liberty Bowl. It states that Alabama does not admit Negro students and, therefore, should not have been chosen to participate in the Liberty Bowl.

It says that the Liberty Bell stands as a symbol of human liberty and freedom and that this symbol was desecrated when Alabama was chosen to play in the game.

A letter received by The Daily Collegian from Harry J. Greene, president of the Philadelphia NAACP, said that Alabama was undemocratic when it refused admission to Autherine Lucy. Miss Lucy sought admission to Alabama in 1956.

Greene said that it was the duty of the NAACP to protest the selection of Alabama for the bowl game because it is one of the four remaining state universities which bars the enrollment of Negroes.

The letter urged the Liberty Bowl officials to give more thought and consideration to teams which they ask to play in the future.

Bursar's Hours Resume

The office of the bursar in Willard will be open on Saturday mornings from 7:45 a.m. to 11:45 a.m. from Jan. 9 to March 26, Richard E. Baker, bursar, said today.

For the past month the office has been closed on Saturday on a trial basis.

Prof to Head Ag Group

Dr. David R. McClay, head of the Department of Agricultural Education, is the new president-elect of the American Association of Teacher Educators in Agriculture.

His election was announced at the annual convention of the association in Chicago.

HAPPILY RETURNING?????—students on the Pennsylvania Railroad special college cars jammed themselves together for the trip from eastern areas. Trains and private cars were crowded for the return from the Christmas holiday.

3 Students Hurt in Holiday Accident

By DICK GOLDBERG

Three University students were injured and six others involved in a two car collision Dec. 18 near Lock Haven while traveling home for the Christmas vacation.

Desmond Bailey, sophomore in meteorology from Troy, N.Y., the driver of one of the cars, suffered a broken nose and multiple cuts. His passengers, Linda Pattison, graduate student in biological science from Moriah Center, N.Y., and James Gallagher,

graduate student in physical education from Johnson City, N.Y., suffered multiple cuts and bruises.

Other students involved were Erling Maine, graduate student in physics from Albion, N.Y., Judith Tifenberg, junior in arts and letters from Skaneateles, N.Y., Atam Arya, graduate student in physics from State College, Carol Blakeslee, junior in journalism from N. Syracuse, N.Y., Fred Monaco, junior in counseling from Watertown, N.Y., and Sondra Schade, freshman in labor-management relations from Liverpool, N.Y.

The accident occurred as the car driven by Maine stopped at

a traffic sign four miles north of Lock Haven. The auto stalled and Bailey's car struck it.

State police reported that Bailey incurred his injury by hitting the steering wheel of his auto. The other occupants of the car struck the dashboard and the windshield. The three students were admitted to the Lock Haven Hospital for observation. Miss Pattison and Gallagher were released the next day.

Bailey's auto suffered front end damages totaling \$500. Maine's car received a damaged fender and a bent frame. State police did not give an estimate of the damage.
