## Prexy Sees Crisis In New Demand For '60 Admissions

President Eric A. Walker said yesterday, after examining the demand for admission in 1960, that the crisis in higher education is here 'now'.

"The crisis in higher education is not something that will happen next year or the year after that, or at sometime in the future," Walker said "It's here now and it's frightening in its implications."

## Flu Shots Available At Infirmary

Dr. Herbert R. Glenn, director of the Ritenour Health Center, said yesterday that inoculations for the Asian flu are now available at the infirmary.

As a wide-spread flu epidemic in the near future is quite possible, each student is urged to secure the single preventive dose immediately, Glenn said. The shots act on the Asian strain as well as several other types of flu.

The inoculations are \$1 for the single dose. They will be available during the regular health center hours, 8:30 to 11:30 a.m. and 1:30 to 4 p.m.

Although the epidemic may be several weeks away, these shots do not have any preventive effect for two weeks, Glenn said. For this reason, immediate inoculation is stressed, he said.

The illnesses of this year seem to be of a more prolonged nature than those of the epidemic in 1957. This would further complicate crowded hospital conditions normally present during an epidemic, he said.

## Lowenfeld Will Speak At Exhibit Tomorrow

Viktor Lowenfeld, head of the department of Art Education, will give an informal talk at 2:30 p.m. tomorrow in the Hetzel Union art gallery before the official reception for the Adolescent Art exhibit.

Lowenfeld requested that the exhibit be brought here after he had first seen it at the Hague.

Among the books he has published are "Your Child and His Art," "The Nature of Creative Activity," and "Creative and Mental Growth," which is now used as a text book in more than 180 universities and colleges in the United States.

Already, 15,322 high school students have sought application blanks to the University, an increase of 38 per cent over the 11,094 figure of a year ago.

More than 7400 have returned these blanks, an increase of 32 per cent in returns as of this date last year and 74 per cent increase over two years ago.

"All these young men and women are qualified students. They could all profit from an investment in higher education. Failure to provide them with opportunities for a collegiate education represents a failure to develop our most valuable resource—'brainpower,'" Walker said.

Dean of Admissions Dr. Robert G. Bernreuter said "letters of intent" have been mailed to 2649 of the 7400 early applicants. Most of this group are in the first fifth of their high school class.

"Letters of intent" were introduced two years ago to inform top students of their almost certain admission. Last year at this time, only 2368 such letters had been issued.

Bernreuter said no admission will be final until March 1. He also added that no decision had been reached yet on the number of new freshman to be admitted. Last year, 3400 freshmen were admitted.

## Registration of Vehicles Required for Students

All students who have motor vehicles in Centre County will be required to register them when registering for classes next month.

At the time of registration, Albert E. Diem, vice president for business administration, said students will be required to show proof that the vehicle is insured for a minimum of \$10,000.

## 'Sleeping Prince' to End Players Spring Season

Players have decided to present "The Sleeping Prince" as their final production of the spring season, according to Robert Reifsnieder, director.

The sophisticated comedy, written by Terence Rattigan, is about an American show girl and a prince at the turn of the century.

It will run May 5 to 7 in Schwab Auditorium.

## Educational TV

# University Plans To Petition FCC

By NICKI WOLFORD  
Last of Series

The University plans to petition the Federal Communications Commission for channel 3 on very high frequency which will be saved as a resource for future use.

Dr. Clarence R. Carpenter, director of the Division of Academic Research and Services, said that an educational television channel for the University was just a "gleam in somebody's eye."

## IFC-Panhel Sing Scheduled for April

The Interfraternity Panhellenic Council Greek Week singing preliminaries have been scheduled for Sunday, April 3 and Monday, April 4 in 121 Sparks, Ronald Novak, Greek Week co-chairman, said last night.

Novak said that a definite location for the sing finals, to be held Wednesday, April 6, has not yet been decided. He said that there was a possibility of obtaining Schwab Auditorium for the event.

"I have talked with members of the Department of Speech and Department of Music and have been told that the acoustical properties of 121 Sparks will be satisfactory for the sing contest preliminaries," Novak said.

On Saturday, April 9, the fra-

ternities and sororities will undertake their various work projects in the State College and Centre County area. Robert Harrison, work projects committee co-chairman has suggested that some work projects be held outside the immediate area such as in mental hospitals, old age homes, and other institutions. He said that in this way the Greeks would be able to expand their good will efforts over a larger area.

Committee members are: Posters—Maxine Miller, Linda Weber, Joan Gerstl, Susan Hill, Marjorie Cohen, Robert Bellas, John Glassburn, Phillip Gabriel; Exchange Dinner—Judith Bentz, Robin Brooks, Penny Pierce, Marjorie Genter, Anne Ghiglione, Joseph Davis, Thonia Ritenbaugh, Karl Weise, Greek Sunday—Marjorie Harrett, Patricia Freet, Lynn Soleau, Janice Finlin, Charlotte Boyd, John Nelson, Robert Shettig, Louis Scallie

Outstanding Pledge Banquet—Luzene Jochem, Jane Prutzman, Allene Mangel, Sharon Stafford, Joanna Aluse, Robert (Continued on page two)

## Weather Varies; Snow Expected

An intensifying storm system passed across the northwestern corner of Pennsylvania yesterday bringing a variety of weather to all sections of the state including this area.

The warm tropical air arrived yesterday afternoon. The temperature reached the low 50's.

Much colder temperatures, a few snow flurries and gusty winds are expected to continue in the storm's wake. The high temperature will only be 30 degrees.

Clear and quite cold weather is due tonight as the mercury dips into the middle teens.

Partly cloudy and cold weather will continue tomorrow.

## Flights Scheduled For Dimes Drive

Today's the day you can fly so high in the sky, while helping the 1960 New March of Dimes.

Tickets will be sold from 1 to 4:30 p.m. at the University Airport for the annual "Fly-Away," sponsored by the March of Dimes, with all proceeds going to them.

A single-engine ride will cost \$2 and a twin-engine ride, \$4.

This is the first of many projects planned by the local Dimes Committee.

## Soviets Approve K's Military Cut

MOSCOW (AP)—The Soviet Parliament ratified Premier Nikita Khrushchev's military manpower reduction plan yesterday and urged the lawmakers of all other nations to cut their armed forces too. The vote of the 1300 deputies was unanimous.

Khrushchev drew clamorous applause in a final talk on behalf of his proposal to trim 1,200,000 men from the Soviet armed forces in the next year or two and maintain a strong defense by the increasing perfection of atomic, hydrogen and rocket weapons.

"All the people who spoke on my report and on the draft law

expressed their approval," the Premier said, bracing his arms forcefully on the rostrum at the windup of the day's discussion. "I ask you to approve this resolution."

This special session of Parliament, the Supreme Soviet, then adjourned without taking up any other business. The deputies, convened only Thursday, scattered in plenty of time to attend a gala performance of Prokofiev's opera, "War and Peace," at the Bolshoi Theater.

The call to all world parliaments to heed the Soviet example was directed particularly to those "having the largest number of armed forces." Among these are the United States, Britain, and France and, in the Communist sphere, Red China.

This was the clincher on a

program proposed, with suitable attention to propaganda effects, to reduce Soviet military payrolls one-third to a proclaimed goal of 2,423,000; put the demobilized men in industry and agriculture; and rely on nuclear age arms to offset the reduction in conventional forces.

Deputy Premier Mikhail A. Suslov introduced his appeal after Foreign Minister Andrei A. Gromyko and others had laid the groundwork in speeches on behalf of disarmament.

"The Soviet Union expresses its hope that this new unilateral reduction of its armed forces will serve as an example to other states and particularly to those having the largest number of armed forces," the key section said.
