

Russia Is Strongest Nation - 'K'

Khrushchev Speaks Before Soviet And Asks for Large Military Cut

MOSCOW (AP) — Nikita Khrushchev declared yesterday the Soviet Union is now the world's mightiest military nation, ready and able to wipe any "country or countries attacking us off the face of the earth."

The Soviet Union is so strong it will cut 1.2 million men—almost a third of its armed power—from its forces. It will rely upon an awesome array of nuclear weapons and

A BEAUTIFUL BLUE AND WHITE SIGN has been erected in front of the HUB to follow the new trend on campus. The TIM office is located therein—the sign was removed after only an hour of life.

Cold Winds Will Change Rain to Snow

A severe storm will be passing through Pennsylvania today bringing a great variety of weather to this area.

The storm originated in the Great Plains yesterday and caused heavy snows, gale force winds and sharp contrasts in temperatures in that region.

Heavy rain is expected throughout Pennsylvania today, including State College. Increasing winds and rather cool temperatures will accompany the precipitation.

The rain will change to snow as colder air arrives on strong northwesterly winds late this afternoon.

Temperatures should be in the low 40's this morning, and then rises to about 46 by early afternoon.

Snow flurries and possibly a few snow squalls will attend the influx of colder air on strong and gusty winds tonight.

The low tonight should be 24 degrees.

University to Alter Summer Sessions

By NICKI WOLFORD

The University will be dropping summer sessions after 1960 and "moving toward a year-round program of instruction," Lawrence E. Dennis, vice president for academic affairs, said yesterday.

In a long range plan passed by the Board of Trustees and the University Senate two years ago, the present system of summer sessions was set up for 1959 and 1960.

In the plan, sessions of three weeks, six weeks and another three weeks were organized and administered on a separate basis than the regular academic year.

Dennis said that this long range plan gave the administration two years to decide on what the calendar should look like during the '60s.

This involves getting a calendar which would be able to make a "suitable adjustment" to the year-round program of instruction, Dennis said.

After the 1960 summer session, instruction during the summer months will be administered on the same basis as the regular academic year and will be integrated through the colleges.

However, Dennis said, it has not been decided how this program shall be carried out—whether it will be organized on a trimester or perhaps quarterly basis. The decision will be made in the next several months, he said.

Students who did not sign up for student insurance last September may do so between Jan. 29 and Feb. 15.

Enrollment desks will be maintained during registration for the spring semester at Recreation Hall and at the Hetzel Union desk. From the end of registration until Feb. 15, students may enroll at the Doty and Hench Insurance Agency on S. Allen St. or at the HUB desk.

The insurance covers students who live at home or on campus. Dependents of the students can be covered also.

Three plans are offered to students at different rates—\$14.25 for plan 1, \$4.50 for plan 2 and \$11.40 for plan 3. The insurance will cover the students throughout the summer of 1960.

During the fall semester, 4366 students signed up for the program.

Semester's Review

Traffic, Nittany Dominates Assembly

By CAROL BLAKESLEE

Problems of traffic, Nittany, SGA Assembly chairmanship, and class advisory boards dominated the Assembly in its first full semester of operation.

In addition, a Student Check Cashing Agency was set up and a flight to Europe will be sponsored this summer.

Action on the traffic and parking situation began last spring when a committee was set up to investigate the possibility of having parking meters on campus.

With a new code of traffic rules for students this fall, how-

ever, the emphasis turned toward a broader area. Early in the fall a Traffic Code Investigation Committee was set up to study all traffic problems and make suggestions for improvements.

A 1959 student report recommending that each student be guaranteed a parking space when he pays for a permit was approved by Assembly in November.

Assembly's most recent action on the traffic problem came at its last meeting when it almost unanimously defeated a bill to recommend that sophomore driving be banned.

Assembly was shocked into setting up a committee to study

living conditions in the Nittany Residence Halls when the president of the Nittany Council gave a very unfavorable report on them.

The committee's report was approved last week and SGA President Leonard Julius met with University officials and representatives from Nittany before the Christmas recess to discuss the problem.

The question of who should chair the Assembly brought a long and heated debate in October. The discussion originated with an Encampment report which recommended that the constitution be amended to have the SGA president chair the Assembly in-

Johns Hopkins Chemist To Speak on Viruses

Dr. Roger M. Heriott, head of the Department of Bio-chemistry in the School of Hygiene and Public Health at Johns Hopkins University, will speak at 4:15 today in 109 Armsby.

He will speak on "Viruses and Biologically Active Nucleic Acids."

Semester In Review

The Daily Collegian today presents the first of a three-part summary of the fall semester's activities. A review of the SGA Assembly's actions appears on page one. Five additional reviews appear on page 5. Additional reviews will appear tomorrow and Tuesday.

rocketry, including some "armaments never known to man," the Soviet Premier told 300 cheering deputies of the Supreme Soviet-Parliament.

In proposing the cut to the Parliament (it is certain to be adopted) Khrushchev also claimed that even more frightful power is being built.

"The Central Committee of the Communist party and the Soviet government can inform you, comrade deputies, that though the weapons we now have are formidable weapons, the weapon we have in the hatching stage today is even more perfect, even more formidable," Khrushchev told the special session.

"The weapon which is being developed—and is, as they say, in the portfolio of our scientists and designers—is a fantastic weapon."

Khrushchev did not elaborate on the "fantastic" weapon in his 20,000-word address, but he said that, "Now it is quite clear that the United States of America, is not the world's most powerful military power."

While Khrushchev expressed hope for international agreement at the forthcoming big power summit meeting in May, much of his 3-hour address dealt with Soviet might which he said has developed to such a degree in the field of rocketry and nuclear weapons that bombing planes and naval fleets are becoming obsolete.

This in effect was an advance notice to the Western powers of the line the Soviet Union will take at the summit meeting. And, for audiences in Asia, where he soon will be a visitor, Khrushchev pointedly remarked that modern weapons are especially dangerous to countries with the greatest population density, should any "madman" decide to start a war.

"If the aggressors start a new world war, it will be not only their last war but the wreck of capitalism," Khrushchev declared to a gathering of deputies from all parts of a vast nation occupying a

Encampment Participants Will Meet

A reunion for the participants of the Eighth Annual Student Encampment will be held Thursday, Feb. 18, in dining rooms A, B and C of the Hetzel Union Building.

Encampment members will review the recommendations of the plenary session and will further discuss the issues of major importance. It is hoped that new light will be shed on some of the issues by both student and faculty members, William Jaffe, Encampment chairman, said.

The reunion will begin with individual workshop discussion periods from 7 to 8:15 p.m. After a 15-minute break, the participants will return to a plenary session, chaired by Leonard Julius, SGA president.

The group will hear reports from each of the workshop chairmen as to progress of their original recommendations and also any additions or changes which they may wish made to their original reports. The reunion will end with a "coffee hour" lasting until 10 p.m.

President Eric A. Walker will attend along with other administrative and faculty personnel who were represented at the encampment, held Sept. 9, 10 and 11 at the School of Forestry at Mont Alto. Over 85 students and some 25 faculty-administrative members attended the encampment in September.

A meeting of the six workshop chairmen and the encampment committee will be held early in February to make final arrangements.

Registration Date Set For Sorority Rushing

Registration for sorority rushing will be held from 8 a.m. to 7 p.m., Feb. 8, the Panhellenic Council has announced.

All freshmen who make a 2.3 average and upperclasswomen with a 2.0 All-University average will be eligible to rush. Rushees must bring their transcripts with them in order to register.

The first event of formal rushing will be open houses Feb. 20 and 21. All rushes must attend a mass meeting at 12:30, Feb. 20.

There the rushees will be divided alphabetically into groups of 20 for the Open Houses. Each group will have a Greek guide who will take them around to each sorority. Every girl must visit each sorority during Open Houses.

Monday, Feb. 22, rushees will pick up their invitations to chatter dates in the Panhellenic Post Office. The first round of chatter dates will be Feb. 22 and 23. Rushees will pick up invitations to the second round of chatter dates Thursday, Feb. 25. These

will be held Thursday and Friday, Feb. 25 and 26.

The second week of rushing will feature bermuda parties, coffee hours, and ribbining. Rushees may accept three invitations to bermuda parties scheduled for the evenings of Feb. 29 and March 1.

Formal coffee hours will climax the rushing events March 3. Rushees may accept two invitations to coffee hours. Sorority members will call for their rushees at their rooms.

Immediately after coffee hours rushees will fill out preferential bidding cards. These will be processed the next day and sororities will issue bids. Ribbining will be that night in the suite.
